Here Comes The Bride!

This Week We Have Dedicated to the Bride-to-be and Her Friends and We Shall Deem it a Privilege to Serve You

WHEN the words have been said by the white-robed minister that makes two people one in the eyes of the law and their fellow men, and the bride has stopped on the stairs landing to throw the bouquet into the outstretched hands of her "Maids" a lump comes into her throat and she has to close her eyes to make the smile real.

All at once she realizes that she is no longer the self-willed, pampered daughter of the household; her veil assumes the appearance of the cloak of responsibility; and from then on she will have to take her place by the side of her husband for weal or woe.

But the thought of "him" brings confidence, happiness surges through her veins, and it is a radiant visage she turns to him and to the future.

Little Bride-to-be, this is the most important step of your life. May we help to make its success absolute?

Everyone in this store has your interest at heart and we have planned unusual displays and offerings that will delight you. We are ready to take care of every detail of your trousseau and the furnishings for your home.

The Intelligent Fitting of Misses' Corsets

THE matter of fitting a corset to a young girl is not a matter of her years, but of her individual figure.

When she is graduating from the soft little waist of girlhood to the firmer support of corsets, that is when her fitting should have all the intelligence and skill that can be found.

The permanent lines of the mature woman are then forming and they should be guided early and naturally to health, pride and grace.

Our fitters realize these points keenly and the care and thought and attention given to a girl's first corset make our service almost invaluable.
