## THE OMAHA BEE

DATLY (MORNING) - EVENING - SUNDAY FOUNDED BY EDWARD ROSEWATER

VICTOR ROSEWATER, EDITOR THE BEE PUBLISHING COMPANY, PROPRIETOR. Entered at Omaha postoffice as second-class matter.

TERMS OF SUBSCRIPTION

MEMBER OF THE ASSOCIATED PRESS

APRIL CIRCULATION. Daily 67,265—Sunday 57,777

Address changed as often as requested.

It is to be expected that a new broom wil reep clean at the start.

Precedent has won another victory over pa notism in the United States senate.

Lloyd George appears to be as firm in Engand as though he had been elected for a four-

If five of the seven commissioners were demerats, would they make a republican mayor? Not y a jugful.

Next to the splutter of the machine gun, the ise of the riveting hammer is the saddest music e kaiser has to hear.

Yes, but there are not one but two bachelors ong the city commissioners chosen at our reent municipal election.

"No official can go on being re-elected forever."-World-Herald. Certain United States senators and congressmen will be wise to take

The United States now has a half million ting men across the water. The kaiser will be wised of their presence very soon if he does ot already know it.

It would help a lot if the food administration nd the bakers would get together on bread tandards and stick to them. This everlasting hanging of weights and prices is too confusing be assuring.

If the voters had designated the particular partments' which each of the commissioners to manage, this pulling and hauling and trading r, department assignments would be forestalld. Really, that might be the better way.

## A Billion Bushels of Wheat.

Secretary Houston of the Department of Agriare is quite optimistic in his forecast for the heat crop of the coming season. He talks of the ity of a billion bushels, although this is r from being a probability. It is reasonably cera, though, that the yield of wheat in the United tes will be far greater than that of last season. lready the improvement noted in the fall-sown rop has lifted the estimated yield by 12,000.000 is over the April forecast, This, however, mly provides for 572,539,000 bushels, which will 428,000,000 bushels of the spring-sown riety to bring the total up to the billion point. ast year's total for spring wheat was 232,758,000 is, so that the crop this year will have to almost double that in order to attain the secrery's goal. In 1915 the total wheat raised was a le above a billion bushels, of which winter ibuted 673,947,000 and spring furnished 351,-\$4,000 bushels. How great an acreage has been own to spring wheat will not be known for ome time. A far better prospect than last season reported. The established fact is, that unless ne calamity now overtakes the crop, the yield wheat for 1918 will be much larger than that 1917, and a corresponding surplus will, be at ind to feed the hungry abroad who are dependon America.

Year Ago Today in the War.

A GOOD JOB-THE COURT HOUSE NEXT. The turnover of the city hall is admittedly due to a rampant feeling among Omaha voters

that a change of control is overdue. The city hall crowd had simply been in power too long, with too much scandal, too much looseness and extravagance, too many shady transactions, too much nepotism, too much accumulated

It is time to wake up to the fact that the conditions prevailing in the city hall that aroused the people to the point of discrediting the bunch are duplicated across the street in the court house in the county board's management of the county

The throttle governing the outflow of money rom the county treasury is as wide open as that governing the outflow from the city treasury. The do-nothing employes over there drawing fat salaries are as plentiful; the county institutions are about as costly to the taxpayer as they could be; the questionable deals causing talk of graft are just as numerous. In a word, the one thing urgent in the court house, as in the city hall, is a change of control of the managing boarda clean-out of the barnacles, pie-biters and chairwarmers-a business grip on the purse strings that will spend the money intelligently and get us full money's worth for it.

Omaha has done a good job in applying the broom to the city half. The steam behind the sweeper must not be allowed to die down without doing the same job in the court house-without putting the ring in the county board out of busi-

### Hitchcock Lands-The Kaiser Laughs.

Despite his notorious record of pro-Germanism and his obvious unfitness for the place, Senator Gilbert M. Hitchcock of Nebraska has been landed as chairman of the committee on foreign relations to succeed the late Senator Stone of Missouri by virtue of the seniority rule of promotion.

The kaiser and Von Bernstorff, with whom Hitchcock was closely hobnobbing while the ambassador was pursuing his intrigues in Washington, must be laughing up their sleeves to see this position-so important in our war and peace strategy-manned by a senator who has done more to earn a red eagle than most of his imperial majesty's subservient counsellors.

The senate committee on foreign relations in discharge of its constitutional duties, is one of the most vital parts of our government machinery-more so in time of war than at any other time. Its chairman should be a man of experience in world politics, and today more than ever is it required that he have the confidence of statesmen and leaders abroad as well as people at home-a confidence Hitchcock has forfeited.

Up to our very entrance into the war Senator Hitchcock was openly pro-German. He sponsored the kaiser's bill to stop the export of arms to the allies and to make America helpless by closing down all our munitions factories. He proposed a measure to help the kaiser still further by shutting off the sale of securities by the allies in this country.

Even after our entrance into war Hitchcock gave out an interview saying he saw no reason for us to declare war against Austria, the kaiser's partner in crime, and only a few weeks ago, through his newspaper, he sought to preserve the right of alien enemy subjects to vote in Nebrasks over the next presidential election.

- From start to finish, we regret to say, Senator Hitchcock has not been "right" on the war. Of all the members of the foreign relations committee, he is the one who conspicuously falls shortest of the full measure of Americanism which the leadership of that committee should com-

Under these conditions the elevation of Senator Hitchcock to this chairmanship, while a. fine vindication of the moss-covered rules, cherished by our American house of lords, is an insult to the loyal and patriotic people of this country and an affront to our allies. A former United States senator recently said that it would be easier to expel Hitchcock than to set aside the operation of the priority rule in his favor and what has happened verifies that statement. The sooner the senate frees itself from the onus of such a rule the better it will be.

It is now plain that seven commissioners to govern our city half business are needlessly too many. Three commissioners, consisting of a mayor, a commissioner of public works, and a commissioner of public safety, together with an independent elected auditor to keep check-on them, would fill the bill at least as well, if not much better.

Germany is now feeding European neutrals on itemized statements of what frightfulness has cost the oppressed who have fallen under the heel of the kaiser. The other side of the picture will be exposed later on, when what it has cost Germany will appear.

Finland is to have a German king, too. Pres ently the kaiser will have each of his six sons provided with a kingdom, demonstrating the prudence that has withheld them from the danger of the battle line.

## Farmers as Favorites of Fortune War Time Prices and Big Crops Brings Home the Coin New York Evening Post.

the head of the list, estimated at about 900,-000,000 bushels, and decreased prices for practically nothing, make urban humanity turn a moist eye of envy in the farmer's direction. Not so long ago those of us who habitually dressed in store clothes and could rely with a reasonable degree of certitude upon a pay envelope every Saturday, pre-tended not to pity the man who, all summer through, worked a daylight day, and who seldom saw any long green save that which flourished in his fields and in the wood lot. Professors of history of those days pretended to be worried by the drop in rural population, and foresaw for us the fate army of farm laborers, and the boys are of Rome. Some of us, who remember free being organized for his assistance. Well we silver days and populism, marvel how times all know that upon bumper crops depends have changed, how the more fortunate half success in the war; and so long as the of our people has succeeded, by a happy turn farmer's factory of acres produces to the of fate's wheel, in melting down its "cross limit of its capacity we can afford to see him God, few citizens of our republic be- and sailors was decided in favor of of gold" into a comfortable surplus at the wax fat in prosperity. farmer's stock has been rapidly going up; the great international calamity, with its accompanying food scarcity, has merely accelerated a steady improvement in his con-

No one can deny that during this war, in particular, our 50,000,000 or so fellow citizens who live on and by the land certainly fare better, both absolutely and comparatively, than any other considerable element of the population. Even your twenty-dollar-a-day man has to pay the farmer tribute through the agency of the butcher, the grocer and candlestick-maker. Your farmer has no expenses similar to those of the city worker. He pays no landlord a war advance; he eats his own products except when it pays better to sell his hogs at \$15 a hundred and buy part of them back later on in the shape of bacon daintily put up in glass. He gets prac-tically everything he requires off his land except his clothes, which obviously need be less ostentatious or elaborate than those of the city man. And even these clothes he can by mail-order cheaper than at the store. In short, the rise in the cost of living affects him only pleasantly, on the surplus side of

But the farmer has the advantage not only as a buyer, but as a seller also. Every other industry finds itself faced with government regulation. More and more manufacturers are coming under the "administrator's" thumb. Not so the tiller of fields, basely mis-Hoe." Some slight attempts have been made to regulate crop prices. Wheat was pegged at \$2.20, to the accompanying wails and lamentations of rural communities. But there the regulation pretty well stops. Why? Because Washington knows that the farmer's pable of the greatest diversification.

socialized in this manner. For, although he atmosphere of oppression and misfortune surrounded him in the days of 1893. the melodrama of mortgage foreclosure, still hovers about him. He is still a privileged

## Soldiers and the Suffrage

vote for members of congress or other offices that he stands ready to stand shoulder to next November is conveyed to congress, not by a communication from the president, but by a letter of Adjutant General McCain to Senator Vardaman. Whether the president has ever passed on the question we do not know. "The department has reached the de-cision that their (the soldiers') vote cannot be taken without serious interference with military efficiency." It "will permit soldiers in this country to vote as their respective states may direct."

In other words the secretary of war takes the same position that Edwin M. Stanton, perhaps his most distinguished predecessor, took in the civil war till he was overruled by Abraham Lincoln. Lincoln saw that an American soldier does not cease to be an American much as any slacker's in determining American political policy.

We had one presidential election while could only vote in accordance with state provision for such voting. But in 1864 116,887 lan. This relative showing has some significance, perhaps, for 1920, if the war goes on so long, though in 1864 no result in any state was affected by the soldiers' vote. Lincoln ran for re-election against a general popular with his men and not without friends one. That a civilian would have been worse and the colleges "carrying on." beaten is certain. That the sentiment of fighting Americans is to sustain a fighting ed the underlying meaning of selective serv

administration can hardly be denied.

The problem today is a graver one. We may have a million and a half of our best men in France by November. Perhaps 20,-000,000 men and women will be entitled to who would desert school or college for the vote for members of the house and senators. colors, their duty is to stick to their present The per cent in France might easily make the tasks and await their turn, which will come difference between a majority for Wilson's as each reaches manhood and is needed.

party and a majority against that party. We imagine congress will want to be shown why mere casting and counting of votes hurts need of the nation-present and future-is "military efficiency," and how. Possibly the a full supply of educated youth. The flower president will want to be shown. Sentimental- of America's young manhood is now in unily, Americans generally are opposed to dis-form. How many of these splendid young franchising wearers of the uniform; senti-men will return to aid in the important work mentally they are opposed to having the of rebuilding no man can say. Unless there nation's army kept out of touch with the are others to fill the places of those who do duties of American citizenship. Between the not return the nation will be crippled. breadth of Abraham Lincoln and the forceful It may come hard with the your narrowness of Edwin M. Stanton the choice the schools and colleges to wait and "carry of President Wilson should not be hard to on," but that is the best service they can now

The latest government crop predictions, character, to be protected and boosted on foretelling increased crops, with wheat at every occasion in congress. Besides, he and his family constitute about half the electorate, and therefore it doesn't seem likely that even his 30-cent cotton will be regulated. The only fly in his ointment, at present, would appear to be the labor question, which secede from the union as being "relics worries him as much as it does any other of the stone age." I fear in his own industrialist. Sixty dollars a month and board person he himself best exemplifies the is being paid out west for farm labor, and phrase. His words are: "One of your none to be had even at that. Here he must compete with the city employer, and consequently will have to revise his ideas about the value of hired men, or he and his sons will

have to do all the work themselves. But rights was held by Presidents Jeffer-even so, the whole country is anxious to son, Madison, John Quincy Adams, help him? the women are turning out an

## Can Hitchcock Qualify? Kearney Hub.

Washington advices are to the effect that Senator Hitchcock will in all probability be romoted to the chairmanship of the foreign relations committee made vacant by the recent death of Senator Stone of Missouri. The sum and substance of the supposition is that the senate will not set up a new precedent by ignoring Hitchcock, next in order, for that might catch some other grave and reverend

senator later on. We all understand very well how the sen ate of the United States is bound to precedent to a greater extent, perhaps, than any other body on earth, the next nearest being the house of bishops of the Episcopal church in this country. Customarily the house of bishops forms a hollow square and saves the good name of the church by protecting an offending bishop, but recently in the case of Bishop Paul Jones of Utah it departed no conception of the union was now from that precedent so far as to permit him to resign on evidence that he was suffering from pro-Germanism and anti-American pacifism. This was the wise, sensible, pafriotic thing to do.

But what shall we say for the senate of the United States? Here for instance is La Follette, whose presence in the senate is protested by every patriotic person in America, and against whom charges have been represented by Millet in "The Man With the made and his expulsion asked for much greater offenses than were committed by Bishop Paul Jones. La Follette stays; sticks, in fact; because the senate is too cowardly to break down the old precedents and do the thing that is right because it is right.

Now as to Hitchcock's case: We believe business is the most elastic of all, and ca- that no person is doubting Hitchcock's ability. We might doubt his democracy, and even Unless, therefore, the authorities decide to regulate all agricultural products, the farmer will, without doubt, find himself pretty does not for all that measure up to the standsafe behind the law of supply and demand, and of a man who should head that great
And there is little likelihood of his being committee—a man who should stand somemaking him toe the mark.—Chicago Herwhere for some considerable length of time has become prosperous as never before, the and should have established a record for atmosphere of oppression and misfortune standing conscientiously and consecutively for American interests and ideals.

Indeed, some of Hitchock's offenses are worse than the offenses of La Follette, and we are sure that no one would be so bold as to whisper that the Wisconsin senator be The decision of the War department that that Hitchcock confesses now that he was another. "We wouldn't be the besseen a new light, and how."—Washington Star. made chairman of that committee. It is true soldiers in France shall not be permitted to mistaken, that he has seen a new light, and shoulder with those who are for America girl to first and win the war at any cost. And while he is making this confession we can not forget his alliance with the German-American alliance which insured his re-election in 1916. In the face of that one damaging fact, not to mention a few others quite as damaging, we may still ask: "Can he qualify?"

## Schools Must "Carry On"

of the German language in this country Dr. W. T. Hornaday expresses the view of the great majority of Americans. The national ican soldier does not cease to be an American commissioner of education is wrong. The citi en and that his vote should count as German language will stand through the ages as the medium of expression of barbarism. Nothing that it represents, nothing that it expresses, is wanted by Americans. Herethe civil war was going on. Union soldiers after the secondary languages of this country could only vote in accordance with state will be French, Italian and Spanish. To laws: some of the loyal states had made no France we will go for much that has heretofore been foisted upon us by the insidious soldiers' votes, representing 12 states, were German propaganda, of which we have been counted for Lincoln and 33,748 for McCleltoo much the victim. Germany stands for barbarism, France for civilization,

Despite the criticism it has evoked, another recommendation of Commissioner Claxton will have the approval of thinking persons, as it has had that of President Wil son. This is that the youth of the country throughout the army and beat him three to not of draft age should remain in the schools

Many Americans have not yet fully grasp ice. Still under the spell of the volunteer system inheritance, they urge boys to rush to enlist in the military service. Commendable as is the patriotic spirit of the youth
