Omaha Women Respond to Call For Canteen Workers in France

FROM far-away France comes the S. O. S. for canteen workers. Will any Omaha women volunteer? That is the uppermost question in the minds of local Red Cross workers.

All winter a number of our young women have been studying diligently and we feel sure that visions of service abroad have filled their minds while they worked. Every day has found a group of faithful workers at the canteen at Fort Omaha. Will this training induce the women to volunteer for similar service near the fighting line?

The Omaha canteen workers are among our most attractive erst-while society women, who have abandoned luncheons and teas and given their time unstintingly to this cause.

No one will be allowed to go, however, if they have a relative in the service, and then the expense will be another big item. Miss Louise Dinning, who is now at La Panne, Belgium, is one of the patriotic women of whom all Omaha is justly proud. Her mother, Mrs. R. J. Dinning, calls attention to the importance of preparing sufficient funds for the expense of the worker who plans to go to France.

Mrs. Charles T. Kountze reported several applications had already been made this morning for the canteen service, but action on these applications will be deferred until the arrival of Mrs. Joseph Cudahy of Chicago, who has the matter in charge. Mrs. Cudahy was expected this morning, but her coming was postponed until next week.

Among our girls who are planning to do work abroad are: Miss Blanche Deuel and Miss Anne Gifford, who will go with the Nebraska base hospital unit. Miss Ruth Arnshein has been taking a stenographic course with that end in view, her friends say.

Dunn-Liddell Nuptials

St. Cecilia's cathedral was the scene of a pretty wedding this morning when Frances Margaret Liddell, daughter of Mr. and Mrs. John Liddell, became the bride of Mr. Ralph Dunn, son of Mr. and Mrs. J. T. Dunn. Rev. Father Harrington performed the ceremony.

Miss Josephine Ertz of Boone, Ia., played preceding the ceremony and Mrs. J. E. Pulver, cousin of the bride, sang.

The bride was very attractive in her tailored suit of blue with small black pattern hat. A corsage bouquet of bride's roses and lilies completed her costume.

Miss Catherine Liddell, sister of the bride, who was her only attendant, was also in tailored costume, her suit of blue being relieved by a bouquet of Mrs. Ward roses. A small gray hat was worn.

Mr. Gerald Stryker, a frat brother of the bridegroom, was best man. A wedding breakfast was served at the home of the bride's parents after the ceremony when covers were laid for 30 guests. Pink and white roses were used through the rooms and large baskets of white tulips formed the centerpiece for the table.

After a southern wedding trip Mr. and Mrs. Dunn will return to Omaha to make their home.

Mr. and Mrs. J. Ertz and daughter, Josephine, of Boone, Ia., were out-of-town guests.

For Bride-to-Be

Miss Betty Carr is a very busy young woman these days. Every day is filled with affairs for her, and when Lieutenant Byrne arrives the merry-making will continue until the wee small hours. Miss Ruth Fitzgerald invited 12 of Miss Carr's intimate friends to call at the Fitzgerald home this afternoon. Each guest brought a dainty gift for the bride-to-be and some of the guests were very recent brides themselves.

Mr. Harry Byrne will entertain at dinner Wednesday evening of next week in honor of Miss Carr and his brother. After dinner the party will see "Oh, Boy," at the Boyd theater.

For Mrs. Griffin

Mrs. G. F. Griffin of Chicago, who is visiting Mr. and Mrs. Barton Millard, will be honor guest at a dinner given this evening by Mr. and Mrs. D. C. Bradford. The Bradfords met Mrs. Griffin at Coronado, where so many of our Omaha folk forget winter and snow, and the dinner party will be a little reunion. Red tulips will form the centerpiece for the table and covers will be laid for 12 guests.

A number of afternoon affairs are being planned for the Chicago visitor, one or two to be given later in the week.

Church Society Elects

The Woman's auxiliary of All Saints' church met Tuesday afternoon at the home of Mrs. M. C. Bryant. Mrs. J. W. Cross of Pittsburgh and Mrs. J. F. Bryner of Connellsville, Pa., sisters of Mrs. Bryant, were the guests of the afternoon. The following officers of the coming year were elected at the meeting: President, Mrs. O. B. Williams; vice president, Mrs. M. C. Bryant; secretary, Mrs. Lois J. Cochran; treasurer, Mrs. W. P. O'Brien, and united offering, treasurer, Mrs. T. L. Blissard.

Matinee Party

Little Miss Elinor Kountze was hostess at a box party at the Orpheum Tuesday afternoon. The party was in honor of Master Lionel Nicholson, who is visiting with his mother, Mrs. Meredith Nicholson, at the Kountze home. The two boxes at the Orpheum were quite the cynosure of all eyes, for the little girls looked very attractive in their white dresses and bright ribbons.

Service Flags In Parade

Women entitled to hold service flags may carry them in the Liberty loan parade Saturday, the women's committee announces. All others in the parade will carry American flags.

Discuss Parade Plans

George A. Custer Woman's Relief corps will meet Thursday at 4 o'clock in Memorial hall to discuss plans for the Liberty loan parade, in which the members will take part.

Patriotic Meetings in All State Schools Urged by Miss Florer

Alice Florer

Every school teacher in Nebraska is asked to hold a patriotic meeting in her school before the closing of school this spring, by Miss Alice Florer, assistant state superintendent of schools, and chairman of the educational department of the woman's

committee, State Council of Defense. These patriotic programs are to be given by the school children, supplemented by patriotic addresses by local speakers on "The New Patriotism, or Why We Should Win This War." The meetings are to be advertised widely and are expected to draw large audiences from every community.

"We believe we will reach into almost every home in Nebraska through these splendid school programs," said Miss Sarka Hrbkova. "They will do a wonderful work in spreading patriotism throughout the state."

Miss Florer suggests that the following program be given, with such changes as local conditions may warrant:

By School
Talk, "The Star Spangled Banner," Led by School
Talk, "Liberty Loan" By Children
Talk, "Food Production and Food Conservation" By Children
(Including garden making, war-time cooking, flour substitutes, mealings, wheatless days, etc.)
Talk, "Child Warfare" By School
Talk, "American" Led by School
Talk, "Junior Red Cross Membership and Work" By Children
"Columbia the Gem of the Ocean" Led by School
Signing of food-pledge cards, signing of Junior Red Cross membership, etc.
Talk, "The New Patriots, or Why We Should Win This War" By Children
(Covering importance of Americanism, patriotism, cooperation with government, etc.)
"Keep the Home Fires Burning" Led by School

Duplication of Effort in Food Production Work is Charged

Objections to duplication of patriotic effort on the part of organizations to push and supervise food production are voiced by workers interested in this phase of service in Lincoln headquarters of the Council of Defense, women's committee.

Here are a few of the food production agencies cited:

AGRICULTURAL EXTENSION SERVICE, which works under the College of Agriculture, University of Nebraska, and the United States Department of Agriculture. The service works for all agricultural and home economics projects, and has a splendid machine to work with, experienced, specialists in every line, stenographers, mimeographs, mailing lists made up from years of work, a state acquaintance, etc. Under the general extension service is the junior extension service with its full corps of specialists in garden poultry, pig, calf, corn and other food production lines, beside work in canning, sewing, etc. It has its own efficient office corps, etc. The agricultural extension service has been the recognized machine in peace times, and should naturally lead all in war time.

FOOD ADMINISTRATION—The national food administration urges that production of food be stimulated through the state food administrations, beside the work of food conservation and administration. In Nebraska Mr. Watters started to push food production, but soon saw that this would lead to duplication and conflict. Therefore he wisely turned all work in production over to the extension service, where it belongs. In many states, however, there is duplication because the food administration still works to increase food production.

COUNCIL OF DEFENSE—The food production work on the woman's State Council of Defense in Nebraska, which is under the direction of Mr. George Coupland, is co-operating fully with the extension service. The food production work of the woman's committee in Nebraska, which is under the direction of Mrs. Fred M. Dewese, is co-

operating fully with the agricultural service.

Note—The woman's committee of the Nebraska State Council of Defense is under the woman's committee of the National Council of Defense.

THE BUREAU OF EDUCATION, which is a branch of the Department of the Interior, is at Washington, writing directly to the principals of schools, urging that the teachers be made leaders of garden work by the children through the 1918 season.

There is perfect harmony as to a machine which will work independently of all others in the state. The bureau of education was required to appoint C. W. Pugsley, who is director of the extension service, as state garden supervisor, that he might thus unify all garden work in Nebraska. This request was not granted. The bureau of education asked Mr. Pugsley for his plan of state garden work so that they might use it in their state garden work.

THE JUNIOR RED CROSS plans a statewide garden project, to be carried on with an entirely separate machine.

State and federal agencies are so far between all Nebraska leaders in these lines and they are trying, successfully so far, not to conflict.

State heads of most of these national departments are quite closely controlled from Washington, which is, of course, proper to a certain extent to get harmonious national action in a department. But this control prevents state heads from settling such problems as:

Can't the Washington heads of departments get together some way, or leave a state and develop already has been working going on? They keep driving wedges into us to force us apart. Mrs. F. E. Dewese, chairman of the food production department, writes:

There are also three private companies that try to stimulate national production and do not co-operate with anyone, the national garden commission, the National School Garden association and the National Agricultural society.

Personals

Mr. and Mrs. H. R. Bowen and two children, Raymond and Margaret, will stop a day or two in Kansas City on their way home from Excelsior Springs.

Dr. F. M. Hahn, who received the commission of first lieutenant in the medical reserve corps some time ago, left Tuesday evening for service at Fort Riley.

Mrs. J. W. Cross of Pittsburgh and Mrs. J. F. Bryner of Connellsville, Pa., are the guests of their sister, Mrs. M. C. Bryant.

Black moire is struggling for recognition; as far as the average woman is concerned it doesn't matter whether it wins or not.

SOLDIERS IN CAMP

The abrupt change from home comforts to camp life may be trying on your boy's health, but if he will only take the rich liquid-food in

SCOTT'S EMULSION

it will create richer blood to establish body-warmth and fortify his lungs and throat. Thousands of soldiers all over the world take Scott's Emulsion. It is exactly what they need.

Mothers! Here's Something New For Croup and Cold Troubles

An External Treatment That Replaces Internal "Dosing." You Can Let the Children Run Outdoors in All Weathers and Get Their Needed Fresh Air and Exercise.

Growing children need plenty of fresh air and outdoor exercise and this exposure is bound to cause some colds. These colds should not be neglected, and yet, mothers know that constant "dosing" is bad for the delicate stomachs of children.

The best protection is plenty of fresh air in the bedroom, and at the first signs of trouble a prompt application of the Southern external "vapor" treatment, Vick's VapoRub. You simply rub it well over the throat and chest, and cover with a warm flannel cloth.

Leave the covering loose around the neck, as the body heat releases

medicated vapors that are inhaled all night long, loosening the phlegm and opening the air passages. In addition, VapoRub is absorbed through and stimulates the skin, taking out that tightness and soreness in the chest. Usually croup is relieved within 15 minutes and colds over night.

The local druggists realize the value of an external treatment, especially in the case of small children, and in the interest of their customers, are offering VapoRub in any of the three sizes—25c, 50c or \$1.00—on 30 days' trial. If you are not delighted with the results, the purchase price will be refunded.

Mrs. Whitehouse Quits Propaganda Mission In Switzerland

Mrs. Norman DeR. Whitehouse

Mrs. Norman DeR. Whitehouse, who has been in Switzerland as the agent of the committee of public information, spreading American propaganda among the neutrals, has quit her post there. It is said that her reason for quitting the work was because of differences with the United States minister at Berne.

Hints to the Wise

Vinegar will soften the bottle of dried glue.

Metal that is wrapped in waxed paper will not rust.

Left-over vegetables are best used for vegetable soup.

Keep the house well ventilated; it will be easier to heat.

Excellent polishing cloths are made from old velvet.

To fry fish properly they should be put into boiling hot fat.

A weak solution of chloride of lime will remove peach stains.

Skimmed milk and corn bread and butter are a nourishing lunch.

A little parsley cooked with the meat stew gives it a good flavor.

Try dipping the French fried potatoes in oatmeal before frying.

You cannot have good, light cakes unless the eggs are perfectly fresh.

Fine blankets and shawls look best when dried on curtain stretchers.

Don't imagine that palatable food can be prepared from poor materials.

Boiled rice served with any stewed fruit make a good inexpensive dessert.

First Women to Drive Trucks in Omaha for Red Cross Salvage

Omaha's first women truck drivers are now on duty. They are Mrs. Blaine Young and Mrs. Allen Parmer, who have enlisted for the duration of the war with the Red Cross. They have been officially named to drive the salvage committee's trucks.

Of course, they are to have a uniform all their own style. It consists of khaki colored motor coat, tan leather puttees, a small cap of rookie cloth, built on the same lines as those worn by the aviators, and a sleeve band of green with the letters "A. R. C." The band in overseas service is red.

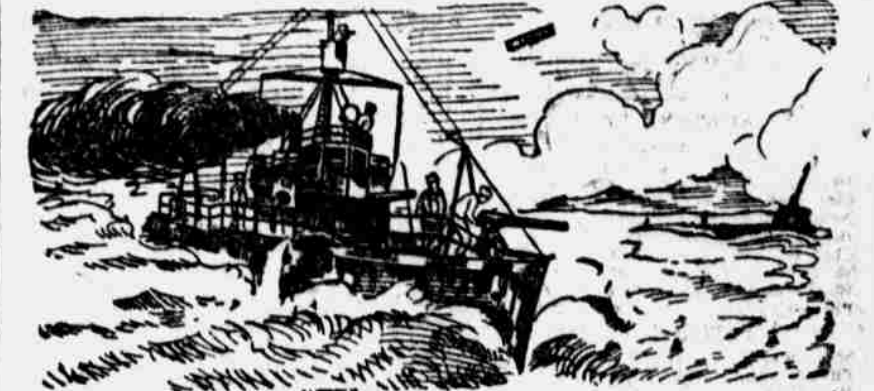

So far only one uniform is available. The two ex-society women divided that between them and mounted to the driver's seat. Not all the difficulties of belonging to the motor division are to be found at the front. Mrs. Young, who guided the wheel of the big truck for the first time, had a thrilling ride.

Her machine looks and sounds very much like something which belongs to a second-hand business. While the trip was her maiden one in such a car, she is just such an experienced driver that she was able to use one hand to wave to her friends

"Spiral Socks" for Soldiers' Comfort

"Spiral socks" are the latest comfort for the soldiers. Their chief advantage is that they are knitted without any heel. The "spirals" are somewhat shapeless, but soft and clinging and have been enthusiastically praised by the men. They are said to outwear three pairs of socks knitted in the other style.

The sock is the invention of Australian women and has been introduced to Washington by the local branch of the British-American war relief fund of which Miss Helen Ernst is chairman. Many prominent women are now learning to make the "spirals." The Red Cross is preparing to issue instructions for knitting the new style socks.

Submarine Destroyers

Our destroyers and scout ships are waiting for the sudden attack or the deadly torpedo—the watch on the Atlantic is on the lookout for the first indication of hidden danger—it's a fight for life. For those leading a quiet life at home it is often the unexpected that happens. It may be that we are mysteriously attacked by pain in our back or limbs, lumbago, "neuralgia" pains—shooting anywhere. Backache of any kind is often caused by kidney disorders, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys; hence the congestion of blood causes backache in the same manner as a similar congestion in the head causes headache. Perhaps you become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the lids, and lack of ambition to do things. The latest and most effective means of overcoming such trouble, is to eat sparingly of meat, drink plenty of water between meals, and take a single An-uric Tablet before each meal for a while, or until recovered.

Simply ask your favorite druggist for Anuric Tablets (double strength). If you have lumbago, rheumatism, gout, dropsy, begin immediately with this newest discovery of Dr. Pierce, who is Chief Medical Director of Surgical Institute in Buffalo, N. Y. Send 10c for trial pkg. All druggists sell large package for sixty cents.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. Compound of May-apple, aloes and jalap. Keep the body clean inside as well as outside.

Speed!

Kauff knocks a homer into the right field bleachers. The Polo Grounds go wild.

Ten seconds later the fans are echoing the joyous roar in San Francisco, in New Orleans, in Portland.

Over the largest telegraph circuit ever operated, each play in the world series was instantaneously transmitted to score-boards in 25,000 cities and towns. At no time was any score-board more than one play behind the game.

Speed!
And faultless organization!

News must come quick,
—or it's history.

The Associated Press duplicates its World Series feat almost every day.

Is it a British assault in Flanders, a new uprising in Russia, or a miners' strike in Montana, The Associated Press gets the news when it still is news.
