The strain was too great for his constitution and pneumonia developed, from which he died last yesterday. Adams worked for years in Denver and came to the Pacific coast two years ago. His last patriotic poem appeared in the Portland, Ore., paper a few hours before his death.

CUT THIS OUT What Nuxated Iron Is Made From

Sworn Statement of Composition of Its Formula It increases the strength and endurance of delicate, nervous, run-down folks in two weeks' time in many instances.

The Board of Directors have authorized the broadest publication of the sworn statement of the composition of Nuxated Iron, one of the most widely used tonic, strength and blood builders in the world, so that the public may examine it for themselves and judge as to its merits. It is conservatively estimated that this remarkable formula is now being used by over 3,000,000 people annually in America alone. Among those who have used and strongly endorse it are many physicians formerly connected with well-known hospitals, former United States Senators Wm. E. Mason and Charles A. Towne, former members of Congress; distinguished U. S. Army Generals (Retired), Judge Atkinson of the United States Court of Claims at Washington and former Health Commissioner Kerr, of Chicago.

Newspapers everywhere are invited to copy this statement for the benefit of their readers. It is suggested that physicians make a record of it and keep it in their offices so that they may intelligently answer questions of patients concerning it. Every body is advised to cut it out and keep it. A copy of the actual sworn statement will be sent to anyone who desires such. It is as follows:

- Iron Peptonate (Special specific Standard) Quantity given below.
Sodium Glycero-phosphates U.S.P. (Monosanto).
Calcium Glycero-phosphates U.S.P. (Monosanto).
P. E. Nux Vomica U.S.P. (Monosanto).
Cascarin Bitter.
Magnesium Carbonate.
Po. Ginger U.S.P.
Oil Cassia Cinnamon U.S.P.
Calcium Carbonate Precip. U.S.P.
Each dose of two tablets of Nuxated Iron contains one and one-half grains of organic iron in the form of iron peptonate of a special specific standard which in our opinion possesses superior qualities to any other known form of iron. By using other makes of Iron Peptonate we could have put the same quantity of actual iron in the tablets at less than one-fourth the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-tenth the cost; but by so doing we must have most certainly impaired their therapeutic efficiency. Glycero-phosphates used in Nuxated Iron is one of the most expensive tonic ingredients known. It is especially recommended to build up the nerve force and thereby increase brain power, as glycerophosphates are said to contain phosphorus in a state very similar to that in which it is found in the nerve and brain cells of man. Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago, says it has proven through his own tests of it to create any preparation he has ever used for creating red blood, building up the nerves and strengthening the muscles. Dr. J. W. Armistead, Grove Hill, Ala., graduate of the University of Alabama School of Medicine, Mobile, 1888, says: "In the cases I used Nuxated Iron I have found more beneficial results than from any preparation I have ever used in 34 years' practice." Dr. R. B. Baugh, Polkville, Miss., graduate of the Memphis Hospital College, Memphis, 1898, says: "I always prescribe Nuxated Iron where a reconstructive tonic is indicated." Nuxated Iron often increases the strength and endurance of delicate, nervous, run-down folks in two weeks' time.

A. P. DIRECTORS GIVE MANAGER - STONE \$25,000

New York, April 23.—In honor of Melville E. Stone, for 25 years general manager of The Associated Press, the members of that association made their annual meeting here today an occasion for paying tribute to his services. The meeting also was marked by an appeal by Frank B. Noyes, president of The Associated Press, urging the editors to support President Wilson in the prosecution of the war.

Mr. Stone was presented, in behalf of the board of directors, with an illuminated volume entitled "M. E. S., His Book," a work intended to set forth in permanent form the record of Mr. Stone's service, life and activities. Members of The Associated Press had also caused to be inserted in the book, in loose form, what were described by Mr. Noyes as "very beautiful impressions of steel engravings," being 25 \$1,000 Liberty bonds, "millennium milestones, as it were, of each of 25 golden years." Mr. Noyes' appeal for support of the president was received with hearty applause. "If honest, constructive criticism would help the president," he said, "utter it, but let us indulge in no recriminations that have a partisan birth."

Teutons Hang On to Russ Prisoners in Germany

Amsterdam, April 23.—Germany's determination to utilize the labor of Russian prisoners as long as possible seems to be reflected in an official communication which has been issued to the German press.
