MISSED THE BULLSEYE.

It is interesting to observe through the comment of the press of the country that the demand voiced in the Indiana democratic state convention for a 1920 third-term renomination of President Wilson has failed to "hit it off" and that in the general consensus of opinion it was wholly out-of-place at the present time and under present war conditions.

Neighborly Words on Our Quarter Centennial

Marked Progress Apparent.
Aurora Republican: Victor Rosewater has just celebrated his twenty-fifth anniversary of active newspaper work with The Omaha Bee. A special edition was issued last Sunday in commemoration of the event which bore eloquent testimony to the esteem in which he is held by the business and professional interests of Omaha.

The Bee's Letter Box

Shriver's Ancestral Tree.
Omaha, June 29.—To the Editor of The Bee: I have been urged by a number of my political friends who are supporting me for county treasurer to correct an erroneous rumor that is being circulated as to my being of German descent.

dollars at the end of the week to meet one's expenses.—Rustin Transcript.
"Different customs prevail in different localities. In Paris, an article is naturally over the top of the town."

The new guard over the sugar bowl will keep out more than flies.
"Cheating" on the food regulations is a mighty expensive business hereabouts.

Local business for the first six months of the year shows up some totals that ought to interest the natives as well as the outside world.
Our national treasury shows a balance sheet of \$13,000,000,000 for the first full fiscal year of the war.

The season of professional base ball in the South has been suspended. A base ball pennant cannot command more attention as against a Liberty loan honor flag, or a 150 per cent Red Cross record.

Why not let Champ Clark and John Sharp Williams divide time at the democratic convention? For a topic we would like to suggest: "What became of the instructions at the Baltimore convention?"

Commissioner McChord of the Interstate Commerce commission laments the persistence of the wooden sleeper, but says the commission has no power to enforce its edicts. A few more affairs like that at West Hammond and the problem will be solved.

The Trade commission finds that profiteering has been extensively practiced, and so reports to the senate. The main point is, what will we do about it? The president long ago made some definite promises on this point, and maybe he may now find time to redeem them.

Our Nebraska State Railway commission continues to go through the forms of approving orders issued by the federal government for the operation of the railroads. Suppose our state commission should encounter some order which it disapproved. We shudder at the very thought.

A Real "League of Nations."
Students of world politics find in the relations between the elements of the British empire something approaching the real league of nations that is looked forward to as an after-the-war condition for peaceful existence. Long before the war started, the imperial council had been broadened to admit representatives of Canada, Australia and the South African Union.

When the Ship Yards Celebrate.
One feature of the Fourth of July celebration in the United States this year is to be the launching of ships, as many as the yards can put into the water on that day. How many this will be is yet a matter of some conjecture, but the Emergency Fleet corporation announces 90, with the possibility of 95, the total deadweight tonnage certain to go down the ways being 282,186.

Work under control of the Emergency Fleet corporation is really only getting under headway. Chairman Hurley, discussing the future, says it is possible for the 751 ways now existing in the United States to turn out 13,518,000 tons if only each way produces three ships a year.

It will require 12,000,000 tons of shipping to support an army of 3,000,000 Americans in France. And we will have the ships.
The spirit of the men is shown in the experience at one yard. The manager put a sign on an unfinished hull: "The management has promised Mr. Schwab to launch this vessel on July 4. Will you do it?" And the men tacked their reply to the sign put up by the boss: "We'll do our duty."

Woman's Further Contribution to Victory.
Woman has been given her full share in the war from the start; where she did not get what she thought was hers by right, she simply took it. About all that mere man has been able to retain of his olden prerogative is confined to the narrow limits of toting a musket and wearing a gas mask, and even this privilege is not exclusive.

Idol Worship in Germany.
Erich Brandeis in Saturday Evening Post.
Beginning with the Prussian Order of the Crown, fourth class, up to the Black Eagle, which makes the owner a nobleman and titles him to the coveted prefix, "excellency," these little Jewbirds are the alpha and omega of every German's ambition.
