

WARD BURGESS IS MUCH WANTED MAN IN CAPITAL

Vanderlip Insists Omaha Man Needed in War Savings Work; Cannot Be Released for Wool Job.

Washington, April 20.—(Special).—Frank A. Vanderlip, chairman of the national war savings committee, and Ward M. Burgess, director of war savings for Nebraska, had dinner together here Friday night.

Mr. Vanderlip came to Washington to see Mr. Burgess about the rumor that he would take charge of the woolen branch of the dry goods and clothing division, created in the war industries board. He insisted that Mr. Burgess would be necessary to the carrying on of the war savings work in other states, and that the national war savings committee could not consider releasing Mr. Burgess from the duties of war savings work.

Mr. Vanderlip proposed that Mr. Burgess devote his time for the next few weeks to visiting the other states in the union in which the war savings activity has not progressed as it has in Nebraska.

Rivalry Keen.
The rivalry between the war industries board and the national war savings committee for the services of Mr. Burgess is causing much interesting comment among those in Washington who know Mr. Burgess and are acquainted with the conspicuous success of the Nebraska war savings campaign. Mr. Burgess wired Arthur C. Smith, his business associate at Omaha, that he was disposed to

remain in the war savings work as long as he was needed there, but that he would render such assistance as he could to the war industries board, although he had not fully determined on what course would be pursued.

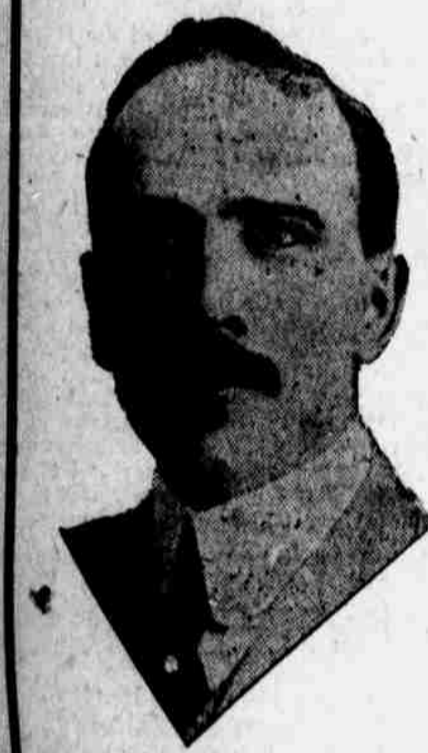

Letters from other state directors of war savings continue to come to Mr. Burgess asking for advice on how Nebraska succeeded so remarkably, and several directors have called on him personally.

Mrs. Wilson Reviews Parade Of Women in Philadelphia
Philadelphia, April 20.—Mrs. Wilson, wife of the president, came here from Washington this afternoon and from a grandstand at Broad street reviewed a parade of 25,000 Philadelphia women working to win the war. The most conspicuous group in the procession was a company of 50 Armenian women dressed in deep mourning.

Ikkes Joins Y. M. C. A. Staff.
Chicago, April 20.—Harold L. Ikkes, one of the founders of the progressive party in 1912 and a member of the Hughes campaign committee in 1916, today volunteered as a Young Men's Christian association worker. He will sail for France next month.

Doctor Praises Eczema Remedy

The cure of skin diseases (eczema) and other cases of the scalp is known to be difficult even with the best efforts of intelligent and discriminating physicians. However there is one remedy that is entirely dependable in this distressing and troublesome disease, that is D. D. D. Prescription, manufactured by the D. D. D. Company of Chicago, Ill. I take much pleasure in recommending it to the entire confidence of all sufferers with any form of skin disease, as a medicine they can rely upon with perfect confidence.
M. L. RANDOLPH, M.D.,
Oakhurst, Texas.
Dec. 11, 1917.
Come in and we will tell you something about what D. D. D. Prescription has accomplished in your own neighborhood. Your money back unless the first bottle relieves you. 35c, 60c and \$1.00.

What Painless Dentistry Really Means

A Frank Discussion of a Much Abused Phrase

The so-called "Ethical" Dental Societies of the United States have used as an argument against Advertising Dentists that they advertised "Painless Dentistry," and charge that—

"Advertising all dental operations as painless is untrue, positively silly, and unbusinesslike."

I hardly think any sane man, certainly no sane dentist, will dispute that statement, BUT, like many other "charges" made by the "Ethical" Dental Society, it is misleading, insincere and beclouds the real issue, which is—

DO DENTISTS AS A WHOLE USE EVERY POSSIBLE MEANS, INCLUDING TIME AND EXPENSE, TO MINIMIZE OR ELIMINATE PAIN IN THE DENTAL CHAIR?

I not only CLAIM they do not, I KNOW THEY DO NOT.

Scarcely a day passes but some nervous woman or timid child, yes, even MEN, tell me how they put off their visit until they could delay no longer, because they FEARED TO COME TO A DENTIST.

They say Dr. "Blank" was "so rough," Dr. So and So was "positively brutal," and some other Dentists "rushed them through," and it was this very state of affairs that spurred me on several years ago to perfect a method of anaesthesia, in order that I might extract teeth painlessly and minimize pain as much as possible in other operations.

Personally, I believe there is danger attending the use of "laughing gas," "air," "semnoform," nitrous oxide, etc., and that they should be given only in urgent cases, and then only by a COMPETENT PHYSICIAN.

I also realize that the average person cannot afford to pay TWO professional fees for the extraction of a tooth.

My ambition was to discover a LOCAL ANAESTHETIC that was SAFE, POTENT, INEXPENSIVE, AND WITHOUT BAD AFTER EFFECTS.

I succeeded so well that the name "PAINLESS WITHERS" was given me by my patients, and became so much a part of my practice that I incorporated the "Painless Withers Dental Company."

I claim for my method just this, and nothing more:

- (1) I have proven in thousands of cases that I can extract teeth, and, when necessary, extract live nerves with practically no pain.
- (2) I have instructed my associates to use such time, care and precautions as may be necessary to insure every patient the last possible distress, inconvenience or danger.

This often necessitates doing difficult work on sensitive teeth by easy stages and in several visits—but the CHARGE IS NO MORE.

There is a standing invitation to every dentist in the state, and to the public generally, to visit my office at ANY TIME, to inspect it, to examine my equipment, my sterilizing room, my laboratory, to watch the extraction of teeth under my painless method, to note the skill displayed by my staff on inlays, fillings, crown and bridge work.

This is ONE dental office that does exactly what it advertises and advertises exactly what it does.
