

M'KELVIE BACKED BY NO FACTION, HE SAYS IN SPEECH

Luncheon by Political Club at Lincoln Largely Attended; Hopes to Avoid Rift in Party.

From a Staff Correspondent.
Lincoln, Neb., July 26.—(Special Telegram.)—"I am not the candidate of any faction nor will I be," were the words of S. R. McKelvie, candidate for the republican nomination for governor, at a luncheon of the McKelvie club today at the Lindell hotel, participated in by more than 50 republicans.
Mr. McKelvie said he wanted to be in a position so that if he was not selected as the party's leader on the state ticket, to be able to get behind the man who might be nominated and help elect him.
Allen W. Field, who presided at the luncheon, attacked R. B. Howell for entering the race at the last hour thus preventing unanimity in the party. F. M. Hall said he never attended one of the McKelvie meetings before, but he was wholeheartedly behind the Lincoln man.
Nels P. Hansen, one of the leaders in the progressive movement of a few years ago, endorsed Mr. McKelvie's candidacy and told of the life-work of the candidate.
"The people of Lincoln could well afford to endorse the candidacy of Mr. McKelvie," said he.

Hall County Will Not Oppose Ratification of Prohibition

Grand Island, Neb., July 26.—(Special.)—For the two nominations to be made in this county the republicans have three candidates for the legislature and one filing for the state senate. The democrats have only one filing for the two representatives and one filing for the senate, though there are said to be two filings in Howard and Greeley counties on each side for the state senate. Since the filings have been closed it is observed that not one of the candidates is out in opposition to the ratification of the national prohibition amendment, whereas every candidate admittedly having a chance to be nominated is outspoken for such ratification. Hall county, therefore, though voting in the wet column by a small majority in November, 1917, will not only provide a solid vote for ratification but not even an effort has been made to bring out any candidate opposed to such action.

Reed Says Lawmakers May Not Receive Pay For Extra Session

From a Staff Correspondent.
Lincoln, July 26.—(Special.)—Members of the legislature who attended the special session will not receive pay for attendance unless the supreme court construes the constitution that a special session is not included in the \$600 pay a member receives at the regular session.
This is the opinion coming from Attorney General Reed, made upon a request for a ruling by State Auditor Smith, and in effect is that while members may draw mileage for the session they cannot draw the regular \$10 a day pay generally considered a member's pay.

SHIPS FOR WAR TIES IN PEACE OF PROSPERITY

Hurley Tells Latin Guests Neighbors Will Share in Great Merchant Marine's Benefits.

Philadelphia, July 26.—Latin American diplomats, the guests of the shipping board at an inspection of the Hog Island ship yard, were told today by Chairman Hurley that the great merchant marine now being built by the United States must bring prosperity to America's neighbors as well as to this country, or the pride of the United States in the achievement will be diminished.

"You may send back to your own peoples the word that these ships will not be used exclusively for this nation's aggrandizement in peace," he declared, "any more than they are used for such aggrandizement in the war that is now waging. Our duty is to build a bridge of ships to our fighting front in France. Our expectation is that a large part of this bridge will be used to connect us more closely with our neighbors when the war is over—a bridge that will be used as freely and with quite as much advantage by our neighbors as by ourselves."

"It has been taken down as a rule of our conduct at home during the war that no excessive profit shall be made out of the struggle of humanity. That rule will not be lifted when peace comes."

Ships to Aid Neighbors

"The ships that are being built by the United States as instruments of war are designed to serve equally well as the instruments of peace. The great fleet that this country is building will be operated after the war upon principles which recognize human and national rights and equi-

ties. That fleet will serve Latin America as it serves the people of the United States. It will serve the world in fighting for the cause of liberty.
"When the war is won, as it must be if this hemisphere is to be freed from the constant menace of militarism, the ships that have served their military purposes will play a large part in bringing the neighboring nations of this continent closer together, reducing the delays in making personal and commercial contact, and cementing the bonds of comradeship."
