

U-BOAT CAPTAIN HURLS MAN BACK INTO HIGH SEA

Life Boat With Twelve Nurses is Seen to Capsize When Shelled by the Huns.

London, July 2.—One of the boats of the hospital ship Llandover Castle, containing 12 nursing sisters, was seen to capsize, according to latest information. The sisters were drowned.

The commander of the destroyer Lysander, which rescued the captain and those in his boat, describing the rescue today, said: "When the survivors were picked up they cheered, although they had been drifting for 36 hours and had for food only ship's biscuits and water."

When last seen the submarine was apparently shelling in the darkness one of the seven boats.

One boat, in which there were 12 nursing sisters, was seen to capsize. The sister drowned directly out and were either the boat. A Canadian sergeant, who was in the same boat, managed to crawl on the keel. Nothing had been seen of the others. The submarine was observed charging wreckage, on which might have been survivors and in the locality where it was likely some of the boats were drifting.

The submarine steamed swiftly toward the captain's boat, containing the survivors, and passed just astern. Ordinarily such a maneuver would disturb the sea so as to make the capsizing of a small boat almost a certainty. This boat, however, kept on her keel.

The commander of the Lysander, describing the ferocity of the submarine commander, said: "The Canadian sergeant was dazed and badly bruised. When the overturned boat got near the submarine the sergeant climbed aboard exhausted. He thought it was a rescue, but he was seized by one of the submarine officers and thrown back like a hand bag."

U. S. Aviator Bags His Ninth Hun In Fight Over American Lines

With the American Army in France, July 2.—First Lieutenant David E. Putnam of Brookline, Mass., a member of an American pursuit squadron, brought down a German biplane near Regnevillie, north of Toul, last night. This is the ninth enemy machine officially credited to Lieutenant Putnam.

Will Break All Records.

Ogden, July 2.—"July's shipbuilding record will be the greatest in the history of this country and will totally eclipse all previous efforts." This was the statement of Charles M. Schwab, director general of the Emergency Fleet corporation, who was here yesterday enroute to San Francisco to witness a great launching of ships on July 4.

FRANCE TO MAKE FOURTH OF JULY GREAT HOLIDAY

American Troops to Participate in Reviews in Paris; Hold Celebration in All Cities.

Paris, July 2.—France, outside of Paris, is making special efforts to celebrate the Fourth of July properly. At Nancy the Erchmannachtarian society and other associations will hold a meeting at the university. Letters from General Pau, Maurice Barres and other distinguished sons of Alsace-Lorraine will be read, testifying to the gratitude of the lost provinces to America. Dr. Morton Prince of Boston will deliver an address.

In the Paris region there will be reviews at Etampes, Rambouillet, Mantes, St. Germain and Pontoise. It is understood that American troops will participate in these reviews. The new name plate for the Avenue du President Wilson was put in place on the former Avenue Trocadero yesterday.

Brest, France, July 2.—In celebration of the Fourth of July here, President Wilson's name will be given to the Place du Champ de Bataille, the largest square in the city.

Vendome, France, July 2.—This city, the birthplace of the Count de Rochambeau, leader of French troops in the American revolution, will turn its celebration this year in honor of Rochambeau into a solemn commemoration of the American Independence day.

Germany Will Limit Polish Army to 90,000; Will Also Fix Frontiers

London, July 2.—The principal features of the German solution of the Polish question, which are approved by all the central powers, are published in the Abend Zeitung of Augsburg, Germany, says an Exchange Telegraph dispatch from Zurich. The conditions are:

"The frontiers will be fixed by the German high command according to military necessities.

"The Polish army will be restricted to 90,000.

"For 50 years Poland must make most favorable economic concessions to the central powers on the principle of the most favored nation.

"Publication of German, Austrian, Hungarian, Bulgarian and Turkish papers must be allowed.

"In any locality where there are 10 German children a German school will be opened."

Provision, the newspaper adds, also is made for an elective monarchy. The German conditions will be incorporated in the constitution, which cannot be modified without the approval of the central powers.

Jefferis for Congress Boosters Club

Omaha, Nebraska, July 1, 1918.

To the Voters of the Second Congressional District—

I am a candidate for the Republican nomination for Congressman for the Second Congressional District which includes Douglas, Washington and Sarpy Counties, and naturally desire, if possible, to meet and have a personal talk with every voter in the District—particularly those who are registered Republicans—before the primary election, which will be held on the 20th of August, 1918. The population of the District, however, has become so great that it may be impossible to meet each of you, however, to know that I would like to meet you personally and that I want your vote, and I am writing you at this time to ask each of you personally for your assistance and co-operation.

If you have not already done so, I should like to have you join the JEFFERIS-FOR-CONGRESS BOOSTERS CLUB which has been organized by some of my friends and has already grown to very considerable proportions. You can send your name to Harry S. Byrne, Secretary of the BOOSTERS CLUB, whose office is in the City National Bank Building, Omaha.

Yours respectfully,
ALBERT W. JEFFERIS.
