Beauty, Power, Quality

The New BIG - SIX \$1985

Thoroughly Modern

Mechanically Right

F O. B. Detroit Beautiful in Design NOTE the harmonious design of the body, fenders, radiator, lamps and, general outline of the New Studebaker Big-Six!

See how gracefully the curves of each are blended. Few indeed are the cars which match it in appearance, or in which the modern beveledge body (originated in the Studebaker custombody department) has been so perfectly developed.

Its power-resources are marvelous. Its touring range is ample for ordinary driving; its emergency - range gives express train speed, or extra power for hills or bad going. A touch of the throttle makes the change. But, for all its ability, this is an economical car-remarkably so at the speeds you will usually require. Even its tire-economy is notable.

Its Hotchkiss Drive and flexible couplings make this a delightfully smooth - riding car. The correctness of its mechanism and its stamina have been tried and tested by 40,000 miles of driving under the hardest possible conditions.

The finish, equipment and appointments are of the highest quality; complete and satisfying down to the smallest details.
