We Are Selling Oil Land
 Do not allow any prejudice you may have against oil stock promotion schemes to affect your judgment of our wonderful fortune making plan.

ONE TRACT MAY MAKE YOUR FORTUNE

Proportion that tracts purchased bears to the total number of tracts of our High Island property.

Profits to be disbursed at the end of each 30, 60 or 90 days, depending on the amounts accrued.

Our Expert Drilling Superintendent

We have secured the services of Mr. E. D. Snyder as drilling superintendent. He has drilled hundreds of big oil wells throughout Kansas, Oklahoma, Louisiana, Texas, and Old Mexico. He drilled 38 big producers for the McMan Oil Co. in Healdton field, which company, while starting with very small capital, recently sold to the Magnolia Oil Co. for \$30,000,000.00. His record with our company should equal or surpass this.

Our Proven Humble Lease Fully Protects Your Investment

Regardless of the outcome of drilling operations on our High Island property your share of the profits from proven Humble lease should earn you big returns.

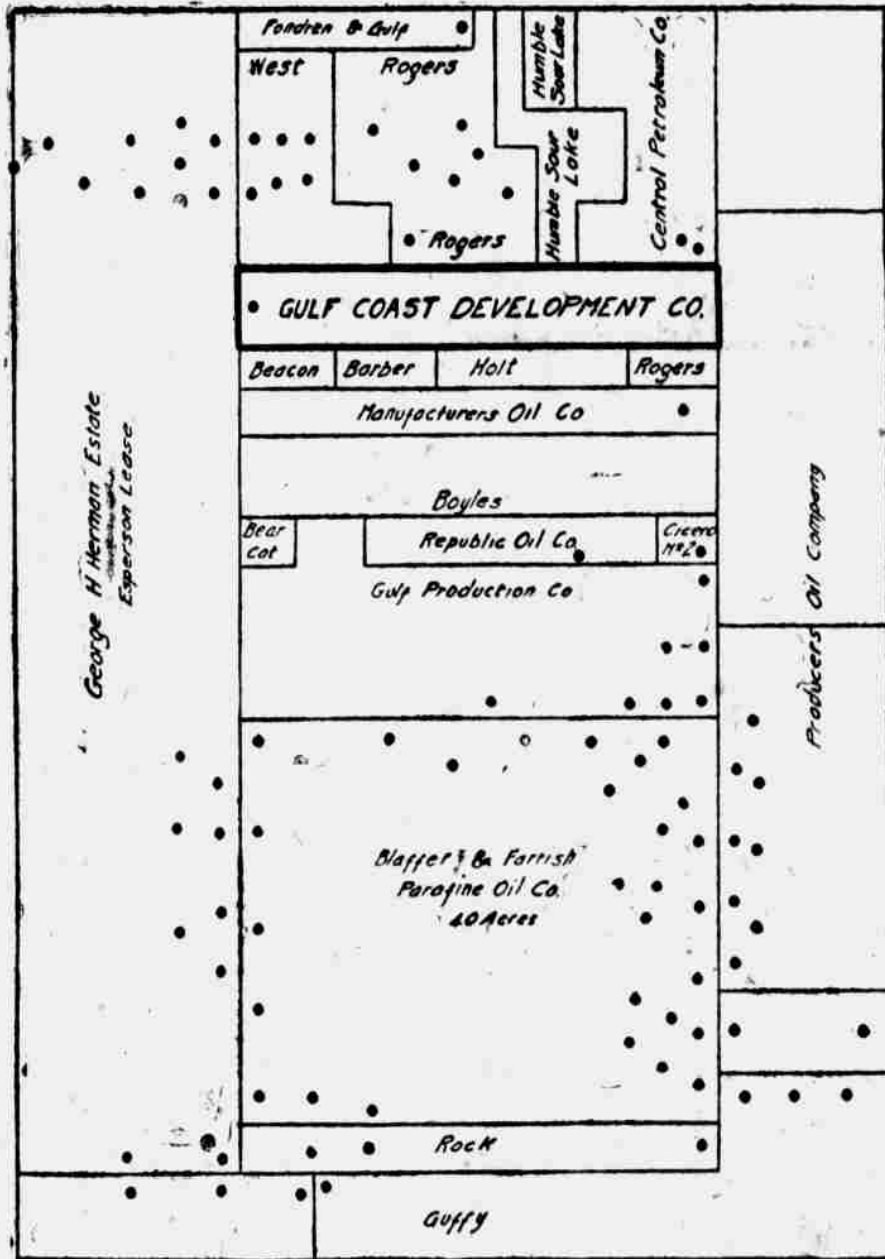

Oil on Our Humble Lease

A test well has already been drilled here, with a showing which is estimated will make at least 500 barrels per day when completed.

The wells in the vicinity of our lease have come in producing from 500 barrels to 10,000 barrels per day.

We have room for about 30 wells on this lease.

With only 2,000 barrels daily production from this lease, the company should be able to pay each tract purchaser approximately 600% annually.

This is a Sectional Map of Famous Humble Oil Fields, Showing Location of Our Proven Lease—Black Dots Are Wells Where Oil Has Been Found.

ASK U. S. CONTROL OF LAKES SHIPS TO STOP STRIKE

Washington, May 4.—Government operation of all Great Lakes vessels has been asked by seamen's unions in an effort to avert a strike which union leaders today told the shipping labor conference was inevitably otherwise.

The seamen are ready to strike, the leaders said, because of the refusal of the Lake Carriers' association to join with the shipping board and the union in the conference to consider means of recruiting new men for the merchant marine and because of bitterness growing out of the alleged repudiation by the association of an agreement made with the union last year.

Japanese Steamer Goes Down; Crew Is Rescued

Tokio, May 4.—The Nippon Yusen Kaisha steamer Colombo Maru, the first vessel to sail on the new line between Japan and New York, has been lost at sea near the Omejima Islands not far from Nagasaki. The crew was rescued by a passing steamship. The loss of the steamer was due to fire which broke out in its inflammable cargo of matches and other combustible material.
