Who can forget that little brassy cry that echoes the arrival of the new baby? Before baby comes the mother should get in condition to meet the crisis.

get in condition to meet the crisis. Thousands of women have used the safe and reliable application, Mother's Friend, during the waiting months, and they re-late how they entirely escaped nausea, ner-vousness, bearing down and stretching pains and many other debilitating and disheart-ening experiences which so illy fit the mother dor the greatest time in a woman's life. Mother's Friend is a wonderful help to nature in relieving strain and distress brought about by expanding muscles. The nerves, too, will be caim, making the period one of cheerful days and resiful nights

the abdominal muscles relax with ease when baby is born.

Mother's Friend makes it possible for the expectant mother herself to actually aid nature in the glorious work to be performed, and no woman should neglect or fail to give nature a helping hand. It will mean infinitely less pain at the crisis.

Mother's Friend is for external use only.

COMMITTEE.

A declaration of war between the United States and Turkey and Bulgaria is impending, a fact interesting enough in itself, but more important because of the peculiar conditions under which the change in President Wilson's attitude is being brought about. Steady pressure from the Allies has operated to weaken his determination not to declare war on the countries named, and it is now reported in Washington that Colonel House and Justice Brandeis are carefully considering the matter for the purpose of advising the president.

This state of affairs was called to the atten-Said Senator Fall, discussing this point:

This matter is one peculiarly within the province of the senate itself to rectify. I recommend to the earnest consideration of my colleagues in this body this thought, and that as it is necessary in this time of war that the congress of the United States and the administrative department of the nation should act in the closest accord and sympathy, the leaders in this body should immediately proceed to reorganize the foreign relations committee of this body, so that the chairman and the members may have the confidence of the president of the United States and it may not be necessary for him to delegate to Justice Brandeis or to Colonel House the consideration of the matter of a declaration of war, with which the president has absolutely nothing to do.

that exists in the outcome of following its prece-Austria threatens to follow Russia into redent and permitting a senator to succeed to the chairmanship of an important committee by right of seniority. The presence of Gilbert M. Well, that million-dollar bond issue will not Hitchcock in the shoes formerly occupied by William Joel Stone is already a serious embarrassment to the president. "Jitney" ice stations ought to be popular

How Far Will This Practice Go?

President Wilson's invitation to Henry Ford to stand as a candidate for the United States senate on the democratic ticket in Michigan opens a wide door for serious reflection. How far may the president with propriety go in the matter of exerting the prestige of his office to influence an election within a state? Especially, when the outcome of that election will affect the makeup of a co-ordinate branch of the government. Just now, when all hands and the cook are in accord as to the necessity of giving the president full support to win the war, it may seem all right to allow him to express a preference as to candidates. But such a preference need not bind the voters, who may do as did the people of Wisconsin, elect a candidate against whom Mr. Wilson threw the weight of his administration. However, it is the hope of all that United States senators chosen this year will be in office after the war is ended, and when congress has resumed some of the constitutional power it has now temporarily abandoned in favor

Edgar Howard's currency inflation scheme of making Liberty bonds legal tender for public and private debts, we are told, is not entitled to even erious consideration "among men who have substantial views on financial matters." Still, it would be interesting to know how it strikes Brother Tibbles of the editorial staff of our hyphenated contemporary who has sought votes on platforms very much like that.

Nebraska's Wheat Crop.

A pretty little fuss that might be enjoyed at nother time, has come up between Colonel Anderson, government crop reporter, and Colonel Maupin, who exercises a similar function for Neraska. Colonel Maupin says Colonel Anderson s holding out on the state, and has set his figure too low on the wheat crop. Colonel Anderson omes back with the assertion that he knows what he is talking about, and so the argument s on, with little prospect of its leading anywhere. As a matter of human experience, no uess made in June on the yield of a crop that vill not be harvested until July is any more than guess, and one man's estimate is nearly if not uite as good as another's. One thing only is ertain: Nebraska's wheat crop will be as bountiful as climatic conditions will admit, and more than this can not be asked of the state. Every bushel raised will be conscientiously harvested and scrupulously accounted for, that the state may do all it can towards the feeding of the hungry. And long months after the harvest is over we may get from the growers and shippers something definite in the way of figures to tel which of the contending authorities is nearer correct in his estimate. Till then, all the talk they may indulge will not add a grain of wheat to the yield.

if the members were chosen by the citizens of their respective states, rather than picked by the White House. Also, if the president is to select candidates for the senate, why may not the practice be indefinitely extended? Who will set the

Propaganda Work Poorly Done.

The Koelnische Volkszeitung sees in the attitude of the United States a loss that will offset anything Germany may gain by a military victory. All the carefully nurtured plans for the Germanization of this country have fallen to naught. German control of our politics, business and industry, educational and other social activities, is now a broken dream, because Americans woke up in time.

It is indisputable that the kaiser relied on assurances given him that America would not fight; his agents felt their work well done and dependable. At a time when the emperor of Germany refused to give audience to the American ambassador, he met in private conference the editor of a German language paper from Rockford, Ill., who brought him comforting word from the German-American Alliance, on which the kaiser rested in the belief that he already controlled this country. He knows now how poorly the work of propaganda was done, how fruitless its harvest. It is true that nests of disloyalty and treason were established, but they have in a large measure been rooted out and broken up. The great plan for undermining our national existence and quietly annexing us as a de facto Prussian province, a crownland in everything but name, has failed.

Germany deliberately forfeited the friendship of the United States, and all great advantages to its commercial and industrial life, because the purblind leaders believed they had been able to seduce so many of our citizens away from liberty that we would not strike a blow to defend that liberty. And for generations yet to come the German people will be paying for the blunders committed at Potsdam.

Three million men under arms by fall means Uncle Sam is on the job all right.
