market closed atrong, 2% to 3% net high-er, with July \$1.44% to \$1.45 and August \$1.46% to \$1.46%. Oats gained % to %c and provisions To to 55c. Temperatures suddenly back to normal in all sections of the belt confronted corn dealers today, whereas the outlook had been for excessive heat and for possibly severe consequent damage to the growing crops. The fact that the movement from rural sources remained liberal had a further tendency to bring about general selling and to depress values during the greater part of the day. At times, however, and in the last hour especially, the market tightened up with a swiftness that dazed the shorts. Notwithstanding reports that the extreme heat had done no harm, much nervousness was evident, and prices at the finish were near the topmost of the session.

Upturns in oats were due to sympathy with the advance of corn. Exporters appeared to be out of the market. Provisions hardened owing chiefly to an advance in the value of hogs.
