FARM AND RANCH LANDS

Nebraska Lands.

WESTERN LAND PROFITABLE

I am offering some attractive proposi-tions, all level, good soil, in land located in Keith and Perkins counties, Nebraska, I have had land interests in these counties for more than 10 years. I am raising wheat, barley and corn, which pay a handsome revenue, with wheat, not above the average yield, when reasonably well farmed, paying in 1916, a trifle over 437 per acre, and in 1917, a little over \$47 per re. At the present time I have corr the granary that will compare favorable with corn raised anywhere. I have improved and unimproved lands that are choice, that range in price from \$35 to \$65 per acre, that I can sell-en reasonable terms and can farm the same should they be sold to aspeculator de-siring to have this cone. Write for list and information.

Fouled Plugs. When spark plugs habitually be- liberties of the civilians populations come touled a good plan to investigate and see a good plan to investigate and see whether they may not be projecting too far into the combustion chamber, particularly when they are located in either one or the other of the valve pockets. If they are screwed into the valve port caps, the removal of the valve port caps, the removal of the caps with the plugs in them will be the best way to determine the condition. The points or the outer end of the shell should extend very little beyond the inner faces of the valve caps. Anyway, adjustments to the carbureter or lubricating system

should be made to prevent excessive gas or oil feed.

Emergency Starting. In cases where the starter is out of business and the crank handle is not available, it is possible to start the engine by jacking up the rear wheels, blocking the front wheels and then shifting into high, after which the cylinders are primed, the spark 200,000 Americans will have been sent and throttle are set and the engine is abroad during May, and that num cranked by turning a rear wheel. In probably will be much exceeded next doing this the operator should take

when the wheels start to revolve.

Watch the Battery. Do not forget that from now on abroad was expressed by the senators. until the end of the warm weather, the battery is going to need extraor-dinary attention. The electrolyte evaporates much more rapidly be inspected once a week and the liquid brought up to the proper level

with distilled water.

Tires on the Wash Stand. Before running the car on the wash stand, the tires should be carefully inspected to see if all of them are properly inflated and that all the lugs are tight. If this precaution is not used, water may work its way

into the tire. Foolish Things Mailed to Soldiers. The Boston postoffice protests against the number of parcels of useless things that are being mailed to our soldiers overseas — parcels that take up time in handling that could much better be devoted to other more useful hings.

useful things.

The Boston erald says that "one day's The Boston eraid says that "one day's inspection in New York recently disclosed 1.642 boxes of matches, for example, though the shipment of inflammables is forbidden even in domestic mails. One parcel had a bouquet of artificial flowers, one a baby outfit and one a quart of whisky. Many prokages had fruit, sure to become bruised. outfit and one a quart of whisky. Many packages had fruit, sure to become bruised and rotten before reaching the soldiers, who have the privilege of buying fresh fruit, fresh from Italy and Spain, at the Young Men's Christian association recreation rooms at their camps. In fact, two-thirds of the articles found in that day's inspection are on General Perishing's canteen list and are sold to the soldiers at virtually wholesale prices.

The quantity is illustrated by a retent shipment of mail on an army transport that shipment of mail on an army transport that contained 715,980 letters and 335,840 parcels, the letters filling 346 sacks and the par-cels 7,452 sacks. All this when it got to

France filled a train of 19 cars. Incredible Stupidity.

Senator Lodge said at a dinner at Newport:

"Ehe Germans are the stupidest people
the world has ever seen. To talk of this
war as a 'defensive war' that was forced
upon them! To talk of Belgian and France
and England as their 'unprovoked assailants'! Really, the stupidity of the Germans

is incredible.

tice. A burgiar, followed by his apprentice, was stealing along the ink-black hall of a house when he stumbled over a chair.
"Who's there?" cried a startled voice from a bedroom. 'Misow-mew-misow!" went the burglar promptly.

"It's only the cat, dear, said the voice, plainly much relieved.

"A moment afterward the appentice

"It reminds me of the burglar's appren

stumbled. "Who's there?' cried the voice again. "The apprentice—surely of German descent

was as prompt and ready as his master.

"Only another cat," he piped, cheerfully."—Washington Star.

MANY WOMEN NOW EMPLOYED IN THE PAIGE FACTORY

An economic by-product of the war that is of unusual significance and interest is the introduction of female labor in the great motor car factories. Brought about by necessity and the urge of patriotism, competent ob-servers have come to the conclusion that it is proving to be an excellent development from every viewpoint.

"We are now employing a goodly

number of women in our factory," says Harry M. Jewett, president of the Paige-Detroit Motor Car company. "This situation has, of course, been caused by the war. With thousands of men drafted into the army and the extraordinary demand made on man power for purely industrial purposes there has developed in De-troit alone a shortage of skilled labor now estimated by our board of com-merce statisticians at 20,000 and which they say will soon reach 33,000. "This condition has necessitated a readjustment. It gives trained workers a greater opportunity and it has opened the way for new labor in positions where training and skill are not so greatly needed. As a matter of fact it was absolutely necessary to get additional labor if the work on

government contracts was to be kent

up to schedule and also if our ordin-

ary industrial activity was to be maintained at a reasonbale rate of speed. Consequently the employment of women in certain departments was a logical and natural development. velopment. "At the Paige we are employing our women largely in inspection work where they do not displace skilled mechanics, but yet find a congenial occupation which they are entirely competent to follow. In fact, in this line of work they are especially line of work they are especially efficient and, because of their tempera-ment they are even more conscientious than men. The consequence is that the work is being done as well as or better than before, the men are able tither to take up their military duties or more up to more re-sponsible jobs and the wheels of industry are kept turning. It seems to be the logical solution of the prob-lem and one that is proving advan-tageous to all concerned."

Huns Violate Sanctity of

Altar; Stop Belgian Mass Washington, May 24.—As a climax to atrocities in Belgium, the German military despots now have gone so far as to interfere with the religious it is of the occupied territories.

A letter written to Pope Benedict

> "I am fulfilling a painful duty."
> wrote the bishop, "in informing your
> holiness of the profanations committed in my churches on November
> 14, last, by the Bavarian army.
> Throughout the depot zone that is to Throughout the depot zone, that is to say throughout one-third of my diocese, the soldiers came to the churches and convents at 8 o'clock in

the morning. They stopped the services, emptied the churches, and in some of them obliged the priest at the altar to interrupt holy mass."

In the Month of May Washington, May 25 .- More than month, members of the senate military committee were told today at

Y. W. C. A. NOTES.

G. W. Noble, president of the Young Men's Christian association, warm weather and the cells should will bring the message at the vesper hour Sunday afternoon at 5 o'clock.

No regular supper will be served in the cafeteria that evening but everyone is cordially invited to the dinner, plates 50 cents each. Reservations should be made not later

than Saturday evening to the Y. W.

The Wily Snake's Glide.

Did you ever watch a snake gliding over the ground in graceful curves and did you ever stop to think of the mechanical princeples involved in its motion? The snake moves along the ground in undulating curves produced by the contraction of the longitudinal system of muscles in alternate sections of its body. That alone would not produce a forward motion, however, were it not for the friction of the scales on the underside of the snake's body, against the roughness of the ground. By bracing the rear part of the body, the forward part is enabled to glide forward and by raverning the process the rear part is dragge forward to a new position.—Popular Science Monthly.

200,000 Troops Go Overseas their weekly conference with Secretary Baker and his assistants. Great satisfaction with the speed with which the troops are going
