

RETAILERS GO ON CERTIFICATE BASIS ON SUGAR

County and State Administrations Both to Check Sales in Order to Prevent Violations of Law.

A. C. Lau, deputy food commissioner for Nebraska, has worked out a scheme for the expeditious handling of sugar under the new regulations.

He has determined that certificates for the selling of sugar by retailers be issued by the food administrator of each county. Blanks in duplicate will be sent to each retailer in the state and these and others selling out by grocers and others selling sugar in retail quantities. One of these blanks will be retained by the county administrator and the other filed in the office of the state food administrator for checking purposes.

Under the new ruling allotments to the retailers of the state will be based on the quantities sold by such retailers during the months of April, May and June of the present year, and they will be allowed one-third of this for July, and the other two-thirds allotted during the remaining months of August and September, while the present regulations are in effect.

Lancaster Excepted. Lancaster county alone is excepted from this provision, the food administration forces there being sufficiently large to permit of the handling of the situation direct.

All certificates for allotments of sugar for other classes of the state and in the semi-arid regions of the west considerable sorghum and syrup canes of different kinds have been planted this year and the restrictions placed on sugar consumption will undoubtedly create a big demand for "long sweetener" in the form of sorghum and cane molasses the coming fall with consequent high prices which will make such enterprises profitable to the farmers and stimulate the growth of one of the "infant industries" of the state.

Manufacturers and consumers can use without restriction, other than the pure food laws, honey, maple sugar, grape sugar, corn syrup, or glucose, and refiners' syrups.

In the southeastern part of the state and in the semi-arid regions of the west considerable sorghum and syrup canes of different kinds have been planted this year and the restrictions placed on sugar consumption will undoubtedly create a big demand for "long sweetener" in the form of sorghum and cane molasses the coming fall with consequent high prices which will make such enterprises profitable to the farmers and stimulate the growth of one of the "infant industries" of the state.

Omaha Auto Firm Brings Suit Against King Motor

The Noyes-Killy Motor Co. brought suit in district court Wednesday morning against the King Motor Car Co. for \$28,000 damages, alleging breach of contract. The plaintiff alleges that on June 15, 1918, the King company notified them that it would no longer carry out the contract and that the deal was ended. The Noyes-Killy company alleges that through the wrongful termination of the contract they have been damaged to the sum of \$25,000 and that the King company is indebted to them for \$3,000, which was made in payments during the early part of the deal.

G. W. Wattles Wedded in Estes Park to Miss Julia Vance of Lincoln; Food Administration Romance

Gurdon W. Wattles was married at noon yesterday at Estes Park, Colo., to Miss Julia Vance of Lincoln, Neb. News of the wedding of Mr. Wattles, millionaire Nebraska food administrator and president of the Omaha & Council Bluffs Street Railway company, and Miss Vance, who was acting head of the home economics department, college of agriculture, University of Nebraska, furnishes a distinct surprise to Omaha society and business associates of Mr. Wattles, for both parties had guarded their secret well. The Bee rumored the approaching marriage two weeks ago, giving Omaha the first intimation of the wedding.

Miss Vance was attended by Miss Margaret Fedde of Lincoln, and Mr. Wattles by Frank J. Burkley of Omaha. Rev. T. J. Mackay of All Saints church, Omaha, officiated. Only a few intimate friends and relatives attended the wedding.

This is a "Hoover romance," for the couple met only a few months ago in food administration work. The bride-to-be came down to Omaha recently with Mrs. A. E. Davison of Lincoln to attend a dinner Mr. Wattles gave at the Fontenelle for a member of the national food administration.

Miss Vance was born in Nebraska, and her home has been at Crete and Lincoln during most of her life. She was graduated from Doane college, at Crete, Neb., and has degrees also from Oberlin college at Oberlin, O., and Columbia university of New York City, where she specialized in food economics. She has traveled extensively in this and foreign countries, and three years ago accepted a position in the home economics department of the state university at Lincoln.

During the last year she has been director of this department, while Miss Alice Loomis was in Washington for war service. Last fall she was nominated by Mr. Hoover as home economic director of the federal food administration of Nebraska and has filled that position with great credit to herself and the administration. Her parents are both deceased. Her

North Side Mothers to Welcome Visiting Soldiers

War Camp Community Representative Miss Francis L. Range addressed a meeting of the North Side Mothers' club at a luncheon at the Prettiest Mile club Tuesday.

Mrs. G. R. Gilbert, president of the North Side Mothers' club has appointed a committee with Mrs. G. E. Begerow as chairman to act for the club.

Police Judge Orders Two Couples to Keep Apart

"I was barefooted and I only wish I had had my shoes on when I kicked him," said H. W. Hamilton, 413 North Eighteenth street, arrested on complaint of John Johnson, 423 North Eighteenth street, on a charge of assault and battery. The trouble started when Johnson went to Hamilton to collect rent due him. The judge ordered the two men and their wives to stay away from each other and dismissed them.

Lemon Juice For Freckles

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Adv.
