

WORK PLENTIFUL AND LABORERS IN GREAT DEMAND

Shortage of Men Acute in
Omaha; Government Em-
ployment Bureau Has 4,-
000 Positions Open.

The labor situation in Omaha has reached the acute stages. Men are in great demand in practically all branches of the city's industries, and the lack of help is creating considerable worry for the employer. This problem is also true on the farms and railroads throughout the state.

In Omaha, coal dealers have great difficulty in finding men to drive the delivery wagons, to work in the yards or even office help. Increased wages have not bettered the situation to any noticeable degree. Ice dealers also have their troubles. They urgently need wagon drivers and other help.

During June the government employment bureau, 1118 Farnam street, placed 2,294 men in positions and now it could place 4,000 more. Applications are on hand for that number. And the lines of work are so numerous that the man who wants work can pick his job. It is not so much a question of wages as it is men.

Farm laborers are in the greatest demand. Men who are willing to give a fair day's labor in return for the cash of the farmer can get from \$3 to \$5 a day. If these men want to work by the month and remain until after corn shucking, they can hire out at \$50 to \$75 a month and in addition to this they will get board, room and laundry. These are 10-hour a day jobs.

Railroads Need Men.
The Omaha roads have employment for more than 2,000 men. These jobs pay \$2.75 to \$3 a day, with free lodging in bunk cars. In addition, the Omaha roads would take 1,000 to 1,500 section men to do track work. These jobs pay \$2.75 for a 10-hour day. This class of work three years ago paid \$1.25 a day and last year \$1.75.

In the railroad shops there is the greatest demand for mechanics that was ever known and men who are working on piece are earning \$5 to \$7 a day. Machinists helpers, who are mere apprentices, are being paid 28c to 30c an hour while learning their trades. Bridge carpenters are being paid 42c to 45c an hour, with free lodgings in bunk cars.

Teamsters in Demand.
With the increased shortage in labor, teamsters have profited considerably. In the coal business, for instance, during June a man with a team could earn \$18 during a 5-day week. The first of this month the wages went to \$24 a week and even at the advance, the demand for men is far less than the supply. With the increase in the wages paid teamsters, there has been an advance in the price charged for carrying coal from the street to the bin. Prior to July 1 the charge was 50 cents a ton. Now it has been advanced to 60 cents and men who are anxious to carry coal are hard to find.

When the order went out requiring men to get out of non-essential and into essential employment, according to the heads of the government employment, the labor situation was relieved to some extent, but the demand quickly swallowed up the surplus help and at this time it is said that there is no excuse for any man in the city remaining idle, providing he wants to work.

Big Barge Brings Big Load Here on First Trip

The steamer Julius Silber has reached Omaha, bringing the largest single shipment of live stock ever brought down the Missouri river from Decatur to Omaha. It consisted of five cars of hogs and two cars of sheep. There were hauled on the deck of the steamer and on a barge towed by the steamer. The barge was purchased by the company recently in Bismarck, N. D., and this was its first trip. There is plenty of freight to be hauled and both steamers and barges are loaded to capacity on each trip.

Sergeant Russel, Shot in Head, Reported Improving

Police Sergeant William Russell, who was shot in the head Thursday night by some unknown person while leaving Riverview park, is improving nicely from his wound and was able to sit up last night. The bullet caused a slight fracture of the skull. Since the source of the bullet is still a mystery, no arrests have been made in connection with the shooting. Police are investigating the case.

Admits Theft, But Later Denies She Stole Money

Will and Anna Rose, 611 North Eighteenth street, were arrested Friday night on complaint of Sam Waters, 915 Avenue D, Council Bluffs, and are being held for investigation. Waters alleges that he was robbed of \$50 while visiting Rose. A search of Mr. and Mrs. Rose and of the home failed to reveal the hiding place of the alleged stolen money.

Mrs. Rose admitted the theft to police and offered to show the hiding place of the money. She later said she lied about stealing the money, due to having drunk whisky which Waters brought to the home.

School Boy Code of Honor Too Much for Juvenile Judge

The school boy code of honor won out in juvenile court Saturday morning when appeals, cross-examination and threats by Judge Troup and Probation Officer Miller failed to move two school boys.

Earl Ninehart, 14, 1620 Clark street, and Edward McLaughlin, 13, 1819 North Seventeenth street, admitted that they were members of a gang that had assaulted J. E. Daywalt. They insisted, however, that they, themselves, had taken no part in the fracas, and steadfastly refused to inform against their pals. They were released.

I AM GLAD TO ENDORSE PERUNA

Glad to Try Anything

"Three years ago my system was in a terribly run down condition and I was broken out all over my body. I began to be worried about my condition and I was glad to try anything which would relieve me. Peruna was recommended to me as a fine blood remedy and tonic, and I soon found that it was worthy of praise. A few bottles changed my condition materially and in a short time I was all over my trouble. I owe my restoration to health and strength to Peruna. I am glad to endorse it."
