His appearance on the stage was invariaests to be acquired is estimated at not less than £350,000,000 gross. This represents neither the gross amount of stock to be isbly the signal for an outburst of welcoming that, except he's losing money." Kelly spoke with the voice of a prohpet. Even the kaiser cannot close his ears to the ominous roar of discontent that is going up all over Germany. It is heard in this country, too, Omaha boys training for service at the In New York the roar increases in volume as trade slips away from Teutonic hands.

Kind of Water to Use.

Omaha, June 22 .- To the Editor of The Bee: I want to tell our honorable city commissioners that there is nothing so bad for a hot working man

as a cold shower bath. Thirty-nine years ago, not feeling well. I went to a New York physician; after finishing his examination he said. "You do not want any medicine, but in the summer take hot baths, not warm, but hot, and drink hot water, and in win-

ter take cold sponge baths." I asked him what his bill was; he said \$10. I have never paid a doctor a penny since, nor drank a quart of cold water. There is nothing that will quench thirst so well as hot water o create thirst like ice water. A hot bath will cool one off, while a col done will warm up. Last winter, with 10 below zero, I shoveled snow bare-headed and without an overcoat, after my cold sponge bath. Now if our commissioners want to help the working man after a harl day's work in the sun, buy him a tub and a kettle, so he can take his hot bath at home; it will be cheaper for the taxpayers than

thousands of dollars plumbing bill, and we will still have the square for a breathing place. 78 YEARS YOUNG. -Rudyard Kipling, in London Times

Work of the "Canteen" Women.

Omaha, June 24 .- To the Editor of The Bee: Please print this answer to Rev. Mr. Savidge's opinion of Red Cross women giving boys cigarets: I, as the mother of one of the boys who enlisted for service for his country, and took a long trip into Canada, going to Portsmouth, N. H. The trip was a very hard, long journey, but owing to the kindness of Red Cross, ladies was made more pleasant, giving them cigarets, candy, gum and the glad welcome and cheered them on their way, and am glad to say my son isn't one of the kind of boys that could be thought of as being tempted by one of these good women, as he had better teaching at home to do

what he considered wrong. I for one bless them, and as I work every day operating an elevator since my boy has gone with the colors, will give all I can for cigarets or anything else the boys enjoy. As they are fighting for us who remain here, it is certainly a narrow judgment to ask them to give up cigarets. MRS. E. TOLLIVER.

Retail Grocery Prices.

Omaha, June 21.-To the Editor of he Bee: It is to laugh! Ed Wise, The Bee: president of the Retail Grocers' association, forces himself into print sociation, forces nimself into print periodically, via the reporters, and each time he tries to impress upon the public how exceedingly patriotic the grocers' organization is; how it labors to educate the people into be-coming patriots. I wish Mr. Wise would explain through the iff attempt would explain through the "Letter Box" why goods that are advertised "Letter nationally to retail at a certain price are sold by Omaha grocers at from 3 to 5 cents more. There are many instances, but I will mention only one, as a proof of my statement: Campbell's soups are advertised in the leading magazines to retail anywhere for 12 cents; members of the Retail Grocers' association charge 15 cents per

People who notice the advertisements in magazines will know that I am right in asserting that there are many other cases of this kind.

North Dakota, where victorious hosts from Minnesots are threatening to storm the strongholds of Townleyism. This will relieve Nebraska.

Contributions are coming fine to The Bee's free milk and ice fund. This is one charity where every dollar hits the mark, because spent for milk and ice for little tots who might otherwise suffer for their lack during the heated days, with no outlay for "administration."

A lot of good paper stock is going up in smoke every time a batch of German text books is burned., A few strokes with a power cutting machine and the offending volumes would be ready for the macerator and could return to be of use for printing wholesome literature.

Chairman Hurley Talks Sense.

Chairman Hurley's talk to the senate committee concerning prohibition deserves to be more generally applied. He did not appear as an advocate of the liquor interests, opposed to prohibiting the sale of strong drink, nor as a champion of the "dry" cause, but as a business man, charged with the accomplishing of a great public service. He simply asked that congress do nothing that might hamper him in his work. "Take no unnecessary chances," is the way he summed up his advice. Herein has been the source of all our muddling in connection with the war. Men blaced in high command have persisted in bringing forward pet theories, little personal plans or ideas, and regardless of their possible effect, have insisted on their adoption and enforcement. Many of these have done little harm, some have actually retarded the work of getting ready, and none of them have helped in a material way. When all the energy, resources and capacity of the whole nation should be bent on the one great job that confronts us, good sense should convince us that it is a poor time to try experiments, no matter how willing the champions of the cause may be to see whether it will work. Chairman Hurley's address along these lines should be made a part of the training of every man in an executive position under the government, to be followed until the war is over.

when it would do most to break down the wat spirit among the Austrians. Already in turmoil at home, the cabinet resigning in face of the most serious domestic crisis of the empire's recent history; with open revolt in its greatest provinces, famine everywhere in the land, and unrest and dissatisfaction universal, the failure at the Piave will have an effect in Austria that scarcely can be exaggerated. Instead of reviving the people to further belligerent effort, it will most likely increase the determination to rebel. That the difficulties of the government are thus increased, and the influence of Berlin weakened, must be plain to any. No previous reverse to the kaiser's cause will touch him so heavily as this, for its weight lands squarely on his weakest point. Days will elapse before the full story is told, but Austria is almost, if not wholly, out of

McAdoo's Plans for the Railroads.

Secretary McAdoo, making a formal statement of what he hopes to accomplish through his direction of the railroads, endorses plans formulated in anticipation of the war. In carrying them out he has the distinct and admitted advantage of ability to operate the several lines of the country as one system. Inability to do this lay at the bottom of any. failure that might be charged against the private management of the transportation industry. Operating officials realized the weakness of the system under which they controlled their business and efforts to secure relief through the Interstate Commerce commission frequently had been made, with the apparent result of bringing about stricter regulations which served to further hamper the lines. It is altogether probable that the experience of the country with the unified operation of the railroads by the government will create such sentiment that we will never again return to the conditions that prevailed up to the beginning of the present year. Even when the roads are restored to their owners it will be possible to handle them along the plans outlined by the secretary of the treasury, to the end that highest efficiency and greatest service to the public be attained.

Every word from a thousand or more Great Lakes naval station sounds a tribute of esteem for the "chow wagon." In variety resorts shut their doors. The final passing and liberality the round of "big eats" makes a Hooverized feast look like the twilight remnants of a picnic dinner. According to the Great Lakes Bulletin,

he last quarterly report filed with Past Assistant Paymaster F. H. Atkinson, who has charge of the department, shows that during January, February and March there were 1,888,989 rations prepared and served to 20,-909 men.

The cost of this mess, which does not include food for the hospital, totaled \$670,-119.89.

In spite of the popular idea that the navy diet consists of bread and beans, or, by way of variety, beans and bread, only 17,443.75 not deal with it on any terms.—New York gallons of beans were served during those Herald. three months.

Every man on the station receives at least one and one-quarter pounds of bread each day, or about three-quarters of the small-sized loaf now being sold in the large cities. The report shows that 635,962.5 pounds of bread were purchased outside the

camp and that 593,450 pounds of flour were used in the station galleys. With every man getting a pound and three-quarters of fresh meat daily, 1,328,-032.42 pounds of fresh meat besides 123,-452.25 pounds of smoked meat were consumed. Besides this, 9,606,780 fresh eggs were used.

For side dishes 155,627 pounds of vegetables were served, not including 97,236 pounds of canned tomatoes. In spite of the don in providing elaborate burial accommo-2,979,110 pounds of fresh tomatoes were purchased.

Besides all these stupendous amounts there were servied 95,755 pounds of coffee, 148,338 pounds of milk and 793,700.25 pounds of fresh fruit.

With the recent influx of recruits the cost of feeding hungry mouths has naturally increased. During May over \$100,000 were expended for fresh beef alone, while 8,291 quarts of strawberries were eaten in May and thus far during June 11,400 quarts have been handled.

In spite of the fact that the total cost covering the feeding of all men connected with of the martyr president in Lincoln park will every department of the station amounted to be sent after a replica has been cast to take \$861,156.41 for the first three months, the its place in Chicago. The statue will occupy garbage ratio was but two and one-quarter a site between Westminster abbey and the pounds to each man, which included all parliament buildings, one of the most imposrefuse, even empty cans.

of the last of the local German theaters in a city that once supported two, and sometimes three, the closing of some of the best known of the German restaurants, the failing fortunes of others and the sorry plight of the Gearman press are among the fruits of the policy of frightfulness that was to have intimidated the world.

The roar of dismay evoked by these and other crushing defeats of German industry is but a feeble wail in comparison with that which will be heard after the war, when Germany, seeking to regain the world-wide mar-ket that was once hers, shall find opposed to

People and Events

One of the economic drives featured by the War Industries board deals with men's wearables and sends the sacred doublebreasted coat to the limits of has beens. Much easier said than done. Present day Ciceros-in-the-bud are not easily persuaded to forego the essential handrest of eloquence. or omit the inspiring touch of the front but ton. Enough double-deckers are on hand, however, to maintain oratorical traditions on the coming Fourth. Admirers of domestic animal pets in New

York and vicinity rival their kind in Lonwintry weather of the period recorded, dations for cat and dog goners. The cemetery lies in Westchester county, has 2,000 graves, and grows in popularity and profits. An ordinary plot of ground, 6 by 6, costs \$90, while a real swell location on the main highway of fame calls for \$2,000. Cat and dog epitaphy expresses emotions as tender as may be found in the silent cities of humanity.

A satisfactory decision is said to have been reached as regards the sending to England of a statue of Lincoln. The New York World reports on the authority of Charles L. Hutchinson, president of the Art Institute of Chicago, that the original St. Gaudens statue ing sites in London.

is quoted as saying that if the bakers succeed in raising the price of bread 1/2 cent, the members of the grocers' association will raise a full cent to customers. This is nothing new to us consumers; we nearly all know that when the jobber raises the price of canned goods, for instance, 10 or 15 cents per case, the grocers charge us from 21/2 to 5 cents more on each can. Let us hear from President Wise and Secretary Campbell in regard to the excess profits on nationally adver-
