

WEATHER HALTS BLOW PLANNED BY GERMAN LEADERS

Violent Artillery Battle Continues Along Both Fronts; French Withdraw, Inflicting Heavy Losses on Enemy; Teutons Endeavor to Entrap Allies By Shelling Formerly Quiet Sector.

(By Associated Press.)

The Germans have encountered unfavorable weather for the big attack they apparently were contemplating against the British front and no infantry action had developed when the reports were dispatched from headquarters this forenoon.

Neither was there any movement of the infantry along the French front, probably for the same reason.

The violent artillery battle, however, is being continued in many sectors on both fronts, notably in the case of the British along the line of approximately 15 miles from La Basse canal to above Armentieres, just to the north of the present battle area.

It was reported yesterday to be under a heavy bombardment with German gas shells, and the enemy has continued his pounding of the area, presumably with high explosives as well.

BOMBARDMENT A BLIND.

The British line on this front has not moved since the summer of 1916, and there has been little important fighting along it in this period, the Ypres and Arras battles of last year leaving it untouched on either the north or the south.

Although the Germans may be contemplating an attack here with the object of displacing the northern sector of the British line if possible, the probabilities seem that the bombardment is more of a demonstration than anything else, with the object of distracting British attention and conceivably drawing reserves from behind the more important front to the south.

In the Somme region the Germans are heavily shelling the British line directly east of Amiens.

The principal artillery battles in the French area were around the Montdidier salient and eastward to Noyon. These struggles of the big guns were carried over from yesterday, when the increased activity began to develop.

French Withdraw Troops.

Paris, April 9.—Violent artillery fighting occurred during the night at various points north of Montdidier, and also between Montdidier and Noyon, it is announced officially. No infantry action developed.

French advanced troops south of the Oise river withdrew to prepared positions southwest of the lower forest of Coucy and south of Coucy-le-Chateau.

The official statement says:

There was great activity on the part of the artillery on both sides at numerous points along the front north of Montdidier and between Montdidier and Noyon. No infantry action occurred.

On the left bank of the Oise there were intermittent bombardments. Advanced French troops, in conformity with orders which had been given, carried out a withdrawal to prepared positions southwest of the lower forest of Coucy and south of Coucy-le-Chateau. German troops were kept constantly under the French artillery fire and suffered heavy losses in the course of this operation.

Two German raids northwest of Rheims were repulsed. Other German efforts against small French posts near Eparges, in the section of Reillon and north of Bonhomme achieved no greater success.

Shell British Front.

London, April 9.—The German artillery developed great activity early this morning on the British front on the line from LaBasse canal to south of Armentieres, according to today's war office announcement.

"Nothing Doing."—Haig.

London, April 8.—Except for hostile artillery activity on different parts of the battle front, and especially in the neighborhood of Bucquoy, says Field Marshal Haig's statement from France tonight, "there is nothing of special interest to report."

tion to help our gallant men in this supreme test of all time for the liberties of the world."

Telegram to loan headquarters here today indicated that many loan organizations in all parts of the country already have raised their quotas. From the St. Louis district came his message:

St. Louis Over Quota.

"Salesmen plunged into the work of disposing of \$75,000,000 of bonds. St. Louis' quota of a little more than \$39,000,000 has been lost sight of and nothing less than the sum aimed at will be discussed."

The honor roll of communities which already have subscribed quotas outlined to grow today. San Francisco sent word that 65 communities to that district claimed honor flags. New York reported the award of about 25. From Chicago came word that 24 townships in Will county, Illinois, had gone over the top and that follet raised its entire quota in eight hours, without the assistance of a single corporation or bank. Burlington, Vt., also was an early claimant of the flag.

Cleveland reported that citizens of 9 nationalities are making a house o house canvass in the foreign language district and are harvesting many subscriptions.

Prager Lynching Probe And Inquest Postponed

Collinsville, Ill., April 9.—Official investigation of the lynching last Friday morning of Robert P. Prager, a German, was halted today to allow coroner Lowe and assistants to attend to other county affairs.

The inquest was postponed until tomorrow, when witnesses are expected to divulge details of the hanging upon which evidence may be obtained to make arrests of guilty parties possible.

UNCLE SAM TO PUT 250,000,000 DOLLARS INTO MELTING POT

Bill Pending in Congress Would Retire Immense Number of Silver Certificates and Substitute Federal Reserve Bank Notes as War Finance Measure.

Washington, April 9.—Melting into bullion of more than 250,000,000 silver dollars now in the treasury for sale and export to pay trade balances, and repurchase of silver at \$1 an ounce, is proposed in an administration bill introduced by Senator Pittman as an emergency war measure.

Silver certificates would be withdrawn from circulation as the dollars are taken from the treasury and federal reserve bank notes of new \$1 and \$2 denominations substituted.

If enacted, the measure virtually would fix a standard price for silver at \$1 an ounce, several cents above the present, and stabilize the world market, since the United States produces almost half of the total. The bill also is intended to stimulate silver production and to use the treasury's reserve stock of that metal, instead of gold, to settle this country's commercial trade balances in the orient and elsewhere.

Absorb Entire Output.
In anticipation of action of congress Raymond T. Baker, director of the mint, has formulated an agreement with silver producers and dealers to sell to the government at the \$1 rate. The probable result would be for the government to absorb the country's entire output, about 74,000,000 ounces last year. Officials have stated they would make arrangements to supply quantities of silver to jewelers and manufacturers requiring it.

The bill would permit the secretary of the treasury to fix the selling price of the government's silver, but it is assumed this would be not less than \$1. India, China and Japan need silver most for coinage, and quantities also might be exported to South American countries and European neutrals whose trade balances are against the United States. India's requirements would be negotiated through Great Britain.

Leave Small Britain.
The treasury now hold 491,000,000 silver dollars, containing about 376,000,000 ounces of silver. In withdrawing silver certificates based on this coin effort probably would be made to take bills of denominations of \$5 and more, leaving the \$1 and \$2 bills which now are in great demand.

To guard against contracting circulation, however, Senator Pittman's bill would provide for issuance of federal reserve bank notes, of which only \$11,670,000 are in circulation, in small denominations than the present \$5 minimum. Federal reserve bank notes, however, are the same as national bank notes, but the special notes would have a slightly different basis, consisting of treasury certificates of indebtedness or one year gold notes. Arrangements would be made for the federal reserve board to force withdrawal of these when the silver is replaced in the treasury. No more could be issued at any time than the face value of silver taken from the treasury.

M'Adoo Backs Bill.

Secretary McAdoo wrote to Senator Pittman supporting the bill as a war measure, although he suggested there might be a wide difference of opinion on the best method of replacing of silver certificates with other currency.

"In this way," the secretary explained, "the large mass of silver which is serving no useful active purpose now can be made available for a direct war purpose. There is no intention of making any permanent change in the status of the silver certificates."

"The proposition is in brief to retire silver certificates; to borrow from the treasury the silver for use, for war purposes; and then, as silver from time to time in the future comes on the market, to replace the silver so borrowed by purchase in the market at the fixed price of \$1 per ounce and to replace the borrowed silver by coining the new silver acquired for that purpose into standard silver dollars. There is no time limit in which this must be done."

Need Small Change.
No silver dollars have been coined since 1904. For half dollars, quarters and dimes, the government this year needs about 21,000,000 ounces of silver. Determination on the part of treasury officials to urge the fixing of a silver price resulted from the erratic fluctuations of the silver market. A conference of western senators, silver producers and treasury officials recently discussed the subject at length with the idea of \$1 an ounce as a fair price.
