Bradstreets' Trade Review. New York, June 7.-Bradstreet's tomorrow

will say: Government domination of a myriad of lines of industry and trade and almost unanimously favorable crop reports are the two great outstanding features of the altuation. Government commandeering of the iron and steel, wool and heavy leather outputs are accomplished facts, and further extension of its control of manufactured textiles and of food supplies and of prices of same seem thevitable. Great basic changes are therefore proceeding under the new and fast-moving monopolization of human activities, directly or indirectly, in the war. Man power is being taken up steadily and rapidly by the second draft and the attraction of female labor into lines formerly monopolized by men is growing apace. The monopolized by men is growing apace. The results are the increasing difficulty attending the obtaining of supplies of goods or raw materials for civilian use, while at the same time largely increased earning capacity of women puts added strain upon supplies of oods suitable for the latter. Weekly bank clearings, \$6,443,088,000.

Call for Doubling of Taxes; Pools Abandon Their Bullish Tactics.

New York, June 7.—Representative stocks reflected selling pressure during today's duil and uneventful session, with a predonder-ance of moderate lesses at the close. The reactionary trend was again ascribed to domestic developments, foreign advices being accepted as distinctly encouraging. Secre-tary McAdoo's recommendations, calling for a doubling of war taxes in the coming year and the decision of the government to con-trol distribution of iron and steel accounted in large measure for the sagging tendency

manifested by war shares.

Rails were extremely sluggish, the protests of an influential element of holders of such securities against the so-called standard contract devised by the government attracting wide attention. Pools abandoned their bullish tactics in equipments and to-baccos, and the further delay in announcing the terms of the Mercantile Marine deal prompted occasional offerings of shippings.

Motors and leathers were the objects of intermittent professional activity at higher prices, but seasoned industrials, including steels and coppers, were irregular to heavy.

United States Steel closing at a short of 1% Publication of the crop report in the last hour was without effect upon grangers or

other railway shares, Reading and other coalers soon forfeiting temporary railles.

Bonds, including Liberty Issues, were firm but contracted as to operations. Tokio is gained a point, but Paris is yielded a frac-tion. Total sales, par value, aggregated \$5.850,000. Old United States issues were unchanged on call.

Boston, June 7 .- The Commercial Bulletin tomorrow will say:

"Slowly and with some uncertainty the wool clip of the country is moving eastward to the consuming centers, especially wherever the clip is subject to purchase, since the terms upon which it can be purchased under the government plan has been clearly understood by many of the country dealers, who have on that account hesitated about putting their money into the staple upon an uncertain basis. Consignments from the territory sections are being accepted steadily. The government machinery for handling the wool in the centers of distribution is being augmented more or less steadily as necessity requires."

CHICAGO GRAIN AND PROVISIONS.

Scarcity of Supplies Causes Sharp Advance in Corn Market; Close Unsettied.

Chicago, June 7.—Shorts in corn became flurried today as a result of disclosures that the market had become virtually bars of offerings. A sharp advance in prices followed and the close was unsettied, 1½ 62c net higher, with July \$1.37½ to \$1.37½ and August \$1.35. Oats finished unchanged to is lower and provisions with gains of 126 40c.

Bulges in the corn market were proceed by liberal declines due to impreved wasths conditions and to subsidence of nervousness in regard to likelihood of damase from rains in Iowa. Sentiment changed later, however, owing to a renewal of advices that cultivation in many sections had been delayed and that the crop movement would be hampered. Bears were further intimidated by assertions that industries were endeavoring to accumulate a surplus so as to fortified against any shipping presences which might be given to wheat in the harvest time rush. At the close, nevertheles fresh notice of peace goes pacted as experience of the process of a weight on values.

Correct anticipation that the government crop report would prove bearish caused the casts market to be relatively weak. Besides demand from the scaboard was not urgent. Strength of hog prices gave an upwarf stant to provisions. There were signs, too, of enlarged requirements for dry saited meats.
