# ARE WEAK NERVES AND LACK OF PHYSICAL STRENGTH HOLDING YOU BACK IN LIFE?

### You Must Have Plenty of Iron in Your Blood if You Want the Power and Energy to Win, Says Physician

When the crushing grip of worry, trials and care saps your vitality and keeps you from the full enjoyment of home, social and business life—take Nuxated Iron and watch its strength-giving, up-building effect—it will increase the strength and endurance of weak, nervous run-down folks in two weakly time in many instances.

THOUSANDS are held back in life by the lack of sufficient iron in the blood," says Dr. James Francis Sullivan, former physician of the Bellevue Hospital (Out-Door Dept.) New York, and the Westchester County Hospital, in commenting on the relation of strong nerves and physical endurance to the attainment of success and power.

"A weak body means a weakened brain; weak nerve force means weakened by power, and like the race horse weakened by a lack of many a capable man or woman fails just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood. That irritable twitch, that fit of despondency, that dazed, fearful feeling—these are the sort of signs that indicate you don't want to when the blood is clamoring for strength-giving iron—more iron to restore the health of your nerves and creating thousands of new red blood cells.

"In my opinion the greatest curse to the health and strength of American people of today is the alarming deficiency of iron in their blood. Iron is absolutely essential to enable your blood to transform the food you eat into muscular tissue and brain. It is through iron in the red coloring matter of the blood that life-sustaining oxygen enters the body. Without iron there is no strength, vitality and endurance to combat obstacles or withstand severe strains. Lack of sufficient iron in the blood has ruined many a man's nerves and utterly robbed him of that virile force and stamina which are so necessary to success and power in every walk of life.

"Therefore, I strongly advise those who feel the need of a strength and blood builder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name is prominent on the package. If you have taken other iron products and failed to get results, try Nuxated Iron—preparations are entirely different things from Nuxated Iron which has been used and strongly endorsed by many physicians formerly connected with well known Hospitals like the Hon. Lester M. Shaw, former President Cabinet Officer,

as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would remain in my duty not to mention it. I have taken it myself and given it to my patients with most surprising results. And those who wish quickly to increase their strength, nerve and endurance will find it a most remarkable and wonderfully effective remedy."

No matter what other tonics or iron remedies you have used without success—if you are not strong or well, you owe it to yourself to make the following test: See how long you can walk or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Nuxated Iron will increase the strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances.

Manufacturers' Note: Nuxated Iron which has been used by so many successful people with such surprising results, and which is prepared and recommended above by physicians is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older iron tonics it is easily assimilated and does not injure the stomach, make them dark, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results with Nuxated Iron. It is dispensed in this city by Sherman & McDonnell drug store and other druggists.—Advertisement.

(Special.)  
Lincoln, May 14.—(Special.)—The father of a young man recently taken in the draft army has asked the attorney general's office to help in adjusting some of the drafter's business affairs. The letter comes from Holdrege.
