'OVER THE TOP' IN EVERYTHING IS STATE'S RECORD

Nebraska Has Accomplished Great Results in First Year's War Activities; Women to the Fore.

Today, the first anniversary of America's entrance, in the world war, finds neither Nebraska's young manhood nor its organizations have been lacking in their war work activities since the memorable April 6, 1917.

Nebraska has given twenty some odd thousands of its sons to the army and navy, and is able to boast of other notable accomplishments in the general effort to help bring the war to a successsful conclusion. Prominent among these are the state's records in the war work campaign of the Y. M. C. A., the Knights of Columbus, the American Red Cross and the government's Liberty loan and thrift

Before Uncle Sam's selective service law went into actual operation on June 5, 1917, a total of 5,691 Nebraskans had responded to the call to arms in the army alone. Many, too, preferred service in the navy and marines and joined these branches of the service. While the state's gross quoto for the draft was 13,876, it was only necessary for Nebraska to furnish 8,185, its net share for the fational army.

Many Volunteer. To the state headquarters for the draft at the capitol building there have come approximately 2,000 selective service certificates showing that at least 1,500 Nebraskans of draft age had voluntarily joined the army and 1,100 the navy since the fifth day of June of last year, During the period from December 1 to 12, 1917, when the government gave men subject to draft their last chance to voluntarily go to the colors, 4,000 Nebraskans in the Omaha district alone responded to the call.

The state has three national guard regiments in the field. A fourth guard regiment, of which Governor Keith Neville was to have been in command s colonel, was organized after the war broke out but was later disbanded because of no assurance that the unit would have its chance for active service along with the other

state military organizations.

In the last Red Cross campaign
Nebraska led its sister states on a per capita basis and latest reports indicate the state will repeat this accomplishment in the drive for the sale of thrift stamps. Governor Neville, in his recent proclamation asking that today be observed by every Nebraskan by making the upmost effort in behalf of the third Liberty loan, took occasion to point out the success of the state's war efforts in the past, and his statement may be taken as a personal congratulation to the people for what they have done. Their record in the first Liberty loan drive was to buy \$19,035,700 of the bonds, and in the second to take \$33,-317,200 worth.

When the Y. M. C. A. began its national campaign in the fall of 1917 to secure \$35,000,000 for war work among the soldiers at home and Nebraska was asked to furnish \$250,000, but when the final figures were checked up it was found that the state had subscribed \$504,878, or nearly double its share. The Nebraska Y. M. C. A. is also able to report that it is beyond its quota in the task of furnishing volunteers to carry on the association's army work. K. of C. "Over the Top"

So, too, did the Knights of Columbus in Nebraska respond for more than they were asked when that organization made its recent nationwide campaign to obtain funds for war work at the contonments overseas. In round numbers Nebraskans gave a quarter of a million dollars toward this work, which was about twice the quota assigned the state. Of this sum approximately \$175,000 was subscribed in Omaha and \$14,000 in Lincoln, the remainder coming from the districts outside of these two centers. And, while other organizations have been hard at work doing their share for the national government, the state council of defense has, with the aid of its woman's committee labored almost daily to help the state cooperate with the national adminis-

tration's war aims. Woman's Work,

In this work the women have play-ed no little part. Since June 30, 1917, the woman's committee of the concil has brought about the following: Organized the women in 88 of Nebras-ka's 93 counties with full local machinery for the effective carrying out of government orders, securing the affiliation and co-operation of women's organizations of state-wide scope.

2. Registration of practically 50 per cent of the women of the state for patriotic

acryice.

3. Secured the signatures of tens of thou-

ands of housekeepers to food conservation sledges and conducted 44 canning schools n 33 Nebraska towns.

4. Made a complete survey of the teaching of German in parochial schools on the basis of which the defense council requested the discontinuance of the teaching of this language in the grades of public and private schools

Vate schools,
5. Secured the naturalization of several hundred foreign-born women.
6. Requested and secured the placing of an American flag in every school room in

the state.
7. Made a survey of social service agen-cies so regular charities and benevolent in-stitutions would not be in want during the

s. Investigated moral and health condi-tions at army camps in the state to secure clean and healthful recreation for the sol-

diers.

9. Worked in conjunction with the depart of home and foreign relief in festablishing new Red Cross chapters, auxiliaries and junior Red Cross societies.

10. Secured hearly 200 recruits for the training hospitals to make up for an expected shortage of nurses because of the salling for cantonment and overseas service of 200 registered Red Cross nurses.

11. Secured the training of women to

11. Secured the training of women to lour the state in behalf of "war gardens" to help increase food production.

12. Organized every school in the state for catriotic programs, securing co-operation from school teachers. from school teachers.

13. Organized a speakers' bureau of more than 109 women to speak throughout the state on the subject, "Woman's Part in

winning the War."

14. Sold hearly \$2,000,000 worth of Liberty bonds of the second loan and is ready
to aid in the coming loan drive.

15. Financed all of its operations through the co-operation of Nebraska women, using but \$500 from the funds of the council of
