

### DAVID CITY MAN OFFERS HIS ALL TO GOVERNMENT

#### Nebraska Patriot Would Turn 80-Acre Farm Over to Country for Duration of the War.

D. B. Kinnison of David City typifies the spirit of Nebraska in the support of the war in a letter to Ward M. Burgess, state director of the war savings campaign. Mr. Kinnison offers to turn an 80-acre farm over to the government for the period of five years, or for the duration of the war, all the proceeds above the actual expenses of operation and a living for Mr. Kinnison and his family, to go to the government. The director's office states that letters of this sort are being received every day, though no one has as yet made quite so remarkable an offer as Mr. Kinnison.

"I own in the corn belt of Nebraska an 80-acre farm that has a market value of \$15,000, and is mortgaged for \$2,900, due in 1922," says Mr. Kinnison's letter. "I wish to turn this farm over to my government for five years, or for the duration of the war, to be used in any manner, to act as credit to procure funds for war purposes. I do not want bonds or war securities, or other source of profit in exchange, nor do I want to be reimbursed in any manner. I wish, merely, to live on and operate the farm, to keep it up, and pay the taxes and interest on the present loan. All that I ask is a comfortable living for myself and dependents (this living does not include high-power autos, Victrolas, operas, pianos, or other things made for millionaires and kings). All that I make above such a living I will apply to war activities. Made in Good Faith.

"This offer may seem foolish or insignificant to one accustomed to calculating in 10 figures, or you may consider it beneath your notice, or you may regard me as a crank, but nevertheless I make it in good faith, and not for political reasons or to get my name before the public." In the absence of Mr. Burgess, who is in the east, his executive secretary, Harry O. Palmer, has written Mr. Kinnison that this is a most extraordinary expression of patriotic fervor, and that his offer will be called to the attention of the president. He also suggested that the farm be christened "Liberty Acres," or "The Liberty Eighty."

Commenting on Mr. Kinnison's remark that he might be considered a crank, Mr. Palmer says that it takes a crank to start something, and that therefore while Mr. Kinnison may be a crank he is not one in the sense mentioned in the letter.

#### Lessons in Gardening For Pupils in Garden Work

School children who enter war garden work this summer will receive a series of 22 practical lessons in gardening. Joe Ihm, superintendent of garden work in the schools, has sent the teachers the following information of this movement which he is just starting:

We wish to enroll children in summer garden work who have sufficient continuity of purpose to stick to this work for the entire summer. Children who enroll in this work must be 10 years of age or over.

Enrollment cards will be sent to the buildings for the purpose of enrolling the children. Data on these cards are so plain that they need no explanation. The cards are to be returned not later than March 30.

Each child will receive a series of letters giving definite instructions concerning the preparation of the soil, the planting of his garden, etc., from the University of Nebraska.

Every school district in the city must have a volunteer supervisor for that district. The principal of the school will be able to determine best who will serve, in this capacity. Kindly leave the name of this person at the office of the superintendent.

Each child undertaking garden work must keep an expense account of the same in a book provided for him by the government.

At the close of the summer each child must write a story of his experience in garden work. This will aid him in his language work, and is a part of the garden work required by the government.

The committee is now considering the advisability of having a June exhibit of garden products when prizes will be awarded, also a fall exhibit.

#### Akins Drives His Fliover Into Car Standing in Street

Leavenworth street did not appear quite wide enough last night for William Akins, who says he lives at Fifty-sixth and Walnut streets.

He was driving a fliover until he struck something hard and destructive at Thirty-sixth and Leavenworth streets.

In his perilous drive William failed to see another automobile near the curb. He crashed into the car and thus ended his joy ride. William was arrested and charged with drunkenness and reckless driving.

Both automobiles were damaged badly.

R. C. Lucke, 3524 South Thirtieth avenue, owner of the other car, will appear against Akins in police court this morning.

#### Police Arrest Negro; Suspect Wanted Elsewhere

While officers of the morals squad were in search of alleged hidden liquor yesterday afternoon they arrested Thomas Laid, colored, at Twenty-third and Pacific streets.

Officer Buford spied Laid sitting in the front room of a house at 2304 Pacific street. When officers sought to enter Laid attempted to escape. He is being held at the police station pending advice whether he is wanted elsewhere.

#### Mrs. Elizabeth Unzicker Passes Away; 44 Years Old

Mrs. Elizabeth Unzicker, 44 years old, died Tuesday afternoon at a South Side hospital. She formerly lived at 4219 South Thirteenth street. She is survived by her husband and one brother. Funeral arrangements have not been made.

### Reserve Boys' Classes For Farm Work Organized

Special classes under the direction of Miss Carolyn Stringer will be arranged for the Boys' Working Reserve, it was announced from their headquarters Tuesday. These classes will cover all phases of farm work and are calculated to equip the boys for their summer activities much more rapidly than any other method which could be devised.

The high school reports that the boys are taking much interest in the reserve and that they are enrolling in great numbers.

Frank Bowers, county director for Sarp county, predicts that his county will have 100 per cent enrollment, while favorable reports are coming in from other sections of the state as well.

Three boys enrolled by the reserve are already now on farms and ready to begin work. Elmer Cowell has the honor of being the first in the city and state and is now on a farm near Gretna.

Even the little boys want to enroll and are much disappointed when they find there is an age limit, the directors say.

The employment agency at the court house reported that it had a boy enroll for shipbuilding, one of the places where boys can take the places of older men.

### Railroads Will Eliminate Excursion Business This Year

Word comes from the railroad passenger men who are at work in Chicago, lining up a plan for the operation of trains, with a view to the conservation of power and equipment during the war, that, acting under the direction of Director General McAdoo, the excursion business on railroads has been eliminated.

Rates to and from the parks, it is asserted, will continue as in the past, but the day of 1-cent a mile each way excursions has gone. The rate for this season is to be not less than 2 cents a mile, with one exception.

That exception is to be applied to the Grand Army annual convention to be held in Portland some time during June or July. For this meeting the rate will be 1 cent a mile, each way.

### Sergeant Baudo Here From Deming on Visit

Sergeant James E. Baudo of the 109th military train and police company, Deming, N. M., arrived in Omaha Monday to visit his parents, Mr. and Mrs. Adam Baudo, 2508 Poppleton avenue.

Sergeant Baudo arrived here on a trip to Fort Leavenworth, where he brought a prisoner.

He will leave for Camp Cody on Friday.

### FOOD BODY TO NAME PROFIT OF DEALERS

#### Federal Administration Will Set Price on Staple Products and Regulate Quotations for Different Markets.

New rules and regulations announced through the federal food administration for Nebraska yesterday included regulations of profits of dealers in staple nonperishable food products, storage warehouse men and dealers in green coffee.

Licenses in regulating profit on nonperishable food products shall not include accruals or payments of federal incomes, corporation or excess profit taxes.

Licenses are prohibited from storing licensed food commodities at rates fixed by contract or other arrangement which differs from those specified in filed schedules; when amendments are filed to any schedule, the new rates become effective 30 days after filing.

No licensee engaged in the manufacture of lard substitutes, shall, without the permission of the United States food administrator, sell any lard substitute at a higher price in one market than he is selling in another market. Sales for delivery at any one time of less than 5,000 pounds may be made at a price not exceeding 1 1/2 cents per pound over the car load lot price.

Dealers in green coffee must go under license. Rules regulating profits and quantities have been laid down. Ninety days supply is the limit authorized.

### Carlson Asks Wrong Man For "Snow;" He's in Jail

Federal Officer Lake looks so much like a doctor that he was taken as one last night, when Charles Carlson, Minneapolis, stopped him on a downtown street with an earnest plea for medical assistance.

"Can you get me a little dope, doc?" Carlson asked.

"Yes, I think so," the pseudo-practitioner replied.

Whereupon Federal Officer Lake called the police station for the black maria.

Lawrence Tague, plumber, 808 North Eighteenth street, who was with Carlson, was reluctantly taken into custody also when he loudly remonstrated with the officer.

### Fragrant Flowers Herald Approach of Easter Day

Easter is almost here. If you do not believe it, just look into the pretty flower shops of Omaha and see the wonderful array of beautiful blooms of all kinds.

First of all is the eastern lily, emblem of purity, which leads them all at this season of the year. Other potted plants to be seen in the shops are tulips, hydrangeae, hyacinths, jonquils and azaleas.

Sweet peas are most abundant this year and the green houses are filled with them. Roses of all kinds are in abundance, as are also carnations. Then there is the snap dragon and the violet.

### You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Adv.
