

FORT CROOK MEN, 41ST INFANTRY, GO TO FUNSTON

More Than 2,000 Soldiers
Leave Omaha on What May
Be First Leg of Journey
Overseas.

The 41st infantry, stationed at Fort Crook, entrained Friday morning for Camp Funston, Kan., on what military men believe to be the first leg of the journey to France.

More than 2,000 soldiers are being transferred to the Kansas camp. Only members of the quartermaster's corps and a small detachment of guards will remain at Fort Crook.

The supply company was the first to entrain. Members of this company boarded trains at 9 o'clock. The other companies boarded trains a few hours later.

The men cheered lustily as they began the "trip to Berlin." They have had intensive training for many months and are impatient to go overseas. Many of them have been in the army for a long time and saw active service in Mexico.

Although most of the officers believe that the transfer means that they will be sent to France soon, others aver they may be kept at Camp Funston to train drafted men who will be sent to take the place of the 89th division, which has sailed for France.

Red Cross Canteen Workers Stick to Posts Under Fire

Paris, June 7.—For six days and six nights, despite a continued bombardment by German aviators, American Red Cross canteen workers remained in Epervan, south of Rheims, nursing and feeding wounded soldiers. The allies had been pushed back by a surprise attack and the hospital accommodations of the town were quickly filled. Wounded men overflowed into the streets and lay about unable to move, no matter how near the aviators dropped bombs or how low the aviators flew to use their machine guns.

Hog Island Speeds Up in Race With England in Shipbuilding

Philadelphia, Pa., June 7.—Charles M. Schwab told members of the Pull Together Club of Hog Island Shipbuilders he had been informed England was going to build 12 new shipyards with 100 ways to increase ship construction and he had enough sporting blood in him to speed up Hog Island and beat America's English ally in the race to build ships.

He said he had succeeded in getting government consent to permit the New York Shipbuilding company to extend its yards by an expenditure of \$10,000,000.

Citizens Asked to Aid in Locating Enemy Property

Washington, June 7.—Citizens generally were called upon today by Alien Property Custodian Palmer to aid in the work of locating enemy-owned property. In a statement explaining President Wilson's recent proclamation extending the scope of the custodian's powers, Mr. Palmer said the public could assist materially by noting carefully the classes of people now classed as enemies, and reporting property owned by them in the United States, together with the names of executors, administrators or custodians.

1,000 Young Women Needed To Enter Canteen Service

New York, June 7.—The Young Men's Christian association will need 1,000 women by September 1 for work with the American expeditionary forces in France, according to an announcement by Dr. John R. Mott, general secretary of the association, who has just returned from a tour of the war fronts.

One of the qualifications, he said, is that "they must be as willing to wash dishes as to be made divisional directors."

Passenger Train Derailed On St. Paul-Omaha Railroad

Sioux Falls, S. D., June 7.—All passengers, the baggage and mail coaches of train No. 83 on the Chicago, St. Paul and Minneapolis and Omaha railroad from Minneapolis were derailed two miles west of Fulton, S. D. Spreading rails is reported to have caused the accident. No passengers were seriously injured, according to information received here.

Browning, King & Co. Man Transferred East

W. H. Haas

W. H. Haas, former salesman in the hat department at Browning-King & Co., Omaha, has been transferred to New York, where he is to take charge of the hat department in the Browning-King & Co. store of that city.

SQUADRON OF NAVY MEN OUT AFTER SLACKERS

Uniformed "jacksies" of the United States navy are enforcing Provost General Crowder's work or fight order in Omaha.

A "flying squadron" of four husky jacksies patrols lower Farnam, Douglas and other streets where the weary seek rest, in search of slackers or of ambitious young men who desired to enlist in the navy.

In their operations to date during the day they have made an effective cleanup and have found more than a score of young fellows who were without occupation or residence.

Those who could be induced to enlist were brought to the recruiting stations, where they went willingly and without unnecessary argument.

Others who did not want to enlist in the navy and who were not within the draft call were escorted to the federal free employment bureau, where work was procured for them. The squad worked strenuously all day long.

Material Used for Brewing Reduced in Great Britain

New York, June 7.—The amount of materials annually used in the United Kingdom of Great Britain for the manufacture of alcoholic beverages has been reduced from 1,850,000 tons before the beginning of the war to 512,000 tons at present, according to a statement issued here by the British pictorial service.

All the materials now being used for the purpose, it is stated, are utilized in brewing beer.

"During the last year," the memorandum says, no manufacture of spirits for human consumption has been permitted and no further manufacture is at present contemplated."

It is pointed out that about one-third of the materials used are not of a kind that could be used as a human food and that about one-quarter to one-third of the weight of the original materials is recovered in the form of brewers' and distillers' grains, malt combings for cattle food and in the form of yeast for preparing human food.

"No unmalted barley is now in the hands of the brewers or malsters," says the statement. "The whole of the existing stocks of unmalted grain were requisitioned for breadstuffs on February 23 last."

Ground Glass is Found in Box of Snuff Sold in Omaha Drug Store

"Man, is yo' all tryin' to fix me?" A negro woman, excitedly brandishing a small tin box of snuff, put this question, to the clerk at the Pickett-Loring Drug company's store, 2920 Farnam street, Thursday evening.

"Deys groun' glass in dis heah snuff! Hit'll eat mah brains out!" she exclaimed.

The clerk took the package from her hand, opened it up and saw what appeared to be ground glass glittering against the dark background of the nicotineous compound.

He opened up other boxes of the snuff and found all of them contained more or less of the ground glass adulteration. He immediately called his employer, who took the boxes off

FIRST NEBRASKA OFFICER KILLED ON BATTLEFRONT

Lieut. Grosvenor P. Cather,
Webster County Boy, Re-
ported Slain in Action on
U. S. Casualty List.

Lieutenant Grosvenor P. Cather, Bladen, Neb., 34 years old, named among the killed in action in Friday's casualty list, is the first Nebraska officer to fall in battle on the western front and was the first Webster county man to go overseas.

Lieutenant Cather was a son of Mr. and Mrs. G. P. Cather, who live near Bladen. The father is a well-to-do farmer. Lieutenant Cather was a cousin of Willa, Siebert Cather, author, of Red Cloud, Neb.

Cather had served in the Nebraska National Guard previous to the outbreak of the war. He attended the first officers training camp, where he received his commission. He was sent to France last summer with a group of officers for special training. He is the first man in that group to be named in a casualty list.

Besides his father and mother, Lieutenant Cather is survived by his widow and by two brothers, Frank and Oscar Cather, and by a sister, Mrs. O. L. Lindgren. He had no children.

In the last letter received from him by his family, he spoke of having participated in several battles.

German War Prisoners Become Hobos in Russia

London, June 6.—The German war prisoner has become the "hobo" of Russia—an idle, shiftless wanderer who wants neither to work nor to fight. Many such prisoners, both German and Austrians, were encountered at different points in Russia by the members of the American Red Cross Mission returning from Rumania. They were never under guard, were usually in small groups, and apparently had no employment or wish for employment. They were without arms and shabbily clad, and always declared emphatically that they had no desire to get back into the German army, nor even any wish to return to Germany until after a general peace was declared.

If the prisoners showed any disposition to organize or even to travel about in marauding bands, they would furnish a serious problem, but under present conditions, they are merely a nuisance.

At a small station north of Volodga, there was a group of about 50 prisoners idling on the station platform, some asleep in the winter sun, some playing cards, others whittling little toys and knick-knacks out of soft wood. They were greatly surprised to hear that the United States had entered the war a year before, and several of them expressed still more surprise at being informed that American was not the ally of Germany.

Spark Off Tack in Shoe Fires Gasoline Tank At Logan; Loss \$10,000

Logan, Ia., June 7.—(Special Telegram.)—The Standard Oil service station at this place, together with a large quantity of oil, gasoline and tanks and motor trucks, were destroyed by fire at 3 o'clock this afternoon. The estimated loss is \$10,000. There is no local record of insurance. The gasoline was ignited by a spark caused by the friction of a tack in the shoe of an employee against the pavement. He escaped injury.

Wilson Visits Baker

Washington, June 7.—The president went to the War department today and conferred with Secretary Baker.

Department Orders.
Washington, June 7.—(Special Telegram.)—Hazel Holmes of Hastings, Neb., has been appointed clerk in alien property custodian office.

U. S. WILL TAKE OVER TELEGRAPH, SAYS MORRISON

Western Union Criticised
Sharply by Union Leaders for
Flaunting Decision of
War Labor Board.

(By Associated Press.)
St. Paul, Minn., June 7.—Sharp criticism of officials of the Western Union Telegraph company for their alleged refusal to abide by the decision of the national war labor board and protestations of labor's united support of the government's war policy were voiced late today by officials of the American Federation of Labor, speaking at pre-convention meetings.

According to President Samuel Gompers and Secretary Frank Morrison, the action of the telegraph officials is in direct violation of the purpose of the board and has a demoralizing effect upon the morale of working people.

"This probably will result in President Wilson commanding the Western Union Telegraph company and enactment of legislation by congress for taking over all telegraph and all telephone companies during the war," Secretary Morrison said.

Kaiser's Country Is Swept By Hail, Snow and Frosts

Amsterdam, June 7.—A sudden cold wave has struck Central Europe, including Germany, and spread over Holland and Scandinavia, according to reports from many points. There have been local snowfalls, hailstorms and severe night frosts. Widespread damage to the grain, fruit and potato crops is reported.

Bolsheviki to Surrender Russian Black Sea Fleet

Paris, June 7.—M. Tchitcherin, the Russian bolshevik foreign minister, has sent a wireless dispatch to Ambassador Joffe in Berlin, according to a dispatch received by the Havas agency from Moscow, announcing that the bolshevik government is ready to surrender the Russian Black Sea fleet to Germany on condition that the warships be restored to Russia after peace has been declared and that the Germans refrain from using the vessels. The conditions also stipulate that the German invasion of Russia shall come to an end.

NEVILLE TO RUN FOR SECOND TERM AS STATE CHIEF

Lincoln, June 7.—Governor Neville has announced that he will file for a second term. He will issue a statement in a few days.

The state democratic committee, at a meeting held in Lincoln this week, adopted a resolution in which Neville's administration was endorsed and he was urged to make the race again.
