GENOA FARMERS EARN RENOWN BY RED CROSS WORK

Originate Plan of Gathering Hog Shipments for Fund; National Stock Exchange Favors Idea.

To a small group of patriotic farmers in the vicinity of Genoa, Neb., belongs the credit of having started a movement in connection with the nation-wide movement for Red Cross funds that has attracted the attention of the 24 larger markets of the country controlled by the National Live Stock Exchange.

These farmers originated the idea of making a canvass among their neighbors and getting each one to contribute a hog, a calf or a sheep, and turn the proceeds of the sale over to the local Red Cross chapter. The first load of hogs collected in this manner arrived on the South Side market February 21 and netted the Genoa chapter approximately \$2,300. The idea was taken up by neighboring communities and gradually spread to practically every county in the state, and even to adjoining states, with the result that approximately \$283,000 has been realized from these sales on the South Side market.

Now the National Live Stock exchange has appealed to the United States railroad administration at Washington for free transportation for all Red Cross shipments. These shipments, according to C. B. Heinemann, secretary of the National Live Stock exchange, are the property of the American Red Cross society as soon as placed in the hands of the carriers, and he stated that it would be no more than the patriotic duty of the railroad companies to handle them free of charge.

Use Fresh Perishable Food, Urges Food Administrator

"Use fresh, perishable food products and save the more stable foods, which can be exported." That message was brought back by Gordon W. Wattles, federal food administrator for Nebraska, from Washington, where he attended a meeting of food administrators of the United States.

"By using these short-lived foods we can liberate the more concentrated and staple foods for people in the more remote sections and for the allies and our soldiers," said Mr. Wattles. "Moreover, we can greatly relieve transportation by consuming at home foods that are grown at home. Not only is it conservation, but it is economy."

"And further, we should not consume canned goods at this particular time. Immense stocks of canned goods must be reserved for export."

All manner of help, male and female will be furnished, including that for the government, in the prosecution of the war, as well as for the farmer, the manufacturer and the railroad. No charge is made for this service to either employer or employee.

Noted Lecturer on Temperance Praises Tanlac

Mrs. Martha Stone Was for Years Associated With Founder of W. C. T. U.

One of the features that distinguishes Tanlac from all other proprietary medicines is the large number of prominent people who everywhere are giving it their unqualified endorsement. Among the statements recently received at the Tanlac office is one in particular that is sure to arouse widespread interest throughout the country, having been made by Mrs. Martha E. Stone, of 7225 Third Ave., Northwest, Seattle, Wash., noted temperance lecturer, who, for many years, was associated with the late Frances E. Willard, founder of the W. C. T. U. In relating her experience with Tanlac, Mrs. Stone said:

"I think it is the duty of everyone who has been relieved as I have to do what they can to help others; therefore it gives me much pleasure to tell of the benefits I have derived from the use of Tanlac.

"I was a great sufferer for many years with nervous trouble, which became so bad that I had to take to my bed, where I lay for six weeks entirely helpless and unable to move. The least little noise would upset me and I was not allowed to see anyone for fear it would excite me, and I was told that my entire nervous system had suffered a total collapse. You see, I had passed through the great San Francisco fire, in which I lost everything I possessed, and the experience was a severe shock to my already overwrought nerves. When, at last, I was able to get out of bed, I would have such awful dizzy spells that everything in my room seemed to spin around as though I was in the center of a whirlpool. My stomach was so weak and my appetite so poor that I hardly ate a thing, and what little I forced down soured and formed gas that pressed up into my throat and in my chest and made me so hoarse that it was an effort for me to speak. I also suffered much pain in the lower part of my body from this same gas pressure. My liver, too, was all out of order and my kidneys gave me no end of trouble.

"When my son-in-law saw that the medicines I was taking were doing me no good, he induced me to try Tanlac, as he said it had done him so much good he believed it would help me, too. To oblige him I got me a bottle, and the first few doses soon convinced me that it was just what I needed, and my first bottle put me right on my feet. I am now on my second bottle and am in splendid shape, for my nerves are practically in a normal state for the first time in all these years, which I consider a remarkable thing. I have a fine appetite and can eat most anything I want without suffering any unpleasantness afterwards. Tanlac is just helping me to overcome my troubles, and I feel that I am getting on just fine ever since I began taking it."

Tanlac is sold in Omaha by Sherman & McConnell Drug Co., corner Sixteenth and Dodge streets; Sixteenth and Harney; Owl Drug company, Sixteenth and Farnam streets; Harvard Pharmacy, Twenty-fourth and Farnam streets; northeast corner Nineteenth and Farnam streets, and West End Pharmacy, corner Forty-ninth and Dodge streets, under the personal direction of a special Tanlac representative.—Advertisement.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulisified cocoon oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulisified cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Adv.
