

LEADERS AGREE UPON PLAN FOR RECESS IN JULY

Congress Finds Way to Provide War Revenue Legislation Without Abandoning Entirely Summer Vacation.

(By Associated Press.) Washington, May 28.—Congress tonight apparently had found a way to provide the new war revenue legislation insisted upon by President Wilson without abandoning its long-cherished plan to get out of Washington for a summer vacation.

Leaders of both parties joined in conferences and approved a program that contemplates prompt action on pending appropriation bills to be followed about June 15 or 20 by recess of both houses until August while the ways and means committee frames the revenue bill.

Kitchen Scents Lobby. The plan will be submitted to the ways and means committee tomorrow. The democrats of the ways and means committee will frame a tentative draft upon which the entire membership will build the bill after hearings lasting a fortnight or more.

Representative Kitchen of North Carolina, chairman of the ways and means committee, changed in the house today that a powerful lobby working for the revision of the new zone postal rates on newspapers and periodicals was responsible for the demand for keeping congress in session.

As a fitting ending to the convention the Young Men's Republican club of Lincoln held its 29th annual banquet at the Lincoln hotel in which about 300 guests participated.

R. A. Boehmer, president of the club introduced the toastmaster, Richard F. Stout, and the following speakers appeared on the regular toast list: S. R. McKelvie, "Our Duty." Clark Perkins, "Universal Service." A. W. Jefferies, "True to Every Trust."

H. H. Wilson, "America's Part in the War." Among the prominent men at the speakers table were: Congressman C. H. Sloan, Ross L. Hammond, E. M. Pollard and W. E. Andrews.

German's Send Women To Undermine Health Of American Soldiers

Chicago, May 28.—Acting Chief of Police A. L. Cook declared tonight, following a conference with the State Council of Defense, that German agents are sending women into various cities, cantonnements and barracks to undermine the morale and health of American soldiers in training and men about to be drafted.

He declared his information had come from reliable sources and that the truth of it is confirmed by reports of medical men, verily, who are unable to make their unqualified loyalty understood, should be dealt with summarily by the constituted authorities.

"We demand a vigorous prosecution of the war to a definite conclusion that will forever drive the menace of military autocracy from the world, no matter how long the time or what the cost, and until such victory is achieved we deprecate most emphatically all peace discussions from any source as calculated to encourage the enemy and weaken our armed forces in the field.

Enlarging Army. We congratulate our government upon its performance of a heroic task in organizing and sending overseas a splendid army during the first 14 months of the war, with prospects of an early increase in this fighting force to strength commensurate with our national greatness, and take honest pride in the fact that this result has been made possible through the devoted untiring operation of loyal republicans and democrats in public life.

Former Mayor Gives Testimony Against Lucky. (Continued From Page One.) Caldwell was neither disloyal nor pro-German.

Prof. Luckey's views of war are not the same as mine, but he is opposed to kaiserism," Newlon said. "What did you think of my paper?" Prof. Caldwell asked of Newlon.

Snell Defends Lucky. N. Z. Snell, president of the Lincoln school board and member of "Open Forum," endorsed Caldwell as fundamentally democratic and loyal.

New Rule is Presented To Limit Senate Debate. Washington, May 28.—Limitation of senate debate during the war was approved today by the senate rules committee, giving support to the movement on both sides of the senate, to break away from the time-honored precedent of unlimited discussion.

MANNING PLANS MORAL UPLIFT IN SOCIAL EVIL HERE

Delinquent Females May Be Treated in Omaha Hospitals as Mentally and Morally Sick Persons.

Delinquent women and girls who are turned over to the health department for internment and treatment in hospitals, by military and municipal police authorities, for hygienic and sanitary reasons, may be treated as mentally and morally sick persons, if the plans of Health Commissioner Manning are carried out.

"These women," he said, "are the victims of poor home environment and a lack of home or social discipline. I believe that many of them are subject to reclamation, if they were brought to normal conditions of thinking and acting.

It is wasteful merely to intern them and cure them of their physical diseases. The social illnesses of their minds and bodies should be treated and many of them could be saved to usefulness to society.

Allies Lose Ground Won by French in 7 Months' Fighting

London, May 28.—The reports from the battlefields of France tonight, both official and unofficial, show that the allies have again suffered a setback, whereby they have lost all the ground in the Chemin Des Dames region so gallantly won by the French in the great struggle from April to October, 1917.

The enemy has driven a wedge into the allied line on a front of some 25 miles, and, at last reports, the tremendous battle was still continuing about Fismes, which is the center of important allied communications.

It is still uncertain whether the Germans intended this attack as a resumption of their full scale offensive. The fact that only from 20 to 25 divisions have been engaged is held to indicate that it was not a main attack, but was originally intended to attract allied forces from the fore aims and that the major operation would be attempted elsewhere.

MILLIONS TO BE MADE Developing Our High Island Oil Field

You have been reading our advertisements telling about our High Island property. You Have Read About Our \$30 1/4-Acre Tracts

We have told you that by buying tracts of our property we should be able to make you a great deal of money.

We have explained how our proven lease in the Humble field protects your investment.

The character of the men back of this company has been carefully placed before you.

All this you no doubt have noticed in the papers the last few weeks. And yet for some reason or other there are a few people who have neglected inquiring into this proposition.

Without doubt we are offering the greatest opportunity of making big profits from a small investment that has ever been offered the public.

When we prove up our High Island property to be a great gusher oil field, similar to the great fields in practically all counties adjoining, there is no telling how much money we will be able to make for our \$30 1/4-acre purchasers.

Our tract purchasers profit from the value of their tracts when we bring in oil at High Island. From the one-tenth royalty from all oil or gas produced on tracts they own.

From their proportionate share in half our profits from all the wells drilled on our 1,000 acres, and all the wells drilled on our positively proven lease.

When you realize that we positively have the oil on our proven lease, and that regardless of the outcome at High Island, we should earn each tract purchaser big returns, you will have no hesitancy in joining us in our great drilling campaign.

We know the oil business: We have the properties capable of being developed to make millions for all concerned, and we are simply offering a few people the opportunity of joining us through the purchase of 1/4-acre tracts in order to quickly raise a drilling fund.

Please bear in mind this is not a stock jobbing proposition. This is a fair, square 50-50 proposition between our company and our tract purchasers.

In order for us to make big money we must make big money for you.

You are sure to join us when you thoroughly understand our plan. Send immediately for free illustrated bulletin, with geological reports, maps and complete information.
