

PRISON TERM FOR JACK LAWSON FOR STEALING AUTOS

Sentenced One to Seven Years at Fremont; German Text Books Burned at Hooper Celebration.

Fremont, Neb., July 13.—(Special Telegram)—Jack Lawson, 20 years old, was sentenced to from one to seven years in the penitentiary by Judge Button this afternoon, when he pleaded guilty to stealing an automobile belonging to A. C. Jensen of Fremont a month ago.

Lawson was taken in custody near Rosalie, after he had broken jail at Decatur, escaping from a posse of Decatur Home guards after a chase of five miles, and swimming the Missouri river, then breaking away from a marshal at Rosalie as he was being led in the jail at that place.

He surrendered a mile out of Rosalie, after a number of shots had been fired at him by home guards.

Lawson sold an automobile he confessed stealing at Atlantic, Ia., to H. S. McGee of Decatur, a day before he came to Fremont and stole Jensen's car. He asked the leniency of the court in pronouncing sentence, on promise to enter the army. Judge Button said he would recommend leniency to Governor Neville after Lawson pays over the money he received from Mr. McGee.

Tomorrow Is a New Day

If you made mistakes in the past, make amends for the future

All laws are dependent upon the Bible, Custom and the Statute Book. Read them over and see if you are not, or have not been, "a law breaker." There are thousands of men in the penitentiary today good enough to be out—they are IN because they were unfortunate—caught, perhaps, at their first offense before they had time to consider consequences and reform.

There are thousands of others OUTSIDE today who ought to be IN. They were fortunate in escaping detection, and therefore escaped punishment. If every unlawful act, every unworthy action, were instantly detected and promptly punished, WHO WOULD BE LEFT TO ACT AS JAILERS?

The admonition, "Judge not lest ye be judged," applies to us all. We had best search out our OWN faults and correct them, instead of pointing the accusing finger at our neighbor.

The Past is gone forever—the Future forgets your small acts of yesterday, in contemplating your big acts of today and tomorrow.

George Washington cut down his father's cherry tree; Abraham Lincoln "borrowed" an apple from a neighboring orchard—WHAT DID YOU DO?

I know I have my faults—know it better than anyone else—but until I opened this dental office and gave the people a taste of BETTER DENTISTRY and FAIR PRICES, I did not realize just how "bad" a man I was; but my competitors are spending a good deal of time advertising the fact that I am not perfect—even while admitting I am a pretty good dentist.

Chiropractic

Question—"What can Chiropractic do for Asthma?" Asthma is a chronic affection of the respiratory apparatus, characterized by great difficulty in breathing, recurring at intervals, accompanied by wheezing sounds, a sense of constriction in the chest and sometimes cough and expectoration. Nerve impingement interferes with the transmission and expression of two functions, viz.: Motor, producing the muscular contraction, and calorific, bringing about the hyperaemia and swelling. Adjustment of the subluxated vertebrae producing the impingement permits normal transmission and expression of mental impulses, therefore normal function in the bronchial tubes.

A fair trial will convince even the skeptic that the Chiropractic theory and practice is absolutely correct and applicable to your trouble. Consultation is free. Adjustments are \$1.00 or 12 for \$10.00. Outside calls are \$2.50.
