Woman's Defense Council Starts Americanization of Foreign Women

The woman's committee of the Douglas County Council of Defense, Mrs. A. L. Fernald, chairman, reports that active work has been begun in the department of Americanization, of which Mrs. A. C. Troup is chairman.

Work among the foreign-born women is under the direction of Mrs. Walter N. Halsey. A central committee of representative women, one from each nationality, is being organized. Programs are planned in a number of church centers. The first is to be given Sunday, June 23, at the church of St. Anne before the Italian Women's guild, Mrs. M. Fantl, president.

Mrs. Halsey will give an address, "What American Citizenship Signifies," Dr. Kathleen O'Connor Sullivan of the health and child welfare departments, will give an illustrated lecture on "The Health of the Child, the Power of Our Nation," and patriotic songs will be sung. Mrs. W. S. Knight will direct the showing of motion pictures.

Gabby Detayls Relates Gossip of Interest

(Continued From Page One.)

last few days. One pretty little brunette who lives out West Farnam way, has had her ring for a week or two and we hear that the wedding date is very near. The man in question is a young dentist of our town and decidedly blonde, so you can judge for yourself just what a nice looking couple they make. The announcement will not be a surprise to the friends of the young couple for the young man's attentions have been decidedly marked for some time and as for the wedding, the young lady says herself that it will be very soon, probably before the roses fade, who knows?

WHO would think that meeting troop trains would make one young and beautiful?

No, that does not refer to this thing of arising at the same hour that reveille is sounded in the army, and making one's way through the cold gray dawn to give a sleepy "good morning" to a lot of sleepy soldiers, and hereby getting one's lungs full of the early hour ozone.

Nor does it mean, that if one is kind, the beauty of one's soul will shine through one's eyes.

It's easier far to acquire than the above, and all the would-be-beautiful one must do is to stand on her tiptoes and gaze into the eyes of any number of soldiers, provided that the former be located on the station platform and the latter be restricted to their troop train. Result—all signs of double chins will vanish and this surest sign of old age will be conquered.

Mrs. Lather Kountze was the first to think of it. It was a happy thought, too, coming as it did after one of her devoted maids had waited from 6 bells until nearly 3 p. m. for a lot of cavalrymen.

One of the canteniers remarked that she could never be shot at sunrise because it would kill her to get up.

June Brides of Army Officers

Grace Miller

Mrs. Edw. L. Ferster

A college romance will culminate on June 30, when the wedding of Miss Grace Miller to Lieutenant George McIntyre will take place. The young couple are both graduates of Monmouth college and Miss Miller has taught in the Central High school for the past four years. Lieutenant McIntyre is now stationed at Washington, D. C., in the construction department of engineers.

Red Cross

Tuesdays and Fridays are the days on which the workers of the Allies' auxiliary will meet at the First Presbyterian church to remodel the warm weather shirts to be used for summer uniforms for men in southern camps. Luncheon is to be served at the church for the before-the-war price of 15 cents. This includes sandwiches and pickles, ice cream and ice tea. The auxiliary is not a church affair, any woman who will help is invited.

The Red Cross auxiliary of North Presbyterian church, Mrs. H. B. Noyes, chairman, urges all women in the community, who can do so, to be present next Wednesday at 9 a. m. for work, as a large quota has been assigned to this auxiliary. Working hours are from 9 a. m. to 3 p. m.

Long school baby health station, conducted by the Visiting Nurse association, opens Tuesday morning at 10 o'clock. The station will be ready for the work of examining and registering babies each Tuesday and Friday morning between the hours of 10 and 11 o'clock.

Major E. S. Westbrook announces the new motor mechanics class of the National League for Woman's Service will begin its course Monday morning at 9 o'clock at Twenty-third and Farnam.

Members of the Danish sisterhood lodge No. 57, Red Cross auxiliary will meet every other Thursday at the home of Mrs. O. B. Thestrup, 4345 Seward street, to do patriotic knitting.

Women Are Making Airplanes.
In a western airplane factory, investigated by a state department of women in industry, a great deal of the work is being done by girls. They pack parts, stuff bags with excelsior, work on wire parts, cut copper pieces, bind wires with tape and solder, joints of wire. They put the "dope" (a waterproofing mixture) on wings and body of the plane, and paint the U. S. emblem on the bodies. They do light carpentering and metal work, and sew linen on the wings.

Nebraska Conditions for Women in Industry Receive Praise

The Woman's committee of the Nebraska State Council of Defense is in receipt of a flattering letter from Mrs. James A. Field, chairman of the department of women in industry at Washington. The letter is full of enthusiastic approval of the excellent

report on conditions among women in industry in the state of Nebraska. Nearly all of these reports were made by Miss Wilma Winter, who has been investigating conditions among packing house and railroad shop employees for the Nebraska division of the woman's committee. Five girls of Aberdeen, Wash., have signed up as oilers on a Pacific steamship.

Off the West Coast of Africa Opposite Morocco, Lies the Madeiras

This group of Islands has given the NAME **MADEIRA TO LINENS USED FOR TABLE DECORATION, ETC.—EXQUISITELY EMBROIDERED.** The beautiful work emphasizes the truth of the statement made by the late Fra Elbertus, that people will wear a path through a wilderness, if necessary, to reach the door of the man who makes **THE BEST** article, even though it be only a **MOUSE TRAP.** While the Islands contain a pop-

ulation numbering only about 150,000 souls, and that made up of many races—yet, because of the exquisiteness of the Madeira Embroidery, the name is famous the **WORLD OVER**—even the Fiji Island has its Captains of Industry, men who cover some particular product—and so, just about the time that the Sarajevo torch was applied over in the Balkans a manufacturer conceived the idea of buying a very large quantity of fine Linen and having it made up into

Table Cloths, Lunch Sets, Doilies, Centers, Scarfs, Etc.

Everything worked beautifully up to a certain point. After war was declared prices of Linens mounted sky-high and it looked as if Mr. Maker would gather in a large fortune. He missed, however, one important point. He did not foresee that practically the only market for the product was our own U. S. A.—America—SUPPLY and DEMAND regulates, here as elsewhere, prices of all commodities.
