# COUNCIL UPSETS PRECEDENT AND REINSTATES HAZE

### Mayor and Two Commissioners Oppose Subterfuge to Restore Pension Rights; Kugel Puts it Over.

After being off the force for 12 years, former Police Captain Henry P. Haze is to go back at full salary of $100 a month and eligibility to pension list within less than three years.

Mayor Dahlman and City Commissioners Butler and Parks voted no on this reinstatement, but Commissioners Kugel, Hummel, Withnell and Jardine voted yes. Kugel explained that the proposition was put up to him by Chief of Police Dunn, so the record stood 4 to 3.

**Should Not Ask It.**

"I don't believe that a man who has been away from the police department as long as Haze has should ask to be reinstated. I voted against another proposed reinstatement and I don't believe Haze should have been reinstated," stated Mayor Dahlman.

"It was just a case of getting back to be in line for a pension. I don't think it is fair to put Haze back ahead of men who are started in at $65 a month and here Haze is going back at $100 a month," was a statement by Commissioner Butler.

Parks gave similar reasons for voting against the resolution.

"What have you to say about offering your resolution to reinstate Haze?" was asked of Superintendent Kugel.

"Why, they have reinstated policemen here in Omaha after they have gone back to Ireland to live and have returned to Omaha," he said.

**Dates Back 12 Years.**

Haze was captain in the police department at the time of his "resignation" 12 years ago. He retired after charges then and had been on and off before. A few weeks ago Kugel stated he would reinstate Haze, because Chief Dunn made the recommendation. He did not say the chief made the recommendation under his direction. It is said Haze will be assigned a beat, but, of course, he does not expect to stay at that long. Kugel admitted the real reason Haze wanted to get back was in order to finish out 20 years' service to qualify him for a pension. Haze is 60 years old.

## Belt Line Halts Traffic; Girders Raised at Crossing

Dundeeites had experience with the old bob-tail street cars Monday, while teh huge steel girders were bing put in place over the tracks at the Belt Line crossing. In order to reach home Monday night the passengers had to transfer to a stub at Fortieth and Doge streets, which hauled them to the tracks. After walking over the tracks another stub car carried them home.

Workmen can begin to see the end of the long task involved in the elevation of the Belt Line tracks from Leavenworth to Chicago streets. All winter gangs have been at work driving piles and rebuilding the abuttments which carry the huge girders that support the trains.

Street cars were running as usual Tuesday morning.

## Abolish City Officers in Smaller Cities, Rail Order

The discontinuance of the city ticket offices in Council Bluffs April 1 is a move that officials of the Omaha roads have had under consideration for some time. Before many days a similar order is expected to go out against a large number of small cities where up-town city ticket offices are maintained.

It is contended that in a city the size of Council Bluffs, where no large proportion of the population is remote from the depots, no serious inconvenience will be worked by compelling travelers to go to the depots to buy thei rtickets. The money saved in Council Bluffs by the elimination of the city offices will amount to several hundred dollars each month. Most of the clerks will be assigned to other duties.

## Major Bridges Will Not Leave With Hospital Unit

Major E. L. Bridges, ahead of the medical staff of the Nebraska university base hospital, has been given a short sick leave and will not go with the unit when it entrains for Fort Des Moines.

Major Bridges has returned from Rochester, Minn., and is recuperating from an operation. Major Mayo, one of the Mayo brothers, obtained the sick leave from the adjutant general.

All officers of the unit will eventually be mobilized at Fort Des Moines. Many of them are now at different army cantonments and camps in all parts of the country. Major Bridges does not know where he will be sent for his training.

## Carriers Working Hard For Salvation Army Fund

The letter carriers' drive for Salvation Army war funds is in full swing and will continue for the next two weeks. Postmaster Fanning reports that his men are working with enthusiasm and obtaining results.

President Wilson's hearty approbation of the war work the Salvation Army is doing and his announcement to the American people that he hopes the campaign will be a success, indicates the importance of the work.

## Union Pacific Service Flag Biggest in State

The Union Pacific service flag, with 1,625 stars, has been stretched across Fifteenth street between the headquarters and the Omaha Building and Loan company's building. The 1,625 stars indicate the number of young men from the Omaha offices and the Nebraska division who have joined the colors. The Union Pacific service flag carries the greatest number of stars of any flag in Nebraska.

## Must Answer for Failure To Sell the Substitutes

Representatives of the Kenesaw Mill and Elevator company, and of the Scribner mills, are before the federal food administration of Nebraska this afternoon charged with selling flour without the requisite amount of substitutes.

| Union Packing Co. | 67% | Green Bay Packing Co. | 25% |

We could show many others who are making enormous profits, were their figures obtainable.

These figures are taken from different current reports that have come to our notice, and to our best knowledge and belief are correct.

## This Company Is Organized on a High Grade Basis --No Promotion Stock

The 8% Guaranteed Preferred Participating Stock that is now offered, not only calls for the first 8% dividend, but it is fully participating in the entire profits of the company.

The above plant (the first unit of our operation), is designed and equipped to handle a daily killing capacity of 250 Cattle, 1,500 Hogs, and 500 Sheep, and to handle all of our by-products, from raw to finished commercial products. We will manufacture lard, sausage, smoked meats and animal stock foods from fertilizer and blood, and prepare all casings and bones ready for marketing, and in addition, will manufacture an extensive line of food specialties, all under the supervision and inspection of the United States Bureau of Animal Industry.

Our cost system and operating end has been estimated by the highest and most efficient authorities in the United States, and while our plans call for an estimated daily killing capacity of 1,500 Hogs, we have figured in our operation only 1,000 capacity. Also our estimate is based on only 55% of the average yield of Cattle and 78% of the average yield of Hogs, and covers only 300 days' run throughout the year. We have a fixed charge in our cost of 6% on $2,500,000, besides liberal items in cost for depreciation in equipment, on plant, machinery and insurance, etc. Every item is conservative and included in the cost estimate.

## The Net Profit From the Operation of This Plant (the first unit), is Conservatively Estimated at $828,000 Per Annum, or More Than 30 Per Cent on Our Entire Capital.

# SKINNER PACKING COMPANY

## Omaha's Daylight Snow White Independent Packing Plant

**Financial Department, Suite 912, First National Bank Bldg., Omaha**

**Executive Offices, Suite 1400 First National Bank Bldg., Omaha.**

Omaha is the world's second largest live stock market; $192,000,000 of meat products were packed here last year, which represents but 60% of the live stock shipped to this market.

There is a great opening for a packing plant at Omaha operated under the right management and conducted along business lines. The operation by the Skinner Packing Company of Omaha's Daylight Snow White Independent Packing Plant, will retard the trans-shipment of live stock at this point, which will mean a great economic saving and a better market for shippers and producers.

The operating end of the business will be in charge of an official, nationally known in the packing house industry and with wide and valuable experience.

The SKINNER PACKING COMPANY will market its Specialty food products through the present nationally organized sales force of the Skinner Manufacturing Company.
