### TENER'S ACTION MAY BRING ON BASE BALL WAR

National League President Accuses American of Violating Agreement; Refuses to Act on Commission.

New York, July 9 .- The imbroglio between the American and National leagues regarding the status of Player Scott Perry flamed afresh today, when John K. Tener, president of the National league, notified his club owners that he would have no further dealings with the National commission, of which he is a member.

This announcement verges dangerously upon a declaration of war between the major organizations, as the national commission rules specifically state that the presidents of the two leagues shall be members of the commission and the National league constitution makes no provision for any

other representative.

President Tener's letter, addressed to each of the club presidents of the senior league, charges the American league with a violation of the national

President Tener's Letter.

President Tener's letter to the National league club presidents read:
"On the 12th of last month the National commission, after careful consideration of all evidence, made decision in what is known as the Scott Perry case, and with which you are familiar, resulting in the awarding of that player to the Boston club of this league.

"As soon as the president of the American league had knowledge of the finding, be advised the commission as follows: 'Under no circumstances or conditions will Perry be turned over to the Boston club. Shortly thereafter the Philadelphia club of the American league took the case to the courts of Cleveland and asked for and received an order restraining the commission from putting its decision into effect and sefting the date of July 20 for a final most ordinary. hearing of the case.

"Under the terms of the national agreement the ruling in any case garet Margrave had taken the first brought before it in which it has jurisdiction is final.
