

BANDITS ESCAPE WITH MACHINES WORTH \$25,000

Omaha Owners Lose 52 Automobiles in Last 30 Days Despite Vigilance, Police Records Show.

Daring the vigilance of detectives and police, automobile thieves Friday established a record of 52 machines, valued in excess of \$25,000, in the last 30 days.

The epidemic of automobile thefts was begun April 11, and the number of stolen cars reported on the police record has startled the department as an amazing series of wholesale crime.

That an organized band of clever motor car thieves is operating in here is the belief of the detective bureau.

Few Cars Recovered. Detectives have been able to recover many cars taken from parking stands by joy-riders, but few of the machines stolen as loot have been found and returned to owners.

Insurance men state that they are not receiving full co-operation of owners, because they fail to assist in tracing the stolen cars and in vigorous prosecution of the guilty.

Instances have been brought to light where stolen cars have been remodeled completely to evade identification. That the thieves are reaping wholesale profits is admitted. The Omaha Automobile club is putting forth drastic efforts to stop the thievery.

CAMP LIFE MAKES HOME, SWEET HOME, DEAR TO SOLDIER

"Home, Sweet Home" becomes dearer to the soldier boy in camp than ever in his life before, according to G. A. Rohrbough, who, accompanied by his wife, has just returned from Camp Johnston, Fla., where they visited their son, Byron F. Rohrbough, prior to his departure over seas.

"But, 'home life' for the soldiers is provided by the Young Men's Christian association in an admirable way," Mr. Rohrbough continued. "The best sanitary conditions are maintained at the camp and good fellowship and manifest good morals among the soldiers impresses the visitors in a forcible manner. The soldiers are busy and do their work in such a way that the visitor realizes that they have determined to win this war for democracy and get back home."

"At Camp Meritt in New Jersey, near New York City, there were over 40,000 soldiers. At this camp the finest conditions seemed to exist. Good food and comfortable quarters were mentioned frequently among the soldiers."

"Traveling through the east when the Liberty loan drive was on, a westerner is made to feel that our people have not been aroused, or scarcely realize there is a war on, as do the people down east."

War Chaplains Trained At Camp Zachary Taylor

Camp Zachary Taylor has the distinction of housing the only training school for chaplains and approved chaplain candidates in the United States. Under orders from the War department the school was moved to Camp Monroe early in the year, and one course of five weeks was given. The second course will continue until May 25, with practically all denominations represented.

Chaplain A. A. Purden of the coast artillery corps, who holds the rank of major, is commandant of the school. His assistants, regular army chaplains, are John F. Chenoweth, Robert R. Fleming, jr., and Ignatius Fealy. Preparations have been made by nearly 100 attendants, including two commissioned chaplains from the regular army, 15 from the national guard, 13 from the national army and 67 approved chaplain candidates. After the candidates have passed the course a board will designate those who will receive commissions as vacancies occur.

SABOTAGE 'CAT' THREAT OF I. W. W. AGAINST NATION

Chicago, May 10.—A veiled warning to the government of the strength of the Industrial Workers of the World was contained in an article placed in the records today by the prosecution in the seditious conspiracy trial of 110 leaders of the organization.

"We have shown the world how to block the machinery of justice," said the article published in an official organ on August 18, 1917, when the government contends the anti-war conspiracy was most vigorous.

The slow-down plan and mass opposition to unjust regulations would work as well in detention camps as on the job. The widespread knowledge of punitive sabotage upon modern industry gives the militant portion of the working class the power to stop or disrupt production at will.

"The membership of the Industrial Workers of the World is conscious of its power and knows how to achieve its ends and is dead game to take whatever measures are necessary."

Another article said "there are too many of us for you to handle, no matter how many machine guns, bayonets and gallows you array against us. Just as our enemies have done we can do. We also use the cunning of the serpent to attain our ends."

Witnesses say the accident was unavoidable. Mrs. Lewis drove her car over the parking in order to avert a collision with another automobile, going east, and driven by H. L. Hofues, 1820 Dodge street. The car driven by Mrs. Lewis was going north on Thirty-sixth street and turned into the front yard of J. W. Tilton's residence, 1029 South Thirty-sixth street, crashing into the three women.

George Stevenson, 2505 Mason street, who was in charge of the women solicitors, escaped injury. Mrs. Bowman, the most seriously injured, was dragged underneath the automobile. The injured women were taken to Lord Lister hospital.
