New, Summer Model Hats Have Their Initial Showing Monday

Our representatives have just returned from the East, and now the showing of Midsummer Hats here is positively the most complete in this section.

Organdie Hats in their crisp freshness are coming in for their share of popularity and they deserve this admiration as they are as pretty as any Hat you could imagine.

Smart Spring Styles.

Sport Hats will have their inning when milady dons her sweater or coat. One in particular is of old ivory straw elaborately embroidered in a sheaf of black wheat. And there are many, many others.

Each One Charming

Second Floor

Dressy Hats, for afternoon or restaurant wear, made of tulle and hair braid and bristling with ostrich feathers (either burnt or drenched or in their original state.)

For Service Dress there are Georgette Crepe brims with hair crowns and a simple scarf of crepe and little draped turbans, all of Georgette with trimmings of dainty flowers on the little hats; some are literally covered with large velvet flowers with bits of ostrich shooting out in every direction.
