

INJUNCTION IS ISSUED AGAINST DEGREE OF HONOR

District Judge Troup Finds Mrs. Mayme H. Cleaver Overstepped Authority in Annuling Charter.

Permanent injunction, restraining Mayme H. Cleaver, grand chief of honor, Degree of Honor, Ancient Order of United Workmen, from declaring the charter of Washington lodge No. 27 defunct, has been issued by Judge Troup.

The court found that Mrs. Cleaver was overstepping her authority in annulling the charter on the grounds of insubordination. There was no showing made of failure to pay dues and assessments.

The suit is the outgrowth of a tumultuous meeting in which Mrs. Cleaver took the charter from the walls at the Labor temple and sought to oust the officers of the lodge.

Senator Hitchcock Lauds Nebraska's Part in War Work

Senator Hitchcock, speaking at the Chamber of Commerce Wednesday noon, eulogized the state for its splendid showing in the bond, Red Cross and war savings stamp drives and spoke highly of the position Nebraska now holds, far in the lead of every other state, in war activities.

The senator also paid a tribute to Major General Leonard Wood, and the French commander, General Boucher. Senator Hitchcock urged the necessity of forgetting everything except the war.

"On former occasions when I spoke in these rooms," declared the senator, "we have taken up community matters that were of interest to us here at home. But that is all past now."

Senator Hitchcock reviewed the great progress made by America during the first year of war, and told of the revolutionary bills that had been enacted by congress. The senator was especially proud of the draft law which was promptly passed by congress, while England, Australia and Canada hesitated long before taking the step.

BOND 'SLACKERS' DENIED CHARTER

"Western Men" Forfeit Privilege of Opening Bank Because of Doubtful Loyalty and Patriotism.

A group of men somewhere in the west has forfeited a national bank charter by reason of failure to subscribe liberally to the Liberty Loan.

It has been whispered that the incident relates closely to Nebraska, although none here is in position to give names of men or place. The story is given out in form of a circular letter to bankers from the office of the comptroller of the currency at Washington, under date of April 20, as follows:

"The comptroller of the currency a charter for a new national bank in a certain western state, as there was, apparently, an opening for bank in the community in which it was to be established and the applicants seemed to be men of responsibility and means and some prominence.

"Subsequently, doubt arose as to the loyalty and patriotism of the applicants, and it was ascertained that, although the six applicants for the charter were reported to be men of considerable means—several of them claiming to be worth \$250,000 or more—the aggregate amount of Liberty bonds of the first and second issues to which the six applicants had subscribed was only \$200, several of the applicants for the charter having no Liberty bonds at all, and their aggregate subscriptions to the Red Cross had been only \$149.

"The comptroller has today revoked the authority given for the organization of this proposed national bank, on the ground that men of means in these times, who show so little patriotism and so little public spirit in the matter of making subscriptions to Liberty bonds and to the Red Cross, are unfit to be placed in charge of any national bank."

PLAN MADE TO STORE COAL IN RESERVOIR

Will Erect Container for 100,000 Tons of Fuel at Thirty-Ninth and Marcy Streets.

Plans for a reservoir have been prepared by D. C. Patterson and others, in which to store 100,000 tons of steam coal in water at the southwest corner of Thirty-ninth and Marcy streets.

The basin is to be lined with concrete and to have an overhead track for the handling of coal by machinery, with which one man can unload 600 tons in a day.

These plans will be of interest to the owners of office, store and apartment buildings. Dr. Garfield and his fuel administrators are urging everyone to store coal and hereafter the owners of buildings will not have left to them in suits for damages for inability to furnish heat the excuse of failure to get coal, as they now have an opportunity in which to store their winter's supply at practically no increase in cost, for by taking a 99-year lease on space in the reservoir they can purchase steam coal in mid-summer.

The Water board has a coal reservoir that has in six years paid for itself three times and they now plan to build an additional reservoir that will give them storage space for a year's supply. The electric light company has had a reservoir for many years and last season built the second one.

Newspaper Advertising Comes First, Says Warfield Co. Head

Newspaper advertising comes first in the estimation of well informed manufacturers seeking to obtain distribution of their product and repeated sales, according to T. O. Warfield, president of the Warfield Advertising company, in his address to the Advertising-Selling league at the Hotel Fontaine Monday night.

"Newspaper advertising should precede national magazine advertising," he said. "Not only does it produce the direct results, but the interest and co-operation thus obtained from dealers and jobbers is more localized and intensified than is the case where magazines alone are used."

"Furthermore, local newspapers, being on the ground, are frequently able to render valuable merchandizing assistance not possible to the magazines, such as assisting in obtaining the right brokers and jobbers. They also frequently will aid in getting goods on the dealers' shelves by co-operating with the sales manager and with the manufacturer or jobber salesmen in the city."

"Bill boards, street car and outdoor advertising should be considered only after newspapers have been well covered and merely incidental to the campaign, and then only when the advertising campaign is more than enough to blanket the newspaper field."

Salesman Narrowly Escapes Violence From Angry Women

Two men canvassing the South Side with cards showing a picture of a helmet, the "East of Berlin" and the Stars and Stripes, the whole forming a rebus to read, "To helmet the kaiser, stand up for the Stars and Stripes," invaded a Bohemian neighborhood Tuesday morning.

They found the men of the homes absent, but the women were there a plenty. The latter could not translate the cute little rebus, but they did conclude that the two strangers were disseminating some kind of German propaganda.

In a few minutes the men were surrounded with a horde of angry, gesticulating and vociferous but thoroughly patriotic Bohemian women, who threatened to scatter portions of the agents' anatomy to the four cardinal points of the compass, and then some.

The opportune arrival of police saved the men. After explaining the innocent and patriotic nature of their cards they were allowed to go, but they gave up their jobs for something safer and not likely to be so easily misunderstood.

Omaha Men Feels Full of Vim and Energy Since Taking Tanlac—Gains 5 Pounds.

"Positively, I had taken so much medicine without getting relief that I had about lost faith in all of it, and I reckon I'd be a wreck by now if one of my friends hadn't persuaded me to try Tanlac," said Eugene G. McCoy, of 2406 North Twenty-sixth street, the other day.

"For over a year," he continued, "my system was all run down and my appetite fell off so I never wanted to eat at all. The little I forced down disagreed with me and I suffered agonies from gastritis. My food didn't do me any good and I fell off 10 pounds. I passed many a restless night unable to sleep, my liver did not act right and I had so little life and ambition that it was all I could do to drag myself around, let alone do a full day's work."

"When my friend told me about Tanlac I thought there must be something to it, for I could see that something had fixed him up, and I had hardly started on my first bottle before I felt it was taking hold of my trouble and beginning to straighten me out. My appetite has grown so much it looks like I just can't get enough to satisfy it and everything I eat agrees with me. I sleep like a log at night and get up in the mornings full of life and energy and can work 14 hours on a stretch, if necessary, and never feel tired a bit. I have gained five pounds already and am getting stronger and better every day."

Tanlac is sold in Omaha by Sherman & McConnell Drug Company, corner 16th and Dodge streets; Owl Drug Co., 16th and Harney streets; Harvard Pharmacy, 24th and Farnam streets; Northeast corner 19th and Farnam streets, and West End Pharmacy, 49th and Dodge streets, under the personal direction of a special Tanlac representative.—Adv.
