#### Careless Use of Soap Spoils the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

. The best thing for steady use is just ordinary mulsified cocoanut oil (which is pure and greaseless), and One or two teaspoonfuls will

cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lust; rous, fluffy and easy to manage.

## **Mothers Here** Interested in **New Treatment**

Relieves Colds Over Night and Croup in Fifteen Minutes -Applied Externally.

NOTHING TO SWALLOW, YOU JUST RUB IT ON.

#### Local Druggists Have Arranged to Sell 25c, 50c, or \$1 Packages on 30 Days' Trial.

Local druggists report a greal deal of interest, especially among mothers with small children, in the remarkable external "vapor" treatment, known as Vick's VapoRub, recently introduced here from the South. This treatment makes unnecessary

"dosing" with injurious medicines, using flannel jackets and chest protectors, or keeping the children shut up indoors. You can let the little chaps run outdoors and get their needed fresh air and exercise. If colds do start, "nip them in the bud" by using VapoRub—it is externally applied and can therefore be used freely and often, with perfect safety, on the smallest member of the family. VapoRub comes in salve form and is applied over the throat and chest, covering with a warm flannel cloth. The body heat releases medicated vapors that are inhaled with every

breath, all night long, through the air passages to the lungs. These vapors loosen the phlegm and clear the air passages.

In cases of very severe chest colds or incipient pneumonia, first apply hot, wet towels over the throat and chest to open the pores. VapoRub is then absorbed through and stimulates the skin, taking out that tightness and soreness in the chest. Ask your druggist about the 30 days' trial offer.—Advertisement.
