Bradstreet's Trade Review. will say: "Animation resulting from war work shift labor, cuts down production of what are now termed non-essentials and puts additional clamps on purely domestic opera-tions. In a word the country is being ad-justed to a war basis, governmental regu-lations and price fixing loom larger, suc-

istions and price fixing loom larger, successive draft calls reduce supplies of labor,
and as the government must have essentials,
civilian needs are secondary considerations.
Potentially civilian demand is of large
volume, but inability to find free merchandise in large quantities naturally lessens
the power of sellers to fill orders and as
most markets are dominated by the exigent
needs of the government trading is being
conducted in the confirmed belief that deliveries can only be had when and as the liveries can only be had when and as the war situation becomes less imperative.

Issues Drop for No Apparent

Reason After Gains in Early Trading. New Tork, June 21.—Trading on the stock exchange today was marked by alternate advances and declines, the latter tendency prevailing at the dull closs.

Forenoon gains of 1 to 2 points among various speculative lesues also experienced a sharp reversal before the closs and standard stocks cased from fractions to 11.

a snarp reversal perfore the close and standard stocks eased from fractions to 1½ points. No definite explanation for the set-back was forthcoming.

Ralls also lagged, the only noteworthy movement in that group being limited to secondary coalers. Tobaccoa, sile and utilities displayed little of their recent prominence and motors yielded moderately with metals.
