PORK INCREASE SHOWN IN REPORT OF TEN MARKETS

During May 2,303,630 Hogs Weighed, and Animals Being Produced Heavier Than Last Year's Output.

That the farmers and stock growers of the country are rendering a valuable service toward the winning of the war by increasing the production of pork, is indicated by a report gathered from the ten principal live stock markets by the National Live Stock exchange.

The figures for May show that at these ten markets, 2,303,630 hogs were weighed, out of which were found 17,707 piggy sows, or an average of 76 piggy sows in each 10,000. Receipts for the same month last year, at the same markets, amounted to 2,199,013 hogs, out of which were found 19,202 piggy sows, or an average of 87 piggy sows in each 10,000 hogs weighed, showing a decrease this year of 11 piggy sows in each 10,000 hogs.

During the first five months of this year the receipts showed 13,267,087 hogs weighed, out of which were found 79,206 piggy sows, or an average of 59 piggy sows in each 10,000 hogs weighed. The figures for the corresponding period a year ago show 12,390,109 hogs weighed, out of which were found 81,644 piggy sows, or an average of 66 piggy sows in each 10,000 hogs weighed.

These figures show that more hogs are being produced this year than last, and that the farmers are making them heavier than usual. Farmers and stock growers in the territory tributary to the Omaha market have also demonstrated their patriotism by sending in large numbers of hogs to be sold for the benefit of the local Red Cross chapters. From February 21 to June 26, the fund had reached a total of \$300,192.69.

Omaha Leads Kansas City in Cattle, Hogs and Sheep

Thursday's stock receipts show Omaha leading the Kansas City market with more than twice as many hogs and sheep, and nearly double the number of cattle. The figures are: Omaha, cattle, 5,300; hogs, 14,500, and sheep, 5,000. Kansas City, cattle, 3,000; hogs, 6,000, and sheep, 2,000.

Flat Increase in Live Stock Rate of 25 Per Cent

E. E. Grimes, in charge of the consolidated railroad offices in the Union stock yards building, in explaining the increased freight rates which became effective June 25, Thursday made the following statement: "The increase in live stock rates is a flat 25 per cent, with a maximum increase of 7 cents per hundred. Shippers should understand that this increase applies to all markets. "Grain rates are similarly advanced, that is, wheat rates are advanced 25 per cent and grain other than wheat is advanced to the wheat basis. Coal rates are advanced approximately 30 cents per ton in South Omaha. All class rates are advanced 25 per cent, with a minimum rate of 25 cents on first class. The increase in the live stock rates will have a tendency to force shipment to the closest market and will in reality help the government in zoning the different markets."

World's Best Cattle Price Record Again Equalled

The world's record price of \$18.25 per 100 pounds for heavy beef cattle, selling on the open market, which was established at the South Side market Wednesday, when Elmer Graham of Creston, Neb., sold 33 Hereford and Shorthorn steers at that figure, was equalled Thursday, when a load of 17 steers shipped by Ezra Boeckenhauer, Wakefield, Neb., was sold by the Wood-Osborn Live Stock Commission company to a local packer. The steers averaged 1,506 pounds and brought \$274.84 each.

Boarding House Keepers Affected by Sugar Order

Boarding house keepers who feed 25 or more people regularly will be required to present certificates for sugar and are put on the same basis as public eating places, according to a ruling announced by the food administration for Nebraska.

Blanks must be obtained from the food administration, which will then issue certificates for the amount of sugar the boarding house may have. The certificate must be surrendered to the retailer or other distributor from whom the sugar is purchased. Grocers are not permitted to sell boarding houses subject to the regulations without the certificate.

In the Silent Drama

Sun—in the "Desert May" playing here today and tomorrow, William S. Hart in the character of "The Grinch" converts the fallen city of Broken Hope into the city of Golden Hope by optimism, daring and a good deal of plain faith in the future. Coming from out in the desert he brings with him a belief in the future of the little town and the citizens again do a little more prospecting work in the deserted claims on the hills around. Finally a discovery of tungsten is made and the name of the desert village is changed from Broken to Golden. In the course of his upbuilding of the town, Hart finds it necessary to run the desperadoes out and finds time from the series of gun fights and from cheering up the dispirited citizens to carry on a lively love-making with a pretty dark-haired girl and their dreams are realized with the prosperity that comes.

Strand—Wallace Reid in the story of the "Fretful of France" pictures a young American who embarks on a steamer for France as an ambulance driver and becomes mixed up with German plotters and a girl who he thinks is a German spy. He is captured by the Germans, but a shell at an opportune moment wrecks the chateau and he comes to consciousness with the girl he has saved and saved nursing him and they plight their troth just as the news of the United States entering the war reaches France. Reid takes to the part of the American Bayne in an appreciative manner and his acting brings to the play a crisp action that carries it far toward success.

Rialto—in "The Braver, War" played by Sessue Hayakawa there is pictured one of the old customs of Japan in regard to marriage. Sessue plays the part of a brother of the dying husband. By ancestral custom he is compelled to marry the widow, although he is in love with a girl of Japan who is half American. It is a tense and thrilling drama and has been produced to faithfully picture the Japanese life in its true light. The sadness of the story is lightened only by the pretty love theme which runs through it.

HERE ARE REASONS WHY BANKERS, ATTORNEYS AND SUCCESSFUL BUSINESS MEN ARE DAILY BUYING TRACTS OF OUR HIGH ISLAND PROPERTY. Because they recognize the U. S. Government reports on High Island merit our belief in bringing in tremendous oil gushers on our property. Because they realize that the value of these 1/4-acre tracts should be enormous in a few months. Because they will receive a royalty of one-tenth of all oil produced and saved from wells drilled on their tracts. Because they realize that through our Profit Sharing Contract, we positively guarantee to pay 50% of our profits to our tract purchasers. Because they understand that even if we fail at High Island, their share in profits from our proven lease in the Humble field fully protects their investment. Because they know they are dealing with responsible people, otherwise we would not have received permit to do business in this state. You should certainly be willing to invest as little as \$30 with responsible business men with the very best chances of making a fortune. The time to find out about our proposition is NOW. Soon it will be too late. Send for free bulletin TODAY. Operating under permit in compliance with the laws of this state.
