

9,000 NEW SELECTS TO FILL CASUAL CAMP AT CODY

Nebraska and Iowa Officers at Deming Smoker Stamp as Propaganda "Replacement Division" Talk.

Camp Cody, N. M. (Via El Paso, Tex.), June 18.—(Special Telegram).—It has been currently reported that this is to be a replacement division, but this is just more of the discouraging propaganda extant," said Lt. Col. W. H. Raymond, chief of staff of the 34th division, at a smoker in the Deming army for about 300 division officers from captain up, which was also addressed by Gen. Frank G. Mauldin, division commander, and other ranking officers.

Word from General Mauldin that this was a time for the most thorough co-operative action. In view of important changes in the division, was reflected in the talks of the commanders, who said they have consecrated their lives to the winning of the war. Maj. C. B. Robbins, Iowa, brigade adjutant, introduced the speakers, who were Gen. Hubert A. Allen, Iowa; Gen. John A. Johnston, commanding the Minnesota infantry brigade; Col. W. T. Molston, 136th infantry; Col. H. J. Paul, 134th infantry (Nebraska); Colonel Downing, 109th engineers, and several captains from Iowa, Minnesota and Nebraska. The old First Minnesota band gave music and picked comedians played.

Col. N. P. Hyatt of the old Second Iowa infantry Lt.-Col. H. H. McGee, assistant chief of staff; Majors Robbins, A. M. Nelson and Oakes of infantry and artillery, were on the arrangements committee.

Capt. P. H. Falligan, Company E, 134th infantry (Fifth Nebraska), has the smallest command in the "Sandstorm" division. He has a full complement of commissioned and non-commissioned officers, but only one lone private. This company came from

The Bee's Fund for Free Milk and Ice

The Bee's free milk and ice fund has alleviated suffering among the babies and small children of the poor in past summers.

These sweltering days make the fight for life and health a hard one for these little innocents.

The Bee, with the help of the charitably inclined, will carry on the work again this summer.

A large fund is not sought, nor are large individual contributions asked for. A limit of \$5 is placed on each contribution.

Every cent is used to supply milk and ice to needy families with small children, preference being given especially to those where there is sickness.

Every cent is used for this purpose. Not a penny is expended in administration of the fund.

The need is great. Send or bring your contribution to The Bee office. It will be acknowledged in this column.

North Platte, Neb. Recruits from the casual camp here will fill this unit, as well as others, within a few weeks. After the Sixth selects now training under Maj. S. B. Philpot of Iowa, have been transferred to regiments, it is reported that 9,000 more drafted men will fill the casual camp.

DECREE OF BOARD PERSINGER, HOPT, LUCKEY MUST GO

(Continued From Page One)

singer and Luckey had been "indiscreet and of such a nature as to invite themselves and the university in public criticism and such as to destroy their usefulness to the institution."

It was found that Professor Hopt held "conscientious scruples against personally helping in the belligerent activities of the government."

In exonerating six of the instructors, against whom charges had been brought, the regents found that "while they were somewhat behind many of their colleagues in recognition of the necessity of the entrance of the United States into the present war, yet none of them can be fairly found under the evidence to be at the present time behaving in a negative, halting, or hesitating manner in support of the government."

Ends Unique Situation.

Tonight's action brought to a close what may be said to have been one of the most unique situations that has ever arisen in any institution of higher learning in America since the United States entered the war. Originally the state council of defense charged that a dozen members of the university's faculty had been "halting" in their attitude on the war and the board of regents called a public hearing at which the board sat as judge and jury while witnesses from all parts of the state were called to testify.

Took Two Weeks.

The hearing occupied two weeks, time and was brought to a close last Tuesday, when final arguments in the cases were made. Complaints against several of the professors named by the council of defense were dismissed because of lack of sufficient evidence. At no time was the charge of disloyalty made, the council basing its demands for removal of the professors from their positions on the ground that they had assumed an attitude calculated to create "a spirit of inactivity toward the war among those with whom they came in contact."

The Board's Statement.

"The Board of Regents has spent 10 days in hearing evidence upon the

charges of disloyalty brought against members of the teaching staff of the university and in cases incidentally brought in connection with those directly informed against. During that time every effort was made to bring in all persons who claimed to have any first hand information as to the existence of any such disloyalty in the work and teaching of the university. It is clear at the close of the investigation that all evidence, however remote, bearing upon this subject has been presented to the board.

"The university and the state are to be congratulated upon the fact that no student was found who had received from any teacher in any class room or private conversation impression of any such disloyalty. It is also a matter of congratulation that the evidence was such that the counsel appointed to appear on behalf of the Nebraska State Council of Defense freely granted in the course of the trial and upon final argument that there is no basis for the charge of intentional disloyalty against any university employe.

At Service of Government.

"From the first moment of America's entry into the war the university, its faculty, employes, students and alumni have in an overwhelming majority of their number offered and given their services to their country. The chancellor of the university, one of its deans, many of its professors and instructors and more than 1,500 of its students and alumni are now in the service of the United States. The entire physical plant of the institution has been placed at the disposal of the government and is now being used for the training of its soldiers. Remembering these facts, the board in defining the conduct it would require of all employes could do no less than was stated in its letter made public April 25, wherein it was announced that any whose behavior was negative, halting or hesitating in support of the government would be summarily dismissed. The extent to which this requirement had and has been observed is also a matter of congratulation. With a single exception indicated herein there is no evidence that at the time the question of their loyalty was raised last April any of the persons accused were failing to fully meet it or have done so since.

Six Fully Exonerated.

"Second, as to Professors J. P. Persinger, Andrew D. Schrag, Mary Fossler, E. L. Hinman, A. E. Sheldon and Alumni Secretary Annis Chaikin, the complete absence of any evidence whatsoever against them was conceded by all parties at the hearing and the proceeding against them discontinued and their standing declared to be as good as though no accusation had been brought. As to Professor Riddervold, no cause was shown for any change in the previous action of this board upon his case in holding it open for the production of the original letter on which the charge against his loyalty was based.

"Third, in the matter of Professor Hopt, the board finds that he holds conscientious scruples against personally helping in the belligerent activities and has refused on that ground to purchase Liberty bonds when solicited by his colleagues in the university.

"He has not sought to dissuade others from such activities, has contributed to the full extent of his ability to the nonbelligerent activities, and is convinced of the justice of our government's part in the present struggle so far as any part in any struggle can, in his view, be justified. It is, however, clear that the conscientious objection entertained by Prof. Hopt is not of such a nature as would exempt him from service upon the direct demand of the government. The board is unwilling upon this ground to exempt him from complete compliance with its announced rule of conduct.

Utterances Indiscreet.

"Fourth, as regards Professors Caldwell, Tuckerman, Grummann, Blumberg, Aylsworth, Wolfe, Persinger and Luckey, the regents find that while they were somewhat behind many of their colleagues in recognition of the necessity of the entrance

New York Submarine Scare Over; White Way Is Radiant Again

New York, June 18.—An order permitting the resumption of normal street and display lighting, which have been curtailed as a precaution against possible enemy air raids since German submarines became active off the Atlantic coast, was issued by the police department. As a result the metropolitan "great white way" blazed last night with old-time brilliance.

of the United States into the present war, yet that none of them can be fairly found under the evidence to be at the present time behaving in a negative, halting or hesitating manner in support of the government, and the regents find that without exception they have fully responded to every call made for personal effort, time or money within their means for the aid and support of the government in its present struggle.

"Fifth, further, however, with regard to Professors Persinger and Luckey, the board finds that their position and public utterances at the time of and following America's entry into the war, were indiscreet and of such a nature as to involve themselves and the university in public criticism and were such as to indicate a lack on their part of a proper realization of the need of unity and harmony in the several branches of the university, such as to destroy their usefulness to the institution.

Factional Differences.

"Sixth, it is also disclosed in the investigation that the public and the prosecution have been misled by activities arising from dissension and personal difference among members of the university staff. It appears that the university has been criticized and has suffered in its standing throughout the state by reason of charges arising from such factional differences and by the spreading of unfounded suspicions against the present attitude of members of the staff who are zealously doing their full duty at the present time. The board cannot hold blameless persons who have contributed to this state of affairs.

Dr. Fling Must Explain.

"It is impelled especially in this connection to name Dr. F. M. Fling and Mrs. Minnie T. England as apparently in a considerable degree responsible for these conditions, and to conclude that their connection with the university should terminate unless they can adequately explain the circumstances before the board. An early opportunity to do so will be given them.

Charges Dismissed.

"Seventh, it is, therefore, by the board ordered that proceedings and charges against Prof. Senning, Schrag, Mary Fossler, Hinman, Sheldon and Alumni Secretary Annis Chaikin, heretofore dismissed and discontinued orally by the board at the termination of the investigation, be and the same hereby are formally dismissed, and the persons named are hereby exonerated and held blameless in the premises.

"It is further ordered that proceedings and charges against Prof. Grummann, Caldwell, Tuckerman, Blumberg, Aylsworth and Wolfe be and the same hereby are dismissed, and the said persons and each of them exonerated from blame and held guiltless. It is further ordered that Prof. Hopt, Persinger and Luckey be and they hereby are directed to tender their resignations to take effect forthwith."

Sweetheart Hurls Scrap Iron; Victim Seeks War

J. B. O'Sullivan, O'Neil, Neb., who admits that he is funny, has written the following letter to the army recruiting office at Norfolk:

I see by the papers that there is a fine fat chance for Yanks to get across quickly by engineering in the engineers branch of the service. I also see that they need not be in the tip-top of physical condition. I have had tonsils, rotten teeth and have not been examined by a doctor for several seasons. One of my sweethearts threw a bucket of hot scrap iron on one of my hind feet the other night and I have decided to get into some other and more pacific game. I am a writer, a humorist and poet. If you have any dope on the writing or corresponding branch of the service for heaven's sake ship it at once. Yours for the sake of our sweethearts, sisters and mothers.

O'Sullivan was advised that the engineers are open for men under and

Over Registration Age and That the Chances for Getting Across Quickly are "Fat."

Railroad Embargo Modified To Speed Up Wool Movement

Washington, June 18.—Modification of the railroad embargo, where necessary to facilitate the movement of wool, particularly to eastern manufacturing centers, was announced today by the railroad administration.

Premier Clemenceau Pays Early Morning Visit

Paris, June 18.—Premier Clemenceau left for a visit at the front at 5 o'clock this morning. He returned at 10 o'clock, in time to attend the meeting of the cabinet.

Omaha Automobile Dealers Give Picnic at Lakeview Park

It is expected that there will be at least 10,000 people at Lakeview park Wednesday at the picnic held by Omaha's auto dealers, their employes and friends. It was thought that 10,000 tickets would be sufficient, for every one interested in automobiles in the city, but the demand has been so great at the offices of the dealers, garages and filling stations that it was found necessary to have more printed.

The day will be spent at the many centers of fun. Dancing will be one of the big attractions in the evening. Tickets for the affair can be had for the asking at all auto dealers, garages and filling stations.

Spindletop Gushers

Just northeast of our High Island property is the great Spindletop Gusher Oil Field at Beaumont.

60,000 to 70,000 barrel gushers reported from this district. Millions have been made in this wonderful field.

Drilling operations were conducted around a salt dome, covering an area of possibly 200 acres.

The salt dome at High Island covers an area of nearly 2,000 acres, indicating tremendous gas pressure, which is almost always a positive proof of oil being in the immediate vicinity.

Our property lies near the base of this dome, and we absolutely believe we will be successful in bringing in greater gushers than any yet brought in in the adjoining counties.

We positively believe we will be able to make fortunes for all our \$30 quarter-acre tract purchasers, and practically every one to whom we are explaining our proposition agrees with us in this belief.

You certainly should be willing to at least let us explain our plan, and there is no question in the world but what you will join us when you thoroughly understand the full details.

Send TODAY for free, illustrated bulletin, with government maps, reports and complete information.

We are operating under permit, in compliance with the laws of this state.

An Exceptional Opportunity TO LEARN MORE ABOUT YOUR MOTOR CAR

Now, when good individual transportation is becoming more and more valuable and important, we are inviting you to attend lectures on automobile construction and design.

MR. E. PHIL MERRILL, the noted automobile lecturer, who has explained motor car design and construction to the automobile public in all the leading cities of the United States and Europe for many years, has accepted our invitation to lecture for the Omaha public at our sales-room each afternoon at 3 o'clock and evening at 8 o'clock.

Wednesday--Thursday--Friday--Saturday (excluding Saturday evening)

Mr. Merrill uses such plain terms and so thoroughly explains every detail in lecturing on motor cars, that anyone can understand him. He uses a motor car chassis and many motor parts to explain the development and finally accepted standards of motor car construction.

It make no difference what car you own, or if you haven't any motor car, you should make a strenuous effort to attend at least one of these lectures. Orders will not be solicited at these lectures, nor will visitors be importuned. We consider these lectures as a part of our service to motor car owners, and particularly Cadillac owners.

We hope you will find it convenient to accept our invitation to attend at least one of these lectures, which we know you will find both interesting and instructive.

Afternoons at 3 o'clock. Evenings at 8 o'clock. (Except Saturday)

Stop Itching Eczema

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not greasy and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

A New, Harmless Way to Banish Hairy Growth

(Beauty Topics)

By following this suggestion any woman can, in the privacy of her own home, remove every trace of hair or fuzz from her face. With powdered delatone and water mix enough paste to cover the not wanted hairs; apply and in 2 or 3 minutes rub off and wash the skin. This method is un-falling, harmless and quick in results, but care should be employed to get the genuine delatone.—Adv.

For quick results, try Bee want
