Company I, under Cadet Captain William Nickolson, won the silver cup and regimental colors for the best company. Company I also won last year. Company D placed second and Company G, third.

FONTENELLE CLAIMS WIFE IS PRO-GERMAN

Files Cross Petition to Bill for Divorce, Alleging He Married in Order to Reform Woman. That the marital troubles between Eugene Fontenelle, Decatur, Neb., nephew of Logan Fontenelle, noted chief of the Omaha tribe, and his wife, Catherine, who resides in Omaha, have been mountainous, is indicated in his answer and cross-petition, Wednesday in district court, to her petition asking for divorce.

Eugene alleges that his wife, before he married her, was a woman of immoral character, that he knew it, and married her on her own alleged solicitation, with the hope of reforming her. He alleges that she is of pro-German tendencies. He denies any immorality on his part and acknowledges that he is 60 years old and that Catherine is 30 years old. He alleges that the marriage was contracted by Catherine with the purpose of blackmailing him. He asks that her petition be dismissed and that he be granted the divorce.

Soon after the filing of Eugene Fontenelle's answer, Mrs. Fontenelle followed by filing a reply to the defendant's answer in which she denied all allegations, with the exception that she admits committing moral wrongs before her marriage. She alleges that she left Eugene as the culmination of many abuses heaped upon her by the defendant. She asks that the defendant's cross-petition be denied and that she be given the divorce.

An Army of 3,000,000 Back of Nuxated Iron

General Gordon, Hero of the Battle of Gettysburg, Leads the Way! United States Judge Atkinson, Former Governor of West Va., Tells Benefits He Derived From Its Use; Former United States Senator Chas. A. Towne Commends Nuxated Iron To All Who Feel the Need of Renewed Energy.

Sworn Statement of Composition of Nuxated Iron Formula Printed Below Should Convince Every Physician and Druggist That This Product is the "Greatest Therapeutic Value. Doctor Tells How Best to Use It to Create New Red Blood Corpuscles and Thereby Greatly Increase Your Strength, Power and Endurance.

Prominent People Who Have Used and Endorsed Nuxated Iron. Hon. James M. Shaw—Former Secretary of the Treasury in the Cabinet of the late President, also Governor of Iowa. United States Judge George W. Atkinson—Member of the Court of Claims of Washington, D. C., former Governor of W. Va.

General David Stuxard, noted Indian fighter and hero of the battle of Gettysburg, says: "When I became badly run down this year, I found myself totally without the physical power to 'come back' as I had done in my younger days. I tried different so-called 'tonics' without feeling any better, but finally I heard of how physicians were widely recommending organic iron to renew the blood and build strength in worn-out bodies. As a result, I bought Nuxated Iron and within a month it had aroused my weak and wiled forces and made me feel strong again, giving me endurance such as I never hoped to again possess. United States Judge George W. Atkinson of the Court of Claims of Washington, D. C., says: "Only this year, I have tried your valued prescription, Nuxated Iron, at a time when I was suffering from the rigor of the past winter. The results have been simply marvelous. I have never had better health, nor complete and complete freedom from any of the incidental complications which indicate the weakness of the blood, as frequently brings to the people who make use of medicine. It is without hesitation that I recommend Nuxated Iron to persons who in the stress of physical or mental labor have permitted the system to become debilitated, the body exhausted or the nerves run down. It has done for me what no other medicine has done, and I feel that I have dropped the burden of months of toil in the few weeks that I have been taking your medicine.

General Horatio Gates Gibson, U. S. A. (Retired)—"Who entered in the City of Mexico in the year of 1846, and my life during the latter years of my military career has been a most strenuous one. I have never had better health, nor complete and complete freedom from any of the incidental complications which indicate the weakness of the blood, as frequently brings to the people who make use of medicine. Upon the declaration of war I decided to enter public life which to me meant the army in the midst of war time. With the sustaining tonic of Nuxated Iron I have had no occasion to weaken under the most strenuous duties and the longer I have felt of work and study, the better I have felt. I beg to recommend to every man, whether he works with hand and brain, the invaluable medicine which only yourselves pre-prepare. It has no equal on the market."
