

OMAHA TO 'CARRY ON' IN DRIVE FOR LIBERTY BONDS

Chairman Byrne Says Sale Will Not Stop Until Every Home Has Bought War Certificate.

"Omaha is not going to stop the sale of Liberty bonds until every home has been given an opportunity to invest in the 'safest investment on earth,'" declares T. C. Byrne, chairman of the committee in charge of the sale of bonds in this city. "It makes no difference how far over the quota we go, it is the number of citizens back of the government we want to count."

Omaha went over the top Thursday when the Woodmen of the World moved the tank past the Liberty bank in front of the court house and into the next block. Then came the bankers and announced a \$2,000,000 subscription which, with the sums counted up to this time, makes the total for Omaha more than \$8,500,000, as was shown at noon when the city "tank" was moved by the employees of the Burlington railroad.

Band Heads Parade.

The state "tank" was moved to the \$24,000,000 mark by the members of the Omaha Grain exchange, headed by a section of Sousa's great naval band, which arrived in Omaha this afternoon.

Saturday the city "tank" will be moved by the labor organizations of Omaha, and the state "tank" by employees of the smelter.

Rev. Titus Lowe, pastor of the First Methodist church, who passed six months in France, will be the principal speaker at the Liberty loan mass meeting at the Auditorium Monday night. Norris Brown will preside, a special musical program has been arranged.

Orpheum theater patrons responded Thursday night by buying \$5,100 worth of bonds.

Counties Go Over.

Kimball county, with a \$97,300 quota, has gone over 10 per cent, reports Claude L. Alden, chairman, of Kimball.

Lancaster county, with a quota of \$1,535,000, already has \$2,514,000 worth of subscriptions. The city of Lincoln subscribed \$1,564,000, banks \$150,000, and the county outside of Lincoln \$800,000. Lancaster county is a district by itself of which C. E. Matson of Lincoln is chairman.

H. O. Wilhelm of Omaha has been successful in getting the Northwestern Mutual Life Insurance company to make \$10,000 of its subscription through Omaha.

Clarence H. Mackay, president of the Postal Telegraph company, wired the Liberty loan committee a \$25,000 subscription to go to Omaha's credit. The theater loan, led by Major Maher and two trumpeters, Thursday night collected \$13,950, viz: Sun, \$3,500; Strand, \$1,600; Empress, \$1,500; Auditorium, \$1,150; Boyd, \$1,100.

Hayes county, quota \$23,300, has subscribed \$41,350. In the second loan it oversubscribed its quota 200 per cent. J. H. Bloedorn, Hayes Center, is chairman.

Sarpy county, quota \$163,200, has \$200,000, and is still climbing. I. D. Clarke, Papillion, is chairman. In the last campaign the county was handled from Omaha and only subscribed 31 per cent of its quota.

Howard County Patriotic.

Howard county, quota \$212,400, is over the top and still working. E. I. Andrews of St. Paul is chairman. During the last campaign the county only subscribed 42 per cent of its quota.

Thayer county, quota \$317,200, now has \$400,000, with some school districts still to hear from. W. H. Rhodes of Hebron is chairman.

Milwaukee railroad officials and employees up to Wednesday night had subscribed \$1,985,000 to third issue subscribed \$1,985,000 to the third issue formation received from the Chicago headquarters.

Peters Company is Depository for Alien Enemies' Property

Peters Trust company of Omaha has been designated as a depository of enemy aliens or allies of enemy aliens, by A. Mitchell Palmer, United States alien property custodian, of New York. Judge Howard Kennedy is trust officer of the company.

The Peters company will become an agency of the alien property custodian in the management of the property entrusted to it. It is authorized to collect and receive for dividends, interest and income from such property and in other ways do whatever may be necessary to protect and preserve the property and its proceeds.

All money received by the depository is remitted to the alien property custodian or deposited in the treasury of the United States, where it may be used at the discretion of government officials to buy Liberty bonds.

After the end of the war claims to the property or money so held or deposited will be settled as congress shall direct.

Alleges Cruel Treatment of Wife Turned Mother From Son

Helen DeMory, answering the petition for divorce filed against her by David J. DeMory, insurance man, alleges his mother turned against him because of his cruel treatment of her.

On April 16, she asserts, she went with DeMory's mother to Eighteenth and Maple streets, where he was living. On their arrival, she alleges, he attacked them, calling his mother "a thing," and said "he would rather walk beside a dog than to have his wife at his side." A crowd which gathered sought to have him arrested, she alleges, but she pleaded with them to keep him out of jail.

Nurse Found Dead in Room Will Be Buried in Wisconsin

The body of Miss Winnie Maloch, nurse, who was found dead in her room in the Barker block Tuesday noon, was taken to Mendota, Wis., Friday for burial. She died of heart disease. She came here as a nurse practitioner a year ago. She is survived by two brothers, living at Mendota, Wis., her former home.

WOLFE SAYS HIS BANK HAS MADE ALL DUE EFFORT

Thomas Wolfe of David City, president of the First National bank of that town, refers to the action of the State Council of Defense in summoning him for inquiry as to his purchase of Liberty bonds as an action unwarranted. It was, says Mr. Wolfe, due to malicious charges made by gossip mongers and irresponsibles. He further says:

"This bank had taken its full allowance of the second issue of the 4 per cent Liberty bonds amounting to \$19,000, as authorized by the Butler County Bankers' association, and has now on hand \$13,400. I have personally taken \$1,100 of the 4 per cent bonds and subscribed \$3,900 more of the 4 1/4 per cent third issue, and paid my Red Cross assessment of \$100 cheerfully, as well as made other contributions. I have done my utmost to assist farmers and stock raisers from my own resources to stimulate the production of food the past year—this may not count as patriotism much among the accusers and shouters, but it is as vital to win the war as any other contribution, and should we have failure of crops it might prove of the greatest importance.

"The undeserved compliment of being classed with millionaires my native modesty forbids me to accept, but if these windy patriots can furnish the money to that extent I might contribute enough to the war fund to make up what these worthies lack now in contributing. Let them show up their contributions."

Holders of Seed Corn Must Report Weekly to Government

All persons and concerns, whether grower or dealer, who handle seed corn in a commercial way, or who have on hand approximately 50 bushels or more of seed corn, or corn intended for seed purposes, are required by the secretary of agriculture, under authority conferred upon him by the food production act, to report each week to the branch office of the seed-reporting service of their division on forms provided for this purpose.

The reports are to be mailed to the branch office on or before Wednesday of each week; the date is then tabulated and the summary of this data mailed from the branch office of the division on Saturday of the same week to all who make reports of stocks or holdings, and to any others who may request that they be put upon the mailing list to receive this service.

Will Simplify Process of Switching in Omaha Yards

General Manager Jeffers of the Union Pacific, who has been placed in charge of the Omaha railroad terminals, is expected to complete his plans soon after his return from the west.

Tentative plans formulated by Mr. Jeffers, it is said, will simplify the switching, release considerable motive power and at the same time speed up service. For instance, in handling loaded meat cars from the south side packing houses the rule has been in the past for engines of Omaha-Chicago lines to take the cars, one, two or, perhaps three at a time, as delivered to them by the stock yards' switching crews. These cars were then held until enough to make up a train were collected. Under the new plan, one engine will collect all the loaded meat cars and take them into the unified switching yards, where they will be turned over to a designated road and sent east without any delay.

Doctors Hear Omaha Banker Explain How War is Financed

W. W. Head, vice president of the Omaha National bank, addressed the Off-Night club Thursday night at the University club on the subject of "Financing the War." The Off-Night club is an organization of doctors.

Mr. Head showed how the wonderful increase in the price of commodities made it much harder to finance the concerns which handle these commodities. "It takes a vast amount of money to handle all these commodities from the time they start from the producer until Uncle Sam is ready to pay for them when they are placed on boats and started for France, or when they reach the ultimate consumer if they are for consumption in this country," said Mr. Head. He cited several interesting instances of the money it requires to finance large concerns which are engaged in filling government contracts.

Edward O'Neil to Attend School of Aeronautics

Edward O'Neil, son of T. J. O'Neil, 2727 Chicago street, leaves Friday for Urbana, Ill., to attend the University of Illinois for a course in aeronautics, previous to an appointment in the aviation section of the signal corps of the army. Edward enlisted to take a course in the School of Military Aeronautics several months ago, and received orders last Wednesday to report for preparatory work at the university. He is one of 40 men chosen to attend the school. Edward was a former college student at Creighton university and was active in school affairs.

Boy Found Roaming Streets; Authorities Seek Parents

The parents of Vernon Randall, 9 years old, are sought by the Welfare board. Vernon was found roaming the streets early Friday morning by Mrs. P. Emig, 4232 Burdette street, who took him into her home, where he will remain until his relatives are found. Mrs. Emig's telephone number is Walnut 3489. Vernon says he thinks his father is a packing house employe, but he doesn't know where he lives.

Soldier Would Change Name of Familiar Song

"Marching Through Germany" as a substitute for the old, familiar "Marching Through Georgia" is a suggestion received by The Bee from a "soldier," Fort Omaha, who hopes that this will be done immediately throughout the country. "Drop that patriotic air, called 'Marching Through Georgia,' the word 'Georgia' and make it read 'Marching Through Germany.' Some composer will set proper verses to it and let us make a vow that we will sing it daily until it is sung in Berlin."

Western Union Cleared More Than \$5,000,000 During 1917

More than \$5,000,000 was cleared by the Western Union Telegraph company during the year 1917, in spite of the increase in wages to employes and the great amount of business handled at a reduced rate for the government.

The government business handled at the regular rates would have netted the company \$7,500,000. At the reduced rate this business was handled for \$3,000,000, leaving a sum of \$4,500,000 as a practical contribution to the government.

Increases in wages, special payments to employes, pensions, insurance, sickness and accident benefits cost the company over \$6,000,000, but in spite of this stockholders received a dividend of 7 per cent or \$7,000,000.

Wife, Suing for Divorce, Alleges Husband Beat Her

Minnie Weinstein, suing Abe L. Weinstein, commission man, for divorce, alleges he assaulted and abused her to such an extent that she was forced to summon physicians. She asks the court that no alimony be granted her, but desires the household goods, which are now in storage. The couple were married in Kansas City February 18, 1917.

This for the Huns

The Most Amazing Story of the War

Gunner Depew

by the Fighting, Laughing American Sailor Boy

Gunner Depew is the only war book of personal adventure written by an American sailor, who fought on land and sea—in Flanders and at Gallipoli. Gunner Depew contains the only complete account of the capture by the German raider Moeve of the S. S. Georgic and Yarrowdale—the only description of the famous Yarrowdale cruise around the north of Iceland and into Germany. Gunner Depew is the only war book written by an American which describes the wretchedness and misery of German Prison Camps—especially that most infamous of all camps, Brandenburg; "The Hell Hole of Germany."—\$1.50.
