STRAW HATS STREAMING IN

Dressers Already Putting 1918 "Ginger" Into Thousands of Straw Hats That Did Valiant Duty Last Year.

Hats Come Out Like New Again, So Why Isn't it Safe, Sane and Certainly Economical Way To Do?

Here they come! Bunches. Bushels. Barrels. Packages of them. Last year's Straw Hats—both Men's and Women's. Some of the other popular hats have learned that the experienced Hatters at the immense Dry Cleaning and Dyeing Plant of Dresser Brothers at 2211-2217 Farnam St., Omaha, can make a new hat out of an old one, and folk are not going to fritter money away on new ones if old ones can be made as good as new.

Take your Panama hats, for instance—Dressers clean 'em, reblock 'em and finish up by reshaping, retrimming and relining 'em. It's far cheaper to do this than to buy a new Panama—let it and see.

And what applies to Panamas applies to all other hats sent to Dressers. No job too hard to handle. No job too large or too small. Just send 'em along. There's a big and able force of real hatters here ready to do the work. If you doubt their abilities just stand around and watch them make a new hat from start to finish.

Dressers Shoe Repairing Department, too, is rapidly becoming better known. Hundreds of pairs of shoes are sent here weekly and when the owners again get them they agree that Dressers are also "some shoemakers." An expert from one of the largest concerns in Chicago is in charge of the Shoe Repairing here and he is backed by all the necessary equipment Dressers money could buy.

Better send in your Hats and Shoes at once. Phone Tyler 345 for a Dresser man or leave word at the plant, at Dresser The Tailors, 1515 Farnam St., or at one of the Dresser branches in the Burgess-Nash or Brandeis Stores. Dressers have express or parcel post one way on all out-of-town shipments.—Adv.

Martha Raw; fourth vice president, Mrs. F. C. Jensen; secretary, Earl H. Stevens; treasurer, Mrs. Albert Dowling.

Mr. and Mrs. B. E. Gantz gave a farewell reception on Saturday night of last week in honor of their second eldest son, Everett Gantz, who left Monday morning for the Great Lakes training camp at Chicago.

The Vacuum Pipeless Furnace Saves Fuel

And Means a Deal of Comfort Winter Time

Now is the time to see about it.

We can install the Vacuum-Pipeless Furnaces in either new or old houses, without cutting the walls or weakening the construction.

Only one large radiator required for both hot and cold air; no pipes.

All heat goes to the rooms; no heat wasted in basement or between the walls, as in the case of a pipe furnace.

The Vacuum burns any kind of coal, coke or wood. The first cost is much less than a pipe system.

Send us a rough plan of your house, or, better yet, let one of our men come and see your problem, then we can tell you if it can be heated satisfactorily by the Vacuum principle.
