Revolutionary Movement in Moscow Still Active; Soviet Troops Restless Under Entente Propaganda.

By Associated Press. Washington, July 13.—Official dispatches today brought a remarkable appeal addressed by the delegates of the works and factories of Petrograd to the workmen of Moscow and all Russia, declaring that the life of the working classes has become intolerable and proclaiming the Russian workmen will never recognize the alliance concluded with Germany.

In a statement today John Sookine of the Russian mission declared again that only the help of the allies could restore Russia and charged that Count von Mirbach, the assassinated German ambassador at Moscow, had proposed German aid for the overthrow of the bolsheviks and a reconsideration of the Brest-Litovsk treaty.

The elements for a national movement tending to liberation from German grip exist in Russia; as revealed by the Moscow revolt, and the valiant Czech-Slovak movement," said Mr. Sookine. "The apparent failure of this movement through combined German-bolshevik attacks proves that any attempt of a national character would not succeed without friendly allied help.

SOCIALISTS IN AGREEMENT UPON BASIS OF PEACE

Favorable Replies Received by British Labor Party From Enemy Countries on Inter-Allied Proposals.

By Associated Press. Northampton, England, July 13.—Arthur Henderson, labor leader and member of the British War cabinet, speaking today at a labor conference here, said the British labor party last month had succeeded in getting its statement of war aims into the hands of the socialists in enemy countries and that five replies thus far had been received.

Mr. Henderson continues: "The first reply came from the Bulgarian socialists, who accepted practically all the general points of our memorandum, reserving some unimportant points regarding Macedonia. The second reply came from the Hungarian workers, who have submitted to the Stockholm committee a statement of policy much on the lines of our memorandum. "The third reply came from the Austrian socialists, who accepted the principles of the inter-allied memorandum as a basis for discussion. They endorsed our conception of a federal system for Austria-Hungary and a similar system for the Balkan states.

"They declared they had always repudiated the Brest-Litovsk peace treaty and they agreed that Alsace-Lorraine and Italian, Polish and colonial questions must be solved in accordance with the desires of the peoples concerned. "Germans Willing to Confer. "The fourth especially came from the German minority socialists, who submitted a statement to the Stockholm committee on the lines of the inter-allied memorandum.

"The fifth and the most significant reply came from the German majority socialists, who endeavored to send it by Troelstra, but the action of the allies in refusing passports to Troelstra prevented the written document from reaching us. Nevertheless, we received a summary which shows that the German majority socialists declared their willingness to take part in an international conversation on the basis of the proposals made by the neutral socialists.

"It also seems clear that the German majority socialists accept virtually all the principles of the inter-allied memorandum. They are ready to discuss even the question of the responsibility for the war, although they think that no good purpose would be served thereby. They are ready to discuss Belgium and Alsace-Lorraine and believe that an amicable solution can be found. They agreed to a complete restoration of Belgian independence. They urge that an international conference would be very useful at this time and finally they declare themselves in favor of a league of nations to prevent aggression by one power upon another."

DOMINIONS TO HAVE VOICE MAKING PEACE

(Continued From Page One.) atives of these islands will determine the conditions under which we are prepared to make peace. Unless I am mistaken, we are pretty well in agreement upon them.

No Huger-Mugger Peace. "There must be no huger-mugger peace. It must be a real peace. We are not waging war for the sake of killing or of being killed, but for the sake of establishing a just and durable peace for the world. You cannot make peace unless it is both just and likely to endure. "We in this country, who have lost hundreds of thousands and have had millions maimed, and you in Canada, whose casualties have amounted to scores of thousands and Australia, who has also played her share in these things—we are not making these sacrifices in order to establish a fraud on this earth, and anything less than a real peace will be defrauding not this generation but the next generation—it will be defrauding humanity.

Germany Grows by Wars. "Germany has waged three wars, and each time she has added through these wars to her strength, to her power, to her guidance, to her influence and each successive war she has waged has inevitably encouraged on to the next. If she had one check, you would not have had this war. If this war succeeds in adding one square yard to her territory, adding one cubic yard to her stature, adding a single iota to her strength, it will simply raise their idea of militarism for which the world is being sacrificed at the present moment. "The god of brute force must this time forever be broken and burnt in its own furnace."

ROUMANIAN PEACE PACT SCORED BY TEUTON DEPUTY

German People Humbugged by Treaty of Bucharest, Declares Member of Conservative Party in Reichstag.

Amsterdam, July 13.—"One or two more such peace treaties and we are lost," exclaims Herr von Graefe, a conservative member of the Reichstag, in an indictment of former Foreign Secretary von Kuehlmann's "no indemnity, no annexations," peace treaty of Bucharest. The article, which is published in the Pan-German Deutsche Zeitung, develops four points, as follows: "First—Austria-Hungary has received by frontier rectifications the lion's share of the most valuable Roumanian territory, but we have to shoulder our billions of war debt.

"Second—The petroleum agreement is an absolute swindle. By it the banks profit, but not the German people. "Third—We get Roumanian grain, but at usury prices, of which the Roumanian treasury is sure to grab the main part by way of export duties, so it is we who pay an indemnity to Roumania. "Fourth—The dynastic question and the position of Jews in Roumania are dealt with on the basis of the Berlin treaty of 1878, when self-determination and rights and noninterference in internal affairs of conquered states had not been invented."

The writer declared the German people have been sadly humbugged and that when their eyes are opened they will heap maledictions upon the heads of those who drafted the Bucharest treaty.
