U. S. ARMY NOW **NUMBERS OVER**

Rapid Growth of War Forces Reviewed by Secretary Baker in Statement Laid Be-

fore House.

(Continued From Page One.) ued the statement, "that drunkenness in the army is completely under control, both in the United States and France. You may travel for weeks in France without seeing an intoxicated American soldier. "There is no permanent military

The statement shows that the death rate per thousand among all himself was mortally week ending June 7 was 4.14, as against a rate of 20.14 in the regular army in the United States in 1898 and 5.13 in 1916.

On June 5, the capacity of the hospitals in the United States was 21, 1918, under a heavy bombardment, 72,667 beds with new hospitale with 14,677 beds under construction. In France hospital facilities are being provided for from 5 to 10 per cent of the whole expeditionary force, while the army hospital corps is now composed of 24,000 officers and 148,-000 enlisted men, exclusive of the san-

itary corps and army nurses. 4,495 Training Planes Delivered, Deliveries of elementary training clanes up to June 8, Mr. Baker said, otaled 4,495 and advanced training planes totaled 820. The weekly production rate of advanced training planes was 78 on June 8. On that date also 37,250 airplane machine guns had been delivered.

The most difficult undertaking in outfitting an army is the manufacture of heavy artillery, the statement said. New plants had to be provided to make mobile guns, most of them built from the ground up.

"But the artillery program," Mr. Baker added, "is now approaching beginning.

To illustrate the enormous work of the quartermaster department, the following purchases were noted: 2,567,000 hammers; 5,121,000 axes; 10,870,000 files; 1,700,000 halters; 129,000 escort wagons; 26,000 combat wagons; 339,593 horses and mules; 27,249,000 pairs of shoes; 2,340,000 pairs rubber hip boots; 103,028,000 yards denim cloth; 104,333,000 pairs

There are now 45,000 Americans engaged on railroad construction and operation in France, and 22,000 standard gauge freight cars and 1,600 locomotives have been produced in this country for service on the double track railroad from the French coast to the battle section. Additional purchases of both cars and locomo-
