

REV. TITUS LOWE HOME AFTER SIX MONTHS ABROAD

Omaha Minister Returns From Six Months' Service in "Y. M." Work on Battlefields of Europe.

Rev. Titus Lowe, pastor of the First Methodist church of Omaha, arrived in Omaha Friday morning, after six months of service in Young Men's Christian association work on the battle front in Europe.

The minister still wore the service uniform of the Young Men's Christian association, when he swung off of the Northwestern train to greet a large number of members of his church, friends and acquaintances, who had gathered at the Union depot to welcome him home.

Fred Walrath, who accompanied Rev. Mr. Lowe to France, Mrs. Lowe, his daughter, Jane, and Mr. and Mrs. C. H. Walrath, arrived with Rev. Mr. Lowe from New York, where they had gone to meet him upon his arrival there from overseas. Mr. and Mrs. Royal D. Miller and Rev. Mr. Lowe's two daughters, Madeline and Eveline, met him at Council Bluffs and rode into Omaha with him.

Reception at Depot.

A general reception was held at the depot by the 200 friends who had assembled to meet the returning minister, after which he was escorted to his home at 3261 Farnam street, where he remained the rest of the day to receive the congratulations for his safe return from his many friends.

A surprise had been planned for Mr. Lowe at the First Methodist church, but it was postponed until Saturday. The surprise was to have been the presentation of a sedan automobile, but the secret, as most secrets do, became common knowledge and the minister learned of it long before his arrival in the Gate City.

Dr. Lowe, in speaking of the war, said:

"It's going to be a long and bloody struggle, and the battle that is being fought at this time is by no means the end. The allies are united upon every proposition before them and they are determined to fight until the Kaiser is completely conquered. They want peace, but it must be a peace that will be lasting and one that will sound the death knell of autocracy throughout Europe."

"Since the United States has entered the war, there can be no question about the outcome. Our boys are in the thick of the fight and they are giving a good account of themselves."

"When I left the war front our boys had not gone into a fight as a separate and independent unit, but were scattered through the British and French divisions, doing their bit and doing it well. Now that they have been consolidated at one point they are going to be heard from."

Welcome U. S. Soldiers.

"England and France and all the people of those countries were glad to welcome the United States soldiers, for they felt that their entry into the fighting was the turning point of the war."

"The question of defeat never enters the minds of officers, soldiers or citizens of the allied countries. They are as confident of victory as it is possible for people to be. While they are all anxious for peace, they will never accept peace terms that will permit of Germany continuing its military system. It must be a peace that will be lasting and a peace that for all time to come will protect life and property."

During the greater portion of his time in Europe, Dr. Lowe was right on, or close to the battle line. He was in the front line trenches, where he administered to the wounded, and upon frequent occasions had an opportunity to look over into No Man's land.

Last night in the First Methodist church there was a public recep-

TOWL MADE HEAD OF HIGGINS PLANT

Expert of Many Years' Experience Will Be Operating Superintendent of New South Side Company.

The Higgins Packing company announces that E. B. Towl will be operating superintendent of its new South Side plant. Towl will have actual charge of the construction of the new plant and will assume the management after completion.

Towl is recognized as one of the foremost packing plant experts in the country. He built the plant of the National Packing company at Mexico City, and left there at the start of the war troubles, going to Kansas City, where he assumed charge of the remodeling of a large plant. He has had 30 years' experience with the big packers.

The plant of the Higgins company will be one of the largest independent packing plants in the United States and will be strictly up-to-date and of concrete, fireproof construction throughout.

The stock receipts at South Omaha are only partially cared for by the plants now located there, approximately 40 per cent of the stock being reshipped to other points for killing. This surplus will be taken care of by the new Higgins plant, which is expected to rival the largest establishments now located on the South Side in quantity of output ultimately.

Former Omaha Attorney Now Boasts Two Service Flags

J. H. McIntosh, former Omaha attorney, now residing in New York City, writes to Omaha friends that he has ordered two service flags, one for his home and one for his office, with three stars each. All three of his children are engaged in efforts to win the war.

Miss Marjorie McIntosh, who visited her grandmother, Mrs. C. B. Rustin, some time ago, is working in the foreign language department of the postoffice, reading Spanish, French, German and Portuguese.

Kenneth McIntosh, who is well known to many of the younger set here, is a first lieutenant and instructor in the regular army and is stationed at Waco, Tex.

Rustin McIntosh, the second son, is a lieutenant in the medical reserve corps and is now on his way to France, having left New York within the week.

Red Cross Marchers Will Meet in Twenty-Fifth St.

Gould Dietz calls attention of the Red Cross marchers in the Liberty day parade, Saturday, to the fact that their section will meet at 1:30 o'clock on Twenty-fifth street, between Dodge and Farnam streets, facing Farnam.

Street Railway Company To Build New Car House

The street railway company has decided to build its new car house at once on the land recently obtained on Twenty-sixth and Cumming streets, and has let the contract to McGowan & Jacobberger, who have agreed to start work May 1. This new and modern structure will be 132 x 450 feet in length and will house the cars of the Benson, West Leavenworth and Asylum lines.

Charge Doctor Neglected To Report Smallpox Case

A warrant for the arrest of Dr. Ernest Alexander on a complaint that a case of smallpox was not reported and that much exposure resulted from that alleged neglect, has been issued, Health Commissioner Connell reports.

"I have warned physicians about reporting smallpox cases and I intend to enforce the law," said the health commissioner.

Street Railway Company to Let Down Bars on Age Limit

Owing to the difficulty in finding men to do the work, the Omaha Street Railway company is likely to soon let down the bars on age limit. Previously men past 35 years old were unable to find employment with the company as motormen or conductors. Now applicants who are 40 years old are accepted if they can pass the required physical examinations. Extending this limit to 47 years is considered favorably.

During the last six months the Street Railway company has lost a great number of the younger conductors and motormen. Many have gone to war, while a large number of others have gone farming or engaged in other lines of work.

Three Negroes Bound Over On Charge of Having Drugs

Three negroes, William Purvine, Virgil Price and Jesse Shields, charged with violating the Harrison drug act, were bound over to grand jury by United States Commissioner Neely under bonds of \$2,500 each at the preliminary hearing Friday morning.

The men were arrested by federal agents a week ago charged with selling dope on the street. Price and Purvine had marked money which the federal men used to obtain evidence against them.

BOYS' DEPENDABLE SHOES

Saturday is Boys' day at Drexel's. Do not be satisfied with the "good enough" kind—get a real shoe—made for hard wear that a good, live boy will give them.

If our kind of Boys' shoes cost a trifle more than the common kind you will find them worth more than the difference.

We guarantee every pair of our Boys' shoes to be satisfactory to the boy and the parents.
