Suburban Bargains Read Carefully

60 acres on the Plateau about one-half mile west of Elmwood Park, in a district that is fast developing. This is one of the best buys in acre property on the market today. Someone will make a lot of money on this tract of land. If you have serious intentions about high-class suburban property let us tell you about this. Price and terms on application.

120 acres north of Florence. This land is rolling and would not be classed as a corn land, although possibly one-half can be used for most any kind of crops usual to eastern Nebraska. I want to say, however, that anyone looking for an ideal country home and wants to go into the fruit business, particularly grape culture, he will find this farm to be ideal for such purposes. Mr. Nelson, president of the Nebraska Fruit Growers' association, estimates that after the third year a vineyard properly cared for will yield a net profit of \$183 per acre. The improvements on this place are very good and cost \$2,000 to \$3,000. The owner of this property is not in a position to handle it and is willing to sell away below the price on adjoining property.

80 acres about 3 miles east of Calhoun. All level land; all can be cultivated. Has small house, good barn and is well fenced. Possession March 1. Price, \$100 per acre.

## MAGNITUDE OF BIG CONFLICT TAKES ENGLAND BY SURPRISE

(By Associated Press.)

London, March 23.—The news coming from correspondents at the front today that 40 German divisions were engaged in the fighting on the front of attack, and that the greatest concentration of artillery in the world's history was operating, gave the British an idea of the tremendous struggle on the west front.

But nothing in the dispatches either from Field Marshal Haig, or from the newspaper correspondents had prepared them for the German claim which reached London late tonight of the capture of 16,000 prisoners and 200 guns, as the result of the first day's fighting in the new German offensive, and the disposition at the moment is to regard the claim as an exaggeration.

According to the correspondents, the British withdrawals, where they were necessary, were carried out in good order from advanced positions, which in the nature of the fighting of these days, it had been expected would be given up. These positions were generally believed to have been lightly held.

It had been intimated that the Germans would claim the capture of several villages, but the dispatches gave no hint of their names, saying only that it was inadvisable to indicate the present British line, because this would be giving information to the enemy.

All the dispatches emphasize the heavy cost to the Germans of the first day's struggle, and depict the ground from which they have withdrawn as being littered with German dead.

## The Slow But Sure Home

A few years ago two Omaha workmen were renting houses at \$25 per month. One decided to "Own a Home." He therefore made arrangements to purchase a \$2,500 home and pay for it at \$25 a month. The other decided that this method was too slow. He would wait till he could buy a home outright. Today the one man "owns his home", free of incumbrance and the other has a drawer with 120 \$25 rent receipts in it.

But the party of the first part also has 120 \$25 receipts just as negotiable as the rent receipts and worth just as much per pound for paper rags. He also has another document and it has a notary seal and two witnesses' hands on it and some style around the edges. It is call a warranty deed and is negotiable for \$2,500.

Do you own your home? Get the habit of watching the Real Estate offerings in the Want-ad columns of The Bee. These offerings are changed daily and one of them is the door to your opportunity. Your careful reading and watching is the key that will fit. When you find it act without delay. "Own Your Home" and
