Did You Know—

Did you know that to take the water in which rice has been cooked and mix it with the juice poured off a can of tomatoes will make a good foundation for soup?

Did you know that a tablespoon of peanut butter is equal to a half tablespoonful of fat for cooking?

Did you know that the only part of the milk lacking in skimmed milk is the fat? So in recipes where other fat is used, the skimmed milk will do as well as the whole milk.

Did you know that in baking every egg that is used reduces the amount of baking powder one teaspoon?

Did you know that a little salt helps the flavor where sugar is customarily used? Yes, even in stewed prunes.

Nancy Hulst Wins Note by Playing Left Hand Only

Wherever local musical folk gather these days, some one is sure to exclaim: "Was it not wonderful for so young a musician?"

The "wonderful" thing was Nancy Hulst's brilliant rendition of the "Sextette" from Lucia, arranged for the left hand alone by Leschetitsky at the recent student's recital of the Tuesday Musical club at the Blackstone. Nancy played this spectacular thing, not to be spectacular, but because that was the only way she could play. The young high school girl sprained her right arm last summer and has been obliged to practice almost entirely with her left hand since then, rather than forego her music. The latter she would not consider for Nancy is ambitious to make music her profession.

Nancy, who is the daughter of Mrs. Mary Hulst, has appeared on three annual students' programs of the Tuesday musical club, winning her place each time by competition. She is 15 and has been an active member of the Junior Musical club for five years. Her name is being mentioned for the presidency this year, to succeed Olga Eitner. Nancy has been asked to appear Tuesday at the Prettiest Mile club, where three departments of the Omaha Woman's club will hold a luncheon and reception.

This promising young musician has taken piano lessons since she was 8 years old of her cousin, Mrs. R. B. Howell. When Nancy's accident occurred, Mrs. Howell gave her the left-hand composition to stimulate her interest, hardly believing she would master it—but she did, as proven by her rendition of this really difficult musical theme.
