

BELL VUE HEAD TO BEARD SAMSON ON SARPY NIGHT

President Charles A. Baskerville to Be One of Speakers at Ak-Sar-Ben; Expect 100 from Schuyler.

A college president will be one of the speakers at the Ak-Sar-Ben Monday evening on Sarpy county night.

Charles A. Baskerville, president of Bellevue college, will be one of the representatives of Sarpy county.

Mr. Baskerville is one of the customary addresses. A delegation from Bellevue college will help to swell the total of 400 to 500 which are expected at the den from the county to the south.

E. E. Ruff of Papillion and Henry Secord of Gretna have been boosting for Samson and aiding the work of bringing up the usual large crowd from Sarpy county.

Delegations have been assured from Bellevue, Papillion, Gretna, Louisville, Springfield and all the towns and balliwicks of the county.

In addition to the visitors from Sarpy county, Samson will be host Monday night to 200 delegates to the Missouri Valley Veterinarians' association, which begins its annual convention in Omaha Monday morning.

Expect 100 From Schuyler. At least 100 delegates from Schuyler, Neb., will make up another crowd of guests at the den Monday night.

There delegates have been controlled by J. Folda, banker of Schuyler and a staunch adherent and booster for Ak-Sar-Ben.

Then, of course, there will be the regular contingent of 200 soldiers from Fort Omaha, who will make the trip to the den in the army trucks.

Colonel Hersey is handing out special furloughs each Monday night to 200 soldiers to visit the den show. And the soldiers form the most enthusiastic part of the audience, too.

So that one of the biggest audiences of the year awaits Samson's performance for Monday night. The knights and the actors and players in the orchestra have been turning out faithfully all season—even during the sultry season. The show has all of the rough spots ironed out and goes off snappier than ever.

Saunders county night follows on July 22 and Fremont night on July 29. George Wols, president of the Commercial club in Fremont, has promised "Dad" Weaver a large delegation. August 5 will be the night set aside for Herman, Tekamah and Blair.

Estelle Marquette Found in Her Room Shot Through Lung

Estelle Marquette, 420 South Thirteenth street, a well known police character, was found shot through the left lung, in her room shortly after 6 o'clock Saturday night.

The supposition is that she made an attempt to commit suicide. She is not expected to live.

Nellie Jacks, the woman's colored maid, hearing the shot, ran into the room and seeing her mistress's condition, immediately summoned Dr. James S. Lowey, who had her removed to St. Catherine's hospital.

A .38-caliber Colt automatic revolver, and an empty cartridge were found near where the woman fell. She was still conscious when the doctor arrived and cried out: "I don't know why I did it." As far as is known, no one was in the room at the time of the shot.

The bullet entered between the third and fourth ribs just above the breast on the left side. Doctors at the hospital were unable to find its exact position, but think it to be lodged in the small of the back. It passed through the left lung.

The woman has been making her home in the rooms over the combination Tire Manufacturing Co., 422 South Thirteenth street. She is about 35 years old. She was arrested about a month ago on a charge of illegal possession of liquor.

Under the name of Mrs. Ida Smith, she has filed a petition for divorce from Al Smith in the district court, alleging that he runs the Smith Taxicab company without her consent.

Judge Wakeley Decides Woman Must Submit to An Examination. Can a woman be arrested without a warrant, can she be subjected to a physical examination without her consent, and can she be sent to the city detention hospital without her consent?

Will Lead New Movement of Congregational Church

A movement recently begun by the Congregational churches of Omaha and Council Bluffs in the interest of greater efficiency was given an impetus by the recent organization of what is to be known as the Missouri Valley Congregational Union.

The work of this union, of which Rev. Frederick W. Leavitt has been made superintendent, will be to conserve the work of the smaller churches, uniting that work under one head where necessary, and to develop the interests of the Congregational churches in new sections of the two cities.

Included directly under the union, and in charge of Mr. Leavitt at the present time are the Dodge Memorial church in Council Bluffs, the South Side church, west of the packing houses, and the Belvidere Community Chapel, near Fort Omaha.

Mr. Leavitt has been for eight years pastor of Plymouth Congregational church in this city, and is thoroughly familiar with the situation. His pastorate, which closed last Sunday, went back to the cyclone days, and he led his church in the erection of what is considered one of the best planned of the smaller churches in the city, to replace the structure destroyed by the cyclone.

During his pastorate 300 new members were received in the church and it was placed on a substantial basis in every way.

Appeals From Order to Pay A. O. U. W. \$13,000. Through her attorneys, Mrs. Della M. Dodder, widow of Edward L. Dodder, grand treasurer of the Ancient Order of United Workmen, who was found dead in his automobile on a road north of Florence, has filed an appeal from the order of the county court requiring her to pay \$13,000 out of her husband's estate to the Ancient Order of United Workmen.

She was ordered to pay this amount by the county court on June 17.

W. T. Graham Made Secretary of First Trust Company. W. T. Graham, president of the First National Bank of Laurel, Neb., has severed his connection with that bank and comes to Omaha as secretary and director of the First Trust

company, and will be connected with the active management of the company.

Mr. Graham is well known to all our bankers as one of the most successful bankers in northeastern Nebraska and in coming to this wider field brings to the discharge of his duties many years of ripe experience in the farm loan and banking business, and will prove a most desirable acquisition to the business interests of Omaha.

He expects to be here August 1 and his family will shortly follow.

New York to Name Street in Honor of French Hero. New York, July 13.—Mayor Hylan next week will request the board of estimate to name one of the finest New York thoroughfares as the "Avenue Joffre" in honor of the hero of the Marne.

Shriver for County Treasurer.—A "Shriver for County Treasurer" booster club was organized Saturday afternoon with Robert Cowell, president, and Frank Wilcox secretary. Temporary headquarters will be at No. 1047-9 Omaha National Bank building. The purpose is to boost for W. G. Shriver for county treasurer.

Wright's Orchestra at Henshaw.—Wright's jazz orchestra will entertain diners at the Henshaw cafe all this week with pop ar pieces and new cabaret stunts. One of the features of the work of the band is Al Wright, the leader, on the saxophone, and C. Hendricks, expert on the cello-banjo. The orchestra will play from 8 to 8:30 and from 9:30 to 12:00 o'clock.

Showers in Western Nebraska.—While no rain fell in eastern and central Nebraska Friday night, there were numerous fairly heavy showers over the western part of the state. Rain extended as far east as North Platte. Eastern Colorado was given a drenching, reports indicating that at Holyoke the precipitation was three inches.

AMERICA NEEDS NO FOREIGN FURS NOW

J. A. Witt Says Imports Have Ceased and This Country Has Become Export Center.

The extreme severity of last winter and the threatened coal shortage this year make everyone appreciate that the fur garment is one of the

most valued as well as extremely stylish, habiliment one can have. Manufacturers have anticipated an unusual demand for furs and despite the fact that imports from Russia and Europe generally have almost ceased, this country has such a variety of fur-bearing animals that America is supplying Europe today with more than Europe supplied to America formerly.

J. A. Witt, the buyer of read-to-wear for the Brandeis Stores, has just returned from an extensive buying trip to the east and has interviewed the most progressive and daring style artists. Mr. Witt came back with this big

thought suggested by the government educational campaign now being carried on in the east: "Buy better merchandise, because it will wear longer, thereby reducing the quantity of production and releasing labor for other pursuits."

The fur market presented particularly impressive features. Fur selling was extremely active until well into spring.

Mannish type fur coats are in evidence this season as never before. Looking for work? Turn to the Help Wanted Columns now. You will find hundreds of positions listed there.

We illustrate one of several handsome mahogany chairs to be sold at a sale price, this one was \$29.00, in the sale it is \$22.00

If Other Makers Use The "Hot Spot" Why Don't They Know What It Does?

It has been amusing to us to see the avidity with which rival makers and especially salesmen, have echoed the Chalmers statements about the "Hot Spot" and its virtues.

If you believe all you hear, they all have the "Hot Spot" now. But when you analyze the various assertions, you find that while they use the term, it is doubtful if they really know what it means.

For example, one maker advertises that the "Hot Spot" makes his motor start easier when cold. Now that is ridiculous. The "Hot Spot" does not come into action until it is made hot by the exhaust from the running motor.

So you see it has no bearing whatsoever on the starting of the motor, easy or otherwise.

It is that other Chalmers feature, the "Rams Horn" manifold, that makes the Chalmers start easy at all times, in all climates and with all brands of gasoline,—good, bad and indifferent.

We have featured the combination of "Hot Spot" and "Rams Horn" Manifold as giving to this car qualities possessed in the same degree by no other namely,—gasoline economy, smooth running, more power and easy starting.

It's a pity there is no way of patenting adjectives or copyrighting coined phrases—it would protect copyists from falling into ridiculous errors!

The terms "Hot Spot" and "Rams Horn" are coined phrases originated in Chalmers publicity and, according to all the ethics of advertising, they belong exclusively to the Chalmers.

So far as we are concerned, we don't care how many copy the terms—imitation is the sincerest form of flattery.

Nor do we object to other engineers applying the principles indicated by those terms—if they know how.

One of the rewards of leadership is to be copied—imitated.

But it would seem as if the engineer who tries to achieve results by adopting these Chalmers discoveries, might instruct the sales organization as to what each feature does—for surely someone is in error as to that if we are to judge by the advertisements.

By the way; you have read and heard much about these two Chalmers discoveries—do you really know what a tremendous improvement they, together, make in a motor car?

If you don't, just ask a Chalmers salesman—he will be delighted to tell you, and then you'll understand why everybody in the trade says, "This is a Chalmers year."
