

IRISH FIRM IN PURPOSE TO FIGHT DRAFT FOR ARMY

Passive Resistance Is Policy Advocated by Leaders of Anti-Conscription Campaign.

Dublin, April 27.—The success of the "workless" day last Tuesday has led to a widespread impression among all classes that the government, convinced of the attitude of the people, would refrain from bringing conscription into operation. This view is not shared by the heads of the anti-conscription movement.

A warning was issued today by the Sinn Fein council that the government is committed to the effective application of conscription and confidence to the contrary would be short-sighted. The constitutional nationalist leaders say that there is no sign whatever of a change in the war cabinet's plans and that preparations for carrying them out are being made on a most formidable scale.

It is pointed out that, contrary to the prevailing idea, an order in council may be made effective at once, without waiting for parliament, although parliament has reserved the power, within 14 days, to annul it. Large Fund Expected.

The anti-conscription fund, of which Archbishop Walsh is trustee, is being actively promoted and is expected to reach unprecedented dimensions.

The Church of Ireland Gazette, the organ of the Protestant Episcopal church, declares that the most lamentable aspect of the present crisis is the tendency to make conscription a religious issue between Protestants and Catholics. No expectations are entertained anywhere here that the home rule bill, whatever its character, will modify opposition to conscription. The unionist journals have suggested that conscription might be withdrawn if the bishops and the Irish party would make a firm offer to secure the needed men voluntarily. But there is no prospect that such an offer will be made.

The absence of the Irish party from parliament has provoked no objection from the people. Passive resistance continues to be the policy advocated, taking the form of refusal to facilitate inquiries or acknowledge tribunals, which hints at possible effective action regarding the food supply.

"War in Desperate Straits," Says Gen. Leonard Wood

Denver, April 27.—"The war is in desperate straits," said Major General Leonard Wood here tonight in a Liberty loan address to a large crowd to the municipal auditorium. "From the front there comes only one word for us and that is 'hurry.' We must get ready as fast as possible. It is a war of attrition. The side which can give the most men will win. Five million is a conservative number of those we must raise. Half or more will be sent abroad; half will be in training here to make up the wastage, which will be terribly heavy."

mer emperor of Russia, has been proclaimed emperor of Russia, is being taken here to indicate that Germany was attempting to carry through a well-formulated plan for restoring a monarchy in that revolution-torn country.

While no reports of a new revolt in Petrograd have been received at the State department from Ambassador Francis at Vologda, news of an uprising would not come as a surprise. It long has been believed here that Germany's real purpose was to restore the monarchy supported by German influence, money and intrigue.

The removal of the Bolshevik government from the capital to Moscow was believed to have paved the way for the carrying out of the German plan. Reports have been received here that German soldiers, formerly prisoners in Russia, have been overrunning the capital and have made it a German center.

Siberian Situation Chaotic.

Harbin, April 27.—The political situation in Siberia has been complicated during the last week by claims for

recognition by the entente allies made by the rival Russian factions, each to the exclusion of the others. The departure from Peking of Lieutenant General Hervath, military commander here, has caused alarm in Siberian government representative and socialist groups, who fear that he intends to ask for allied assistance in support of a dictatorship.

The apparent reluctance of the allied governments to intervene against the Bolsheviks has caused several factions to feel that the only hope of securing allied support lies in their coalition into a single political organization without party lines and devoted to restoring order in Siberia under a republican form of government and re-establishing Russia in the war, or at least overthrowing German influence in Siberia.

Bolshevik atrocities at Blagoviestchensk have aroused indignation. They are alleged to exceed those in Belgium.

A remarkable feature of the exodus from Blagoviestchensk was that the refugees brought treasure valued at 30,000,000 rubles with them. It reached Harbin yesterday and was deposited in the Russo-Asiatic bank.

Beatrice, Neb., April 27.—(Special Telegram.)—A steady rain has been falling in this section of the state this afternoon, thoroughly soaking the ground. Farmers report that wheat is showing the result of the recent beneficial weather.

GREAT CONFLICT NOW PROBLEM OF STAYING POWER

Enemy Is Taxing British Strength as Heavily as He Taxes His Own More Heavily, Says Observer.

(By Associated Press.) London, April 27.—The Reuter correspondent at British headquarters in France sends the following on the battle now under way:

"When Nogi reduced Port Arthur, we were told by military critics that it had been in terms of life which no western general would have dared face. The German high command obviously ridicules the idea; it strews the slopes of Kemmel with German corpses as thick as autumn leaves in Vallombrosa and points triumphantly to the comparative handful of survivors who have reached the top.

"It is a single problem of staying power. The enemy is taxing the British as heavily as he can, but in so doing he is taxing his own relatively even more heavily. He is fiddling for

positions which would give him greater advantage in the use of his numerical superiority. The question is whether, if he eventually gained these positions, he would have any numerical superiority left. We now are fighting a war of exhaustion, in which the first principle is to weigh a mile lost against the thousands of enemy casualties paid for it.

Foch's Plans Secret.

"The general (Foch) is dealing with the situation with characteristic energy, although as to what counter moves he may contemplate there is no knowledge. The retaking of Loivre by the French troops was a very dashing exploit. It had cost the enemy three heavy attacks to force his way into the little village, which stands in the fork of the Baillieu and Neuve Eglise roads, and what an unsuccessful heavy attack implies in losses is known. Situated between Mount Kemmel and Mount Rouge the place is an essential point to any further advance along the hill system. For this reason, doubtless, it was determined not to let the Germans keep it, notwithstanding the satisfactory casualties figures he had paid for it.

"So last night the lads in horizon blue, who are the quickest troops in attack ever seen, levelled their bayonets and followed the lift of the barrage. Only a few of them came back. These were escorting prisoners, what remained of the German garrison who had been rolled back toward Dranoutre."

Criticises Attitude Toward Liberty Loan

St. Louis, April 27.—Secretary of the Treasury McAdoo, who had planned to visit St. Louis tomorrow, today cancelled his engagement and sent to William R. Compton, chairman of the eighth Liberty loan district organization, a telegram expressing his dissatisfaction with St. Louis' showing in the third Liberty loan campaign and particularly with the attitude of wealthy individuals and large corporations here.

Germans Decide Bread Ration Need Not Be Cut

London, April 27.—Referring to a meeting of the reichstag food council Friday, at which reduction of the bread ration was discussed, a German official statement received today says:

"It was decided that the present position was not critical enough for taking important measures at this time. The authorities will, therefore, wait and see how fast grain is imported from the Ukraine. Some transports have already arrived."

New Quake Rocks Town Of San Jacinto, Cal.

San Jacinto, Cal., April 27.—One of the hardest of a score of earthquakes, the first three of which last Sunday demolished large parts of the business district here and at Hemet, occurred last night about 10:30 p. m. No damage was done.

Science

YOU cannot ignore the point. YOU cannot get away from it, neither can you console yourself with the argument that it is a fad or a new wrinkle just being tried out, nor can you afford to accept the uncertain, haphazard methods of diagnosing as in the past in relation to your teeth.

When you want to know the truth and the real condition of your teeth the X-Ray tells you, be it good or bad.

It has been proven the world over that the X-Ray is the most positive and accurate method of dental diagnosing that Science has given us. Science also proves to us that the amount of disease and poor health resulting from bad teeth is appalling. Then why neglect or consider lightly a thing of such magnitude as your Health and Happiness.

Health is what we are striving for in this office and not merely a perfect piece of mechanical work; that's why the X-Ray is used in this office as the first step in carrying out your dental work. It eliminates the possibility of an error in putting dental work on a worthless tooth or extracting a tooth that could be saved.

If you do not take advantage of the X-Ray examination you are the loser.

The day of unscientific dentistry is a thing of the past, we recognize scientific methods and no other, it is to your advantage to do the same.
