

## MAUPIN REPORTS UNUSUAL WHEAT IN 19 COUNTIES

Publicity Director in 1,700-Mile Auto Tour in Nebraska Finds Crops in Good Condition.

(From a Staff Correspondent.)  
Lincoln, May 25.—(Special.)—Returning from a tour of 1,700 miles by rail and auto, covering nineteen counties in central and western and northwestern Nebraska, Will Maupin, director of the Department of Publicity, reports that he has been rained on in each one of the nineteen counties. With the exception of a small section, comparatively, in the central eastern division, the wheat crop is looking unusually fine. And the rains of the last few days will be of incalculable benefit to the section that has been suffering.

"The 'Sandhill' region of Nebraska is coming into its own," said the director.  
"The sand hills have been soaked time and again this spring, and as a result the pastures are in fine condition. Alfalfa never looked better, and it is easy to see a constantly increasing acreage each year."

**Fine Wheat.**  
"I have seen no finer wheat than the immense fields I saw in Box Butte county Wednesday in a couple of auto drives that permitted me to see practically all of the wonderful table in that county. I was with the delegates to the associated commercial clubs convention at Alliance when they drove to Antioch to see the great potato plants there. It was a revelation to most of them. Incidentally Antioch now has a population of 3,000 which is an increase of about 2,875 in less than three years."

"From personal observation and from conversation with a great many wheat growers and other, I am led to believe that the government wheat estimates for Nebraska are much too low."

"A most pleasing fact is the apparent increase in the number of cattle in the great grazing sections and the noticeable improvement in the breeds. It was raining at Alliance at 6 o'clock Wednesday evening, raining there when my train left at midnight, and raining when I reached Lincoln. And there were evidences of rain all along the road. We used to speak of 'million dollar' rains in Nebraska, but millions are small things these days. Nebraska is enjoying half-billion dollar rains this week."

## SLOAN AT AUBURN RAPS GERMANS IN RED CROSS TALK

Auburn, Neb., May 25.—(Special.)—Congressman C. H. Sloan spoke to a large crowd here this afternoon. He was applauded when he said:

"But let me say, as an appeal for supporting the Red Cross, that when the battle line established by Hindenburg, the Hun, under the combined might of America and the seasoned strength of those who fight with us, has been smashed; when the arrogant Hohenzollern whose savagery, added to civilization, makes him the satanic personification of the country in his mad emulation of the mighty Macedonian, the imperial Roman, and the powerful Corsican, shall fall short of universal dominion; when his degenerate son, crazed by the ghosts of Verdun, shall desperately cling to the crown of a diminished Germany; when the allied powers shall take up the greatest burden of all time in the rehabilitation of continental Europe; and when the statesmen of our own great country shall be solving the problems of our post-war period; and the boys come home, and you see, as I hope, the stalwart form, clear, proud eyes, and hear the stories of battle, of the wounded and dying, and all the incidents leading to victory."

"You who could not go but who, thinking over your own sacrifices will say, yes, I paid my taxes. Yes, I bought bonds, which are now at premium. But your real joy will be that while not going yourself, you aided in sending a representative over there, an angel who ministered to the sick and wounded and removed the death damp from the brow of him who came not back to receive a welcome. That one whose body lies among the lilies of France, but whose soul is up yonder, having exchanged the uniform of the republic for the white robe of immortality."

## College of Medicine to Rush Classes for Army Service

Lincoln, Neb., May 25.—(Special.)—Plans have just been announced by the faculty of the University of Nebraska College of Medicine providing for the continuance of operation of both junior and senior years. This is in response to a general demand on the part of the government that competent medical men shall be rendered available at the earliest possible moment for Army and Navy requirements. The Surgeon General recognizes the tremendous need for well trained medical men and has given his sanction to continuous operation of these classes in well equipped medical schools. The needs of the Army and Navy as well as of the civil population must be met. At the present time the entire country is feeling the loss of several thousand medical men who have entered the Army service. From Nebraska alone approximately four hundred physicians joined the colors.

## Syracuse High School Alumni Elects Officers

Syracuse, Neb., May 25.—(Special.)—The Syracuse High School Alumni association held its annual meeting and banquet in the high school parlors and initiated the graduates of 1918. The officers elected are: Mayma Brave, president; Irene Conenbaver, vice president; Pearl Trimble secretary; Dr. A. O. Specht, treasurer.

## 12 PROFESSORS TO STAND TRIAL, REGENTS DECIDE

Disloyalty Charges Against State University Faculty Members Come Up for Hearing Tuesday.

(From a Staff Correspondent.)  
Lincoln, Neb., May 25.—The University board of regents this afternoon decided on a formal hearing of charges against members of the faculty by the Nebraska State Council of Defense, starting next Tuesday morning at 8 o'clock, at the chancellor's office.

Each of the 12 professors accused of passive sympathies in the war will be given a chance to appear and defend himself.  
The board will send out copies of the charges and the names of the council's witnesses, to each of the accused.

Until after the hearing, at least, the names of the accused professors will not be made public.  
The regents decided to invite members of the State Council of Defense to attend the hearing, but it is understood that the public will not be admitted.

**Names Are Withheld.**  
Dr. P. L. Hall of Lincoln, suggested the names of the accused should be made public at this time, but after Regent Landish had called attention to the fact that earlier in the day the council had sought to withdraw its charges against one professor, A. J. Schrab, it was decided that this should not be done.

Chairman Brown, of the regents, called attention to the fact that the council complaint was defective in that signatures of all the members had been typed instead of penned. He urged a speedy action but said that the professors should be given an opportunity to defend themselves.

Telegrams From Avery.  
Two telegrams from Chancellor Avery, engaged in war work at Washington were read. One expressed willingness to appear before the regents as a witness, while the other

expressed the belief that prompt vindication or dismissal was the only course left to pursue.

Action by the Alumni association meeting in class reunions and as an organization here today as a part of the commencement festivities threatened to come to a head at the business session here tonight.

A resolution of the alleged disloyalty in the university faculty with the alumni assisting.  
C. A. Sorenson opened the discussion with remarks that yellow paint was being indiscriminately thrown at the university. His remarks were construed as requesting a white wash for the faculty from the council charges, but were not incorporated in motion or resolution.

**Two Broken Bow Farmers Ordered to Buy Liberty Bonds**  
Broken Bow, Neb., May 25.—(Special.)—The Broken Bow high

school commencement took place Thursday night at the Methodist church. Thirty-two graduates received diplomas. The address was given by F. M. Currie. Miss Marion Lomax received a \$100 scholarship for the best four years average in high school.

John and Ben Beshaler, prominent farmers living near Callaway, were cited to appear before the advisory board of the Council of Defense charged with not having purchased Liberty bonds according to their financial ability. John Beshaler was assessed \$2,000 and Ben Beshaler \$1,000. Both parties agreed to the assessment. Gus Ehlers, an alien enemy, who purchased four hundred acres of land in the Ansley neighborhood, was brought up for not contributing anything to war activities and for not having registered as an alien enemy and failing to fill out his valuation card on registration day.

Extension Tables, Leather Seated Chairs and China Closets to match in wide variety.

Main Floor

### William and Mary DAVENPORT TABLE

in Brown Mahogany

Style and value are everywhere visible in this design. Such a piece will harmonize nicely with any furniture of a turned nature. The cup turnings of the legs and the ball feet are typical William and Mary details. A treatment that makes for individuality is the unusual shaping of the serpentine stretcher. The two side drawers have shaped faces with oval leafage carving in the center and a large acanthus leaf and shell carving distinguishes the center of the curved apron. The table top is shaped with a series of fine mouldings outlining the edge.

With 18x66-inch top, as illustrated ..... **\$52.00**

Library Table of same design, with 28x54-inch top ..... **\$48.00**

### The Sealy No-tuft Mattress

A sanitary, tuftless Mattress, made of high-grade staple cotton. Very soft so that it conforms to every line of the body. Sold under a positive guarantee that it will never become hard, uneven or lumpy.

Every mattress bears a label on which is printed this guarantee.

Fifth Floor

### When In Jail

You call a lawyer  
When sick you call a doctor.  
If it's your teeth, a dentist.  
If it's your eyes, an oculist.  
When going to build, an architect.

**Therefore—**  
When you decorate call our Department of Interior Decoration and secure the best professional advice.

**Herrick Refrigerators**

In this refrigerator you get an absolutely pure, dry air current continually circulating, eliminating all danger of mould or spoilage as long as the refrigerator is kept iced. Then, too, the Herrick is very thickly and effectively insulated with white mineral wool throughout.

During warm weather the Herrick pays for itself by saving food and keeping it more palatable.

105-lb. capacity, white enamel, with 3 doors, as illustrated, at .....	<b>\$38.00</b>

### Wonderful American Rugs

If these wonders of the loom were paintings on canvas we should see them hung in our national galleries, such is the merit of design and color.

Japanese designs that have abandoned the symmetrical for that subtlety of balance characteristic of the far east.—Color balance and proportion that charms.

—Grounds, mottled, watered and taupe in effect.  
Harmony with the new draperies and furniture coverings.

Considered in the light of lifetime service, these rugs are priced very low.

Permit us to Exhibit.
