Their Medicine Chest For 20 Years

is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

for many years while I was perfecting my formula I studied and investigated the laxatives and catharties on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not theoreuse in their action some not thorough enough in their action, some simply acting on the upper or small intestines, while others would act only on the lower or large intestines, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimen-tary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Nature's Remedy, which I truly believe goes further

And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or clder than I, who tell of having used Ratur's Remedy for ten, fifteen and twenty years, and how they and their children and grandchildren have been benefitted by it.

and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of Nature's Remedy as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and the results of its use in my own family and among my friends, before I ever offered it for sale, caused me to have great faith in Nature's Remedy from the very first.

It is a consoling thought, my friends, for a man at my age to feel that aside from his own success, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a Natur's Research (NR Tablet) and will be better, healthier, happier people for it. I hope you will be one of them.

BUT SHE WORKS A WAR GARDEN

Was So Run Down Before Taking Tanlac Couldn't Do Anything Worth While.

"Yes, sir, I have gained twentyfive pounds and now I can do all my housework, and attend to my 'war garden, and other small patches about the house, but before taking Tanlac I couldn't do anything worth while," said Mrs. Amelia Mann, wife of a well-known farmer living on R. F. D. No. 2, Ogden, Utah, recently in statement that is both interesting and remarkable.

Mrs. Mann is the mother of fourteen children and although 61 years of age, she says she feels many years younger now. Continuing, she said: "I commenced suffering with stomach trouble sixteen years ago and gradually kept getting worse until seven or eight years ago, when I had a spell that laid me up for nine or ten weeks. I simply suffered agony and from then on I began having such terrible pains in and about my stomach at times that I could hardly stand it. I would get in all kinds of positions trying to get some ease, but the only way I could get any relief was to lay hard on my stomach, and for two weeks I never slept two hours a night. I was under treatment several times, and tried all kinds of medicines, and still got no relief and when they told me I could never get well without an operation I felt that my trouble must be very serious.

"I used to weigh one hundred and eventy-five pounds but I kept falling off until I got to be very thin. When I began taking Tanlac about two months ago I just weighed one hundred and twenty-five pounds, but now I weigh one hundred and fifty-have gained twenty-five pounds-and am still gaining. I can eat most anything I want without it hurting me and I seldom ever have a pain of any kind. I feel almost like a girl again and while I am 61 years of age I can do as much housework as lots of women who are much younger than I am. I certainly do give Tanlac all credit for my wonderful improvement

and am willing to tell everybody what I think of it." Tanlac is sold in Omaha by Sherman & McConnell Drug Co., corner Sixteenth and Dodge streets; Sixteenth and Harney.
