**Typoid Epidemic Among German Troops in France**  
Amsterdam, June 28.—Rumors are in circulation, says the Echo Belge, that an epidemic of typhoid is raging among the German soldiers in northern France. Several units are reported to have had virtually their entire personnel affected with this disease.

This condition, together with the losses sustained by the enemy in the last offensive, is said, according to this account, to be responsible for the delay in resuming the offensive.

**Barbed Wire Fails to Stop Desertions in Hun Lines**  
Paris, June 28.—Three barbed wire fences, one of which is charged with electricity, have proved ineffectual in hindering German soldiers from deserting across the frontier into Switzerland, says a Havas dispatch from Basle. The German military authorities have attempted to remedy the evil by cancelling all leaves of absence and special privileges for soldiers hailing from Alsace-Lorraine.

**Fake War Schemes Harvest Big Crop in New York City**  
New York, June 28.—Backers of alleged fake war charity enterprises and soliciting schemes defrauded the public of between \$2,000,000 and \$3,000,000 in New York City during the last year, according to a review of evidence presented to a special county grand jury by District Attorney Swann during its investigation which terminated today.
