**MANY POLITICAL BOOMS TO LIGHT IN THIS SESSION**

**Lieutenant Governor Howard Prepares to File for United States Senate; Others Long for Office.**

(From a Staff Correspondent.)  
Lincoln, April 8.—(Special.)—Lieutenant Governor Howard went to the secretary of state this morning and obtained the necessary papers to make a filing for United States senator. In good time the lieutenant governor has promised that an anxiously waiting public will hear what he has to say.

For governor several little booms have been sprung during the legislative session. Speaker Jackson was often urged to come out for the democratic nomination, while it is pretty well known that W. J. Taylor of Merna also will get in the running. Senator John Robertson of Joy will proclaim his entry some time in the not far distant future, if the dope rings true.

**For State Officers.**  
For lieutenant governor it was hinted that Senator Walter E. Hager of Hastings was casting his eye in that direction with the idea of filing for the democratic nomination.

Reishick of Falls City was frequently spoken of in connection with the democratic nomination for state treasurer. Reishick has been head of the finance committee of the house for two sessions.

Representative Hoffmeister, of course, is getting ready to file for the democratic nomination for congress in the Fifth district, trying conclusions with Congressman Shallenberger for the democratic honors. However, Dr. Hoffmeister has not been in good health for some time and may conclude unless his health gets better, not to make the race this time.

Senator Beal of Custer has already filed for the democratic nomination for congress in the Sixth and will try conclusions with Secretary of State Pool for a chance to lift the scalp of Uncle Moses Kinkaid.

**McMullen for Congress.**

That is about as far as the dope mill runs on the democratic side, but on the republican side, Senator Adam McMullen will be a candidate for the republican congressional nomination in the Fourth district, to succeed Congressman Sloan. Senator McMullen is unquestionably congressional timber, as his work in the senate has shown, besides he was a member of that celebrated legislative session of 1907, which though strongly republican in all departments, the few democrats of that body still like to refer to it as the most constructive and greatest session the state has ever known.

Over in the house several representatives will try for higher honors in the senate. Among them are George W. Greenwald of Custer, Eugene Beal of Keith, Perry Reed of Hamilton, J. H. Craddock of Douglas, Albert H. Miller of Washington, Leo Stuhr of Hall and probably some others who were a little backward in expressing themselves. Not all of the above made their candidacies known.

**Dodge County Expected to Oversubscribe Loan Quota**

**MORE SPEED IN DRAFT URGED BY CROWDER**

**Provost Marshal General Says Occupational Cards Not Sent In; Great Need for Them Exists.**

(From a Staff Correspondent.)  
Lincoln, April 9.—(Special.)—Provost Marshal General Crowder has telegraphed an urgent appeal to the Nebraska State Council of Defense to assist in providing all local draft boards in the state with adequate assistance for transcription and transmittal of occupational cards.

General Crowder explains that school teachers have already been assisting, but have not proved adequate and in some instances boards have detailed entirely and many are badly behind in the work. He further points out that until transcription of the occupational cards is accomplished the United States army must wait for vital needed skilled workmen.

"This is therefore a national emergency," General Crowder states, "and I consider this a critical test of ability of state and local councils. The question is, Will they rise to the emergency?"  
The state council has advised General Crowder that he may be assured Nebraska will rise to the emergency and is asking its county council to take this matter up at once and provide the necessary help without delay. Early responses indicate that the county councils are finding it comparatively easy to supply the help needed, although in some sections of the state it is admitted there is a dearth of clerical aid.

them except the most extreme necessity and the fact that the nation was fighting for all which was essential and most sacred to the national life.

The Germans attacked with 97 divisions, approximately 1,160,000 men, the premier told the house. They were relying on the idea that the allies had not united command and expected to divide the French and British armies.

**Army Saves Situation.**  
At one time of the battle the situation was critical. The enemy broke through between the third and fifth armies. The situation was retrieved by the magnificent conduct of the troops, which retired but were not routed.

The forecast regarding probable enemy attacks made by General Sir Henry Wilson, chief of the imperial staff, was characterized by the premier as the most remarkable ever made.

In opened the battle, he continued, the Germans had an exceptional advantage in the weather which was dirty and misty. They had organized their troops to produce a greater number of divisions and had the advantage of the initiative, with the consequent knowledge as to the width, strength and dimensions of the attack. There were large concentrations of German troops at various points of the line. Owing to the ease with which troops could be moved at night, he explained, the element of surprise could not be eliminated.

No army was ever before transferred across the channel as quickly as were the troops sent to relieve the situation, the premier asserted. He referred to the appointment of General Foch to supreme command of the allied strategy and said it was the most important decision which had been taken regarding the coming battle.

**THIS MAN SAYS HE HAD FALLEN OFF THIRTY POUNDS**

**Had Been Going Down Hill Two Years—He Now Feels Fine**

Hundreds of Omaha people, both men and women, are now taking Tanlac with the most surprising and gratifying results, and numbers in the past few days have testified to the benefits they have derived from its use. Among the number is Arthur Hamburg, who lives at 2308 Howard street, and has been a resident of this city for the past twenty years.

"Up to two years ago my health was fine, and at that time I weighed one hundred and seventy pounds. Then my appetite left me almost entirely, my stomach got all out of order and my nerves became all upset. I gradually dropped down in weight to one hundred and forty pounds and my condition became one of constant distress and worry to me. I was never hungry and just had to force myself to eat, and what I did eat disagreed with me. Gas would form and keep me in misery for hours after every meal. My sleep was unsteady and I would get up in the mornings feeling just as dull, sluggish and tired as on going to bed at night. I had tried so many medicines without any results that I hardly knew which way to turn for relief.

"One of my friends persuaded me to try Tanlac, and to my surprise and joy I began to feel better after my first few doses. I have finished my fourth bottle now and my appetite is splendid. My stomach has improved until I can eat just anything I want and the gas has stopped forming entirely. My nerves have improved until I can fall asleep at night like a child and get up in the mornings feeling rested and fine. I have already regained several pounds of my lost weight and am still picking up right along. I feel better than I have in a long time and can recommend Tanlac for what it has done, and is still doing, for me."

There is no season of the year when Tanlac can be taken to better advantage than right now. In the spring-time, all mankind, after weathering the storms of winter, needs an invigorating tonic. There is nothing so invigorating to a run-down system as Tanlac. It is not only successful in the treatment of troubles like Mr. Hamburg suffered from, but will prove invaluable to persons suffering from the after effects of pneumonia, grippe, catarrh and bronchial troubles. Tanlac is a powerful reconstructive tonic and always produces most gratifying results.

Tanlac is sold in Omaha by Sherman & McConnell Drug Company, corner 16th and Dodge streets; Owl Drug Co., 16th and Harney streets; Harvard Pharmacy, 24th and Farnam streets; Northeast corner 19th and Farnam streets, and West End Pharmacy, 49th and Dodge streets, under the personal direction of a special Tanlac representative.—Adv.
