Say Doctor, This Prescription Works Like Magic--Physician Explains Why Nuxated Iron Quickly Increases the Strength and Energy of Men and Brings Roses to the Cheeks of Nervous, Rundown Women.

Ask the first hundred strong, healthy looking people you meet to what they owe their strength and energy and see how many reply "Nuxated Iron."

Over Three Million People Annually Are Taking Nuxated Iron

Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), of New York and the Westchester County Hospital says: "Thousands of nervous, run-down, anaemic people suffer from iron deficiency but do not know what to take. There is nothing like organic iron—Nuxated Iron—to quickly enrich the blood, and thereby put roses in the cheeks of women and give men increased strength and energy. Unlike the older forms of iron, Nuxated Iron does not irritate the teeth nor upset the stomach, but is readily assimilated and you can quickly recognize its action by a renewed feeling of buoyant health. No matter what other iron remedies you have used without success if you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. To be absolutely sure of getting real organic iron and not some form of the metallic variety always ask for Nuxated Iron in its original packages. Nuxated Iron will increase the strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances. Manufacturers' Note: Nuxated Iron recommended above by Dr. Sullivan can be obtained from any good druggist, with or without a physician's prescription, on an absolute guarantee of success by its manufacturers or money refunded. It is dispensed in this city by Sharnau & McConnell Drug Store and all good druggists.—Ad.
